Narrative Truths And Historical Truths Meaning And Interpretation In Psychoanalysis:

Narrative Truth and Historical Truth Donald P. Spence, 1984 Jam packed with clinical theoretical investigative methodological philosophical literary and conceptual sophistication and richness Philip Rubovits Seitz M D Journal of Nervous and Mental Disease **Voicing Trauma and Truth: Narratives of Disruption and Transformation** Oliver Bray, Peter Bray, 2020-10-12 The Freudian Reading Lis Møller, Lis Møller, 2016-11-11 Selected by Choice magazine as an Outstanding Academic Title In *The Freudian Reading* Lis Møller examines the premises procedures and objectives of psychoanalytic reading in order to question the kind of knowledge such readings produce But above all she questions the role of Freud as master explicator Although Freud has been seen as a great synthesizer Møller contends that his significance as a reader lies elsewhere For Møller this significance lies in the way Freud presses his inquiry to the point where he encounters something he cannot explain or that he can only explain at the risk of overthrowing previous conclusions Such moments of crisis occur repeatedly in Freud's work causing him to swerve from his original train of thought or even to call into question the theoretical foundation of his interpretation The dominant line of argument therefore is frequently punctuated with problems and questions If we concentrate on these Møller argues we are forced to reconsider the traditional conception of a Freudian reading and to reassess our perceived notions of just what kind of reader Freud was While *The Freudian Reading* is based on a wide range of Freud's writings it concentrates on four central texts *Delusions and Dreams in Jensen's Gradiva* *From the History of an Infantile Neurosis* *The Uncanny* and *Constructions in Analysis* The discussion does not progress chronologically Rather it explores the ways in which these texts interact how they reflect comment on and contradict one another *The Freudian Reading* is a concentrated subtle analysis of Freud's interpretive practice with special reference to his interpretations of literary texts It will be of interest to scholars and students of literary theory and criticism as well as to readers in the field of psychoanalysis Narrative Matters in Medical Contexts across Disciplines Franziska Gygax, Miriam A. Locher, 2015-03-13 This collection of original chapters gives center stage to the concept of narrative in medical contexts The contributors come from the disciplines of literary and cultural studies linguistics psychology and medicine and work with texts as diverse as autobiographies graphic novels Renaissance medical treatises and reports short stories reflective writing creative writing and online narratives The interdisciplinary dialogue shows the richness and scope of the concept narrative and demonstrates how crucial it is for practices in the medical context as well as in the contributing disciplines The collection raises awareness of the great variety and multivocality of narratives on the experience of illness besides paying heed to the many different positions and angles from which these narratives can be perceived read and analyzed The wide range of approaches assembled in this collection provides a comprehensive view on illness and health and on the multiple ways in which they are represented in narrative **Narration, Identity, and Historical Consciousness** Jürgen Straub, 2006-01-01 A generally acknowledged characteristic of modern life namely the temporalization of experience inextricable from our

intensified experience of contingency and difference has until now remained largely outside psychology's purview. Wherever questions about the development, structure and function of the concept of time have been posed, for example by Piaget and other founders of genetic structuralism, they have been concerned predominantly with concepts of physical, chronometrical time and related concepts, e.g. velocity. All the contributions to the present volume attempt to close this gap. A larger number are especially interested in the narration of stories. Overviews of the relevant literature as well as empirical case studies appear alongside theoretical and methodological reflections. Most contributions refer to specifically historical phenomena and meaning constructions. Some touch on the subjects of biographical memory and biographical constructions of reality. Of all the various affinities between the contributions collected here, the most important is their consistent attention to issues of the constitution and representation of temporal experience.

Psychoanalytic Knowledge M. Chung, C. Feltham, 2003-11-04
 Psychoanalytic Knowledge presents cutting edge thinking on some fundamental ideas in psychoanalysis by important international scholars in the field of the philosophy of psychoanalysis. It explores the nature of psychoanalytic knowledge in the light of contemporary philosophical views or critiques of a diversity of topics relevant to psychoanalysis: the philosophy of mind, the notion of changing oneself, religion, the notion of interdisciplinary links with psychoanalytic knowledge, post-Freudian psychoanalytic knowledge and challenges to psychoanalytic methodology.

Narrative Therapies with Children and Their Families Arlene Vetere, Emilia Dowling, 2016-09-02

Psycho-Analysis as History Michael S. Roth, 2019-05-15
 In this book Michael S. Roth argues that psychoanalysis as Freud conceived it is first and foremost a theory of history which aims at freedom through a self-consciousness of the presentness of the past.

