The study explores empirically the changes occurring in the elite structure from the early 1990s to the present day a period that has been characterized by important societal upheavals such as the great recession of the early 1990s Finland's accession to the European Union in 1995 and the international financial crisis and the Eurozone debt crisis in the 2000s The main focus is on how the elite structure has changed in terms of vertical social mobility i.e. openness on the one hand and horizontal mobility i.e. coherence on the other With regard to vertical social mobility the research interest focuses on changes in elites' social background and various factors advancing their recruitment and career into elite positions As for horizontal mobility the study focuses on the elites' different channels of contact with other influential groups in society networking with various societal institutions the attitudinal unanimity within various elites and between the elites and the citizenry mobility between different elite groups i.e. circulation the accumulation of power positions and the retention and loss of elite positions The findings are compared with previous international studies especially Scandinavian elite studies Finally the study considers what the results tell us about the state of democracy

The Government and Politics of Lebanon Imad Salamey, 2013-10-15 Aiming to contribute to the reader's greater understanding of Lebanese government and politics this book provides a comprehensive examination of the origin, development and institutionalization of sectarian consociationalism in Lebanon A recurrent proposition advanced in this book is that Lebanese sectarian consociationalism has been both a cure and a curse in the formulation of political settlements and institution building On the one hand and in contrast to many surrounding Arab regimes consociational arrangements have provided the country with a relative democratic political life A limited government with a strong confessional division of power and a built-in checks and balance mechanism prevented the emergence of dictatorship or monarchy On the other hand a chronic weak state has complicated efforts for nation building in favour of sectarian fragmentation external interventions and strong polarization that periodically brought the country to the verge of total collapse and civil war While examining Lebanese sectarian politics of conflict and concession during different historic junctures many revelations are made that underlie the role of domestic and international forces shaping the country's future Presenting an implicit description of the power and functions of the various branches of government within the context of sectarian consociationalism this book is an important introductory text for students of Lebanese Politics and Middle Eastern politics more broadly
