Occult Scientific Mentalities Brian Vickers, 1984

The Occult Mentors of Maria de Nagłowska Robert North, The Occult in National Socialism Stephen E. Flowers, 2022-09-20 A critical history of the roots of Nazi occultism and its continuing influence. Explores the occult influences on various Nazi figures, including Adolf Hitler, Albert Speer, Rudolf Hess, Alfred Rosenberg, and Heinrich Himmler. Examines the foundations of the movement laid in the 19th century and continuing in the early 20th century. Explains the rites and runology of National Socialism, the occult dimensions of Nazi science, and how many of the sensationalist descriptions of Nazi Satanic practices were initiated by Church propaganda after the war. In this comprehensive examination of Nazi occultism, Stephen E. Flowers, Ph.D., offers a critical history and analysis of the occult and esoteric streams of thought active in the Third Reich and the growth of occult Nazism at work in movements today. Sharing the culmination of five decades of research into primary and secondary sources, many in the original German, Flowers looks at the symbolic, occult, scientific, and magical traditions that became the foundations from which the Nazi movement would grow. He details the influences of Theosophy, Volkism, and the work of the Brothers Grimm, as well as the impact of scientific culture of the time. Looking at the early 20th century, he describes the impact of Guido von List, Lanz von Liebenfels, Rudolf von Sebottendorf, Friedrich Hielscher, and others. Examining the period after the Nazi Party was established in 1919 and more especially after it took power in 1933, Flowers explores the occult influences on key Nazi figures, including Adolf Hitler, Albert Speer, Rudolf Hess, and Heinrich Himmler. He analyzes Hitler's usually missed references to magical techniques in *Mein Kampf*, revealing his adoption of occult methods for creating a large body of supporters and shaping the thoughts of the masses. Flowers also explains the rites and runology of National Socialism, the occult dimensions of Nazi science, and the

blossoming of Nazi Christianity Concluding with a look at the modern mythology of Nazi occultism Flowers critiques postwar Nazi related literature and unveils the presence of esoteric Nazi myths in modern occult and political circles The Occult Sciences Edward Smedley, William Cooke Taylor, Henry Thompson, Elihu Rich, 1855 **Occult Joyce** Enrico Terrinoni, 2009-03-26 Ulysses is in many ways an occult text in that it deliberately hides meanings and significances from sight and compels the reader to unveil its secrets by reading it backwards from deceiving surfaces to underlying truths To discuss the occult in Joyce is to analyse the hidden in the text Ulysses is a human book Its most profound meanings are encrypted beneath the surface of its body To discover what's concealed behind it implies an effort of anthropological archaeology Accordingly readers become really interpreters of the occult Only by following the traces and signs left on the textual surface will they eventually dig out what lies dormant beneath Joyce was extremely well read in the occult The variety of texts on the subject he possessed shows that his position was very eclectic as if the occult were a kind of amalgam of different traditions all marked by the signature of secrecy In his own view theosophy mysticism magic spiritism and the so called occult science blend together to form a cluster of obscure erudition where he finds provocative ideas helpful in building up his own cryptic system To read Ulysses hermetically is also a way to show that the act of reading itself is always an experiment The good thing about readings is that they are always provisional Reading as a creative process implies the awareness that one will always be quite uncertain as to what lies hidden behind those concatenations of syllables and words we call texts Interpretation is in fact a mark of our freedom and all original readings are always subversive and provocative Criticism to some extent implies often some kind of a subversive attitude and the game of literature is a useful working ground for attempting to change its possible worlds To see through surface inanity in Ulysses helps us understand that to read is often an act of revolt and resistance to past authoritative interpretations Excavating the occult in Joyce's masterpiece is a way to face more canonical readings that preferred not to acknowledge fully the author's fondness for and deep knowledge of the subject This is a book which has the gift of explanation rather than simplification and it will help to move Joyce Studies into new and exciting areas of investigation Prof Declan Kiberd UCD Dublin School of English and Drama Dr Terrinoni's work is a very well researched and penetrating study of the occult and hidden in Ulysses finding connections and meanings ignored or misunderstood by other scholars It is a real contribution to Joyce Studies Prof Clive Bloom Middlesex University Occult Japan Percival Lowell, 2023-12-18 In Occult Japan Percival Lowell delves into the spiritual and cultural dimensions of Japanese society through the lens of the esoteric and the extraordinary Combining personal observations with meticulous research Lowell explores themes ranging from Buddhism and Shinto rituals to the influence of folklore on everyday life His prose is rich and evocative drawing readers into a world where the mystical and the mundane coexist Published in 1896 the book reflects the Western fascination with Japan during the Meiji era a time when the country was transitioning into modernity while retaining deep rooted traditions Percival Lowell 1855 1916 an American astronomer and
