National Aeronautics and Space Administration. Scientific and Technical Information Branch,1983      Decolonisation and Regional Geopolitics Lazlo Passemiers,2019-03-11 Decolonisation and Regional Geopolitics argues that as much as the Congo crisis 1960 1965 was a Cold War battleground so too was it a battleground for Southern Africa s decolonisation This book provides a transnational history of African decolonisation apartheid diplomacy and Southern African nationalist movements It answers three central questions First what was the nature of South African involvement in the Congo crisis Second what was the rationale for this involvement Third how did South Africans perceive the crisis Innovatively the book shifts the focus on the Congo crisis away from Cold War intervention and centres it around African decolonisation and regional geopolitics      **Global Perspectives on Victimization Analysis and Prevention** Ayodele, Johnson Oluwole,2019-11-29 Over the past two decades both developed and developing countries have experienced major individual and collective tragic victimizations leading to major structural and systemic transformations as a consequence of the influence of organized crime and international terrorism These trends many of which as noted earlier are global in spread and have catastrophic outcomes revolve around some categories of political diplomacy and unsatisfactory reform responses to spiraling discontent among motivated youths Global Perspectives on Victimization Analysis and Prevention is an essential research book that provides comprehensive research on postmodern crime prevention and control strategies as well as potential transformations that could be seen in victimology It offers resources to understand and analyze the main issues relevant framework and contextual intricacies within which public safety agendas are articulated and implemented across the globe Highlighting a wide range of topics such as public safety crime prevention and terrorism this book is essential for criminologists law enforcement victim advocates criminal profilers crime analysts academicians policymakers researchers security planners NGOs government officials and students      **Energy** ,1975      **Gordian Knot** Ryan M. Irwin,2012-09-07 Writing more than one hundred years ago African American scholar W E B Du Bois speculated that the great dilemma of the twentieth century would be the problem of the color line Nowhere was the dilemma of racial discrimination more entrenched and more complex than South Africa Gordian Knot examines South Africa s freedom struggle in the years surrounding African decolonization using the global apartheid debate to explore the way new nation states changed the international community during the mid twentieth century At the highpoint of decolonization South Africa s problems shaped a transnational conversation about nationhood Arguments about racial justice which crested as Europe relinquished imperial control of Africa and the Caribbean elided a deeper contest over the meaning of sovereignty territoriality and development

Based on research in African American and European archives Gordian Knot advances a bold new interpretation about African decolonization's relationship to American power. In so doing it promises to shed light on U.S. foreign relations with the Third World and recast understandings of the fate of liberal internationalism after World War II. **Monthly Catalog of**

*a Continuing Bibliography with Indexes*, 1981 The Ideological Scramble for Africa Frank Gerits, 2023-03-15 In *The Ideological Scramble for Africa* Frank Gerits examines how African leaders in the 1950s and 1960s crafted an anticolonial modernization project. Rather than choose Cold War sides between East and West anticolonial nationalists worked to reverse the psychological and cultural destruction of colonialism. Kwame Nkrumah's African Union was envisioned as a federation of liberation to challenge the extant imperial forces: the US empire of liberty, the Soviet empire of equality, and the European empires of exploitation. In the 1950s the goal of proving the potency of a pan-African ideology shaped the agenda of the Bandung Conference and Ghana's support for African liberation while also determining what was at stake in the Congo crisis and in the fight against white minority rule in southern and eastern Africa. In the 1960s the attempt to remake African psychology was abandoned and socioeconomic development came into focus. Anticolonial nationalists did not simply resist or utilize imperial and Cold War pressures but drew strength from the example of the Haitian Revolution of 1791 in which Toussaint Louverture demanded the universal application of Europe's Enlightenment values. The liberationists of the postwar period wanted to redesign society in the image of the revolution that had created them. *The Ideological Scramble for Africa*

demonstrates that the Cold War struggle between capitalism and Communism was only one of two ideological struggles that picked up speed after 1945 the battle between liberation and imperialism proved to be more enduring      **Scientific American** ,2008      The History of Rocket Technology William M.
