in The Ten Commandments because his broken nose made him look like Michelangelo's famous sculpture of Moses. Finally, no one knows Einstein's last words. They were in German, a language his nurse did not speak. A treasure trove filled with fascinating anecdotes about the tiny ripples that created big waves in history. Napoleon's Hemorrhoids is much more than just a trivial fact book; it is an astonishing historical fate book revealing how our most famous incidents, best loved works of art, and most accepted historical outcomes are simply twists of fate.

The Living Age, 1928

American Film in the Digital Age Robert C. Sickels, 2010-12-08. This eclectic yet comprehensive analytical overview of the cataclysmic changes in the American film industry since 1990 shows how they have collectively resulted in a new era: The Digital Age. The American film industry has entered a new era. *American Film in the Digital Age* traces the industrial changes since 1990 that have brought us to this point, namely the rise of media conglomerates, the proliferation of pornography through peripheral avenues of mainstream media, the role of star actors and directors in distributing and publicizing their own pet projects, the development of digital technology, and the death of truly independent films. Author Robert Sickels draws straight lines from the movies to music, DVDs, video games, fast food, digital on-demand, and more to demonstrate how all forms of media are merging into one. He explores the irony that the success of independent films essentially killed independent cinema, showing how it has become almost impossible to get a film released without the imprimatur of one of the big six media companies: Fox, Viacom, Time Warner, Disney, General Electric, or CBS. In the end, using recent popular films as examples, he explains not only how we got where we are but where we're likely headed as well.

painterly references This book examines how art historical images affect historical films by going beyond period detail and surface design to look at how profound ideas about history are communicated through pictures Art and the Historical Film Between Realism and the Sublime is based on case studies that explore the links between art and cinema including American independent Western Meek s Cutoff Kelly Reichardt 2010 British heritage film Belle Amma Asante 2013 and Dutch national epic Admiral Roel Rein 2014 The chapters create immersive worlds that communicate distinct ideas about the past through cinematography production design and direction as the films adapt reference and transpose paintings by artists such as Rubens Albert Bierstadt and Jacques Louis David

Thinking Revolution Through Film Hanno Berger,2022-09-20 This book aims to redefine the relationship between film and revolution Starting with Hannah Arendt s thoughts on the American and French Revolution it argues that from a theoretical perspective revolutions can be understood as describing a relationship between time and movement and that ultimately the spectators and not the actors in a revolution decide its outcome Focusing on the concepts of time movement and spectators this study develops an understanding of film not as a medium of agitation but as a way of thinking that relates to the idea of historicity that opened up with the American and French Revolution a way of thinking that can expand our very notion of revolution The book explores this expansion through an analysis of three audiovisual stagings of revolution Abel Gance s epic on the French Revolution Napol on Warren Beatty s essay on the Russian Revolution Reds and the miniseries John Adams about the American Revolution The author thereby offers a fresh take on the questions of revolution and historicity from the perspective of film studies