The Practice of Theory Keith Moxey, 2018-07-05
 Many art historians regard poststructuralist theory with suspicion; some even see its focus on the political dimension of language as hostile to an

authentic study of the past Keith Moxey bridges the gap between historical and theoretical approaches with the provocative argument that we cannot have one without the other If art history is to take part in the processes of cultural transformation that characterize our society he writes then its historical narratives must come to terms with the most powerful and influential theories that currently determine the way in which we conceive of ourselves After exploring how the insights offered by deconstruction and semiotics change our understanding of representation ideology and authorship Moxey himself puts theory into practice In a series of engaging essays accompanied by twenty eight illustrations he first examines the impact of cultural values on Erwin Panofsky s writings Taking a fresh look at work by artists from Albrecht Dürer and Erhard Schön to Barbara Kruger and Julian Schnabel he then examines the process by which the generic boundaries between high and low art have helped to sustain class and gender differences Making particular reference to the literature on Martin Schongauer Moxey also considers the value of art history when it is reduced to artist s biography Moxey s interpretation of the work of Hieronymus Bosch not only reassesses its intelligence and imagination but also brings to light its pragmatic conformity to elite definitions of artistic genius With his compelling analysis of the politics of interpretation Moxey draws attention to a vital aspect of the cultural importance of history

Crisis of Authority Nancy Luxon, 2013 Contemporary social and political theory has reached an impasse about a problem that had once seemed straightforward how can individuals make ethical judgments about power and politics *Crisis of Authority* analyzes the practices that bind authority trust and truthfulness in contemporary theory and politics Drawing on newly available archival materials Nancy Luxon locates two models for such practices in Sigmund Freud s writings on psychoanalytic technique and Michel Foucault s unpublished lectures on the ancient ethical practices of fearless speech or parrhesia Luxon argues that the dynamics provoked by the figures of psychoanalyst and truth teller are central to this process Her account offers a more supple understanding of the modern ethical subject and new insights into political authority and authorship

A Psychoanalytic Exploration of the Contemporary Search for Pleasure Vaia Tsolas, Christine Anzieu-Premmereur, 2023-07-19 This interdisciplinary collection of essays explores the malaise of the contemporary individual by returning the economic point of

view of Freudian thinking the concept of satisfaction libido and pleasure unpleasure principle to their rightful place as the motivating forces of human existence For Freud pleasure stands apart from other human experiences side by side with unpleasure always a bonus in the search for satisfaction of the pleasure principle and beyond Along with libido emotional fulfillment and the capacities for sublimation and play pleasure has not been given enough attention in the psychoanalytic literature The editors of this book address this lack and highlight the importance of examining today's social and individual malaise through these specific lenses of inquiry It is particularly timely and important today to address this lack and thereby examine the impact of the social phenomena of the pandemic the crises of ideals and virtuality on the subject who feels in a state of constant emergency overwhelmed addicted and delibidinalized With contributions from across psychoanalysis this book is essential reading for psychoanalysts in training and in practice who want to understand how the modern world has shaped our understanding of pleasure

Beyond Nostalgia Ruth E. Ray, 2000 For three years Ruth E Ray visited and participated in eight writing groups at six senior centers in inner city and suburban Detroit looking for ways in which the elderly fashion their memories through personal narrative Her innovative book involves the reader in the construction of life stories as a richly rewarding and highly social process that often reveals the types of relationships that dominate the lives of group members the majority of whom are women Because Ray wrote and responded herself and shares her anxiety and triumph in presenting her writing to women old enough to be her mother some of a different race and class Beyond Nostalgia is an excellent primer for professionals working with diverse groups in a variety of settings It is also an important contribution to the emerging field of feminist gerontology Ray's book

demonstrates its own thesis that the presentation and negotiation of life stories in writing groups initiates change and personal growth among older people Drawing on personal observations the give and take of meeting conversations lengthy interviews and the life stories themselves Ray tells a story of adult development through personal narrative She recreates the group process through which age peers begin to articulate what life means both individually and collectively The writing groups of older adults that Ray studied challenged their members to consider not just cultural influences but generational effects on the evolving content and structure of their life stories Age Ray argues has been largely ignored by feminists and she makes a strong case for the need to learn how women make meaning of their lives across the life span As an important document and analysis of that process Beyond Nostalgia should appeal to academics and practitioners in women s studies composition studies gerontology developmental psychology sociology social work and linguistics and to anyone who works with older people

