Corwin, 1997-08 *American Book Publishing Record*, 2006 *Subject Guide to Books in Print*, 1991 ***The Parent Trap*** Nate G. Hilger, 2023-04-04 How parents have been set up to fail and why helping them succeed is the key to achieving a fair and prosperous society Few people realize that raising children is the single largest industry in the United States Yet this vital work receives little political support and its primary workers parents labor in isolation If they ask for help they are made to feel inadequate there is no centralized organization to represent their interests and there is virtually nothing spent on research and development to help them achieve their goals It's almost as if parents are set up to fail and the result is lost opportunities that limit children's success and make us all worse off In *The Parent Trap* Nate Hilger combines cutting edge social science research revealing historical case studies and on the ground investigation to recast parenting as the hidden crucible of inequality Parents are expected not only to care for their children but to help them develop the skills they will need to thrive in today's socioeconomic reality but most parents including even the most caring parents on the planet are not trained in skill development and lack the resources to get help How do we fix this The solution Hilger argues is to ask less of parents not more America should consider child development a public investment with a monumental payoff We need a program like Medicare call it Familycare to drive this investment To make it happen parents need to organize to wield their political power on behalf of children who will always be the largest bloc of disenfranchised people in this country *The Parent Trap* exposes the true costs of our society's unrealistic expectations around parenting and lays out a profoundly hopeful blueprint for reform ***Forthcoming Books*** Rose Arny, 1997 ***Overcoming Parent-Child Contact Problems*** Abigail M. Judge, Robin M. Deutsch, 2016-10-05 In recent years there has been heightened interest in the clinical and legal management of families in which children resist contact with one parent and become aligned with the other following divorce Families affected by these dynamics require disproportionate resources and time from mental health and legal professionals and cases require a specialized clinical approach Traditional models of individual and family therapy are not designed to address these issues and strategies and resources for mental health and legal professionals have been extremely limited *Overcoming Parent Child Contact Problems* describes interventions for families

experiencing a high conflict divorce impasse where a child is resisting contact with a parent It examines in detail one such intervention the Overcoming Barriers approach involving the entire family and combining psycho education and clinical intervention The book is divided into two parts Part I presents an overview of parental alienation including clinical approaches and a critical analysis of the many challenges associated with traditional outpatient family based interventions Part II presents the Overcoming Barriers approach describing core aspects of the intervention and ways to adapt its clinical techniques to outpatient practice Overcoming Parent Child Contact Problems is geared toward mental health clinicians and legal professionals who work with families in high conflict and where a child resists visitation with a parent **Stress-Free**