Close Encounters Robert Winer, 1994 The traditional view of the therapeutic interaction fails to capture the heart of the process when it pictures the therapist as disinterested and distanced agent of change Growing interest in the helpful use of countertransference reflects a shift toward a two person view of treatment There has been surprisingly little effort however to explore systematically the full potential of such a model for making sense of the therapeutic process Emphasis on the relational aspect of treatment has too often been derisively equated with the idea that cure occurs through a sophisticated form of parental caring with the role of interpretation being essentially incidental The fear of being discredited in this way has kept therapists from trying to conceptualize the ways in which a two person process in fact underlies the patient s and therapist s search for meaning Contrasts a One person and a Two person Analysis of an Initial Interview In Close Encounters Dr Robert Winer takes on this quest He begins by dramatizing the differences through contrasting a one person and a two person analysis of an initial interview Having demonstrated the problem he then reviews the ways in which both American and British authors have introduced relational considerations and shows how the intrapsychic and interpersonal views of man complement each other Throughout the book Dr Winer illustrates his reasoning with clinical accounts in which he offers a frank and vivid description of his own participation Marriage Can be Usefully Taken as a Metaphor for Therapy Dr Winer explores the two person view from a variety of vantage points He suggests that the implicit model of therapy as a parent child endeavor can be usefully revised by taking marriage as the metaphor From another perspective he suggests that the contemporary interest in narratives makes more sense when the storytelling is conceptualized as a two person endeavor Freud s account of his treatment of the Wolf Man is offered as a cautionary tale to illustrate on this quest He begins by dramatizing the differences through contrasting a one person and a two person analysis of an initial interview Having demonstrated the problem he then reviews the ways in which both American and British authors have introduced relational considerations and shows how the intrapsychic and interpersonal views of man complement each other Throughout the book Dr Winer illustrates his reasoning with clinical accounts in which he offers a

The Comparative Perspective on Literature Clayton Koelb, 2019-06-30

Few would deny that comparative literature is rapidly moving from the periphery toward the center of literary studies in North America but many are still unsure just what it is

The Comparative Perspective on Literature shows by means of twenty two exemplary essays by many of the most distinguished scholars in the field how comparative literature as a discipline is conceived of and practiced in the 1980s

Nearly all of them published here for the first time the essays discuss and themselves reflect significant changes at the core of the field as well as evolving notions as to what comparative literature is and should be

The volume editors Clayton Koelb and Susan Noakes have included essays that address the scope and concerns of comparative literature today historical and international contexts of the field and the relationship of literary criticism to other disciplines as well as affording comparative perspectives on current critical issues

Nietzsche's Presence in Freud's Life and Thought Ronald Lehrer, 1995-01-01

This book examines the nature of Freud's relationship to the philosopher Friedrich Nietzsche

Nietzsche regarded himself among other things as a psychologist

His psychological explorations included an understanding of the meaning and function of dreams the unconscious sublimation of drives drives turned inward upon the self unconscious guilt unconscious envy unconscious resistance and much more that anticipated some of Freud's fundamental psychoanalytic concepts

Although Freud wrote of Nietzsche having anticipated psychoanalytic concepts he denied that Nietzsche had any influence on his thought

Relational Freedom Donnel B. Stern, 2015-06-12

Relational Freedom Emergent Properties of the Interpersonal Field addresses the interpersonal field in clinical psychoanalysis and psychotherapy especially the emergent qualities of the field

The book builds on the foundation of unformulated experience dissociation and enactment defined and explored in Stern's previous widely read books

Stern never considers the analyst or the patient alone all clinical events take place between them and involve them both

Their conscious and unconscious conduct and experience are the field's substance

We can say that the changing nature of the field determines the experience that patient and analyst can create in one another's presence but we can also say that the therapeutic dyad simply by doing their work together ceaselessly configures and reconfigures the field

Relational freedom is Stern's own interpersonal and relational conception of the field which he compares along with other varieties of interpersonal relational field theory to the work of Bionian field theorists such as Madeleine and Willy Baranger and Antonino Ferro

Other chapters concern the role of the field in accessing the frozen experience of trauma in creating theories of therapeutic technique evaluating quantitative psychotherapy research

evaluating the utility of the concept of unconscious phantasy treating the hard to engage patient and in devising the ideal psychoanalytic institute *Relational Freedom* is a clear authoritative and impassioned statement of the current state of interpersonal and relational psychoanalytic theory and clinical thinking It will interest anyone who wants to stay up to date with current developments in American psychoanalysis and for those newer to the field it will serve as an introduction to many of the important questions in contemporary psychoanalysis Psychoanalysts and psychotherapists of all kinds will profit from the book's thoughtful discussions of clinical problems and quandaries Donnel B Stern Ph D a psychoanalyst and psychotherapist in private practice in New York City serves as Training and Supervising Analyst at the William Alanson White Institute and Adjunct Clinical Professor and Consultant at the NYU Postdoctoral Program in Psychotherapy and Psychoanalysis He is the founder and editor of *Psychoanalysis in a New Key* a book series published by Routledge
