The Quietest Singing Darrell H. Y. Lum, Joseph Stanton, Estelle Enoki, 2000-01-01 In this collection Hawai i Award for Literature recipients depict island life as complex multivoiced and multi layered **Silent Music** Julian Wolfreys, 2014-10-23 In Silent Music Julian Wolfreys noted academic with a passion for the three languages of words music and the imagination brings together a group of musicians and Annagreth a young German blow in in the uncomfortable dreamscape of the Isle of Wight in the late 1970s *Silence, Music, Silent Music* Nicky Losseff, 2017-07-05 The contributions in this volume focus on the ways in which silence and music relate contemplate each other and provide new avenues for addressing and gaining understanding of various realms of human endeavour The book maps out this little explored aspect of the sonic arena with the intention of defining the breadth of scope and to introduce interdisciplinary paths of exploration as a way forward for future discourse Topics addressed include the idea of silent music in the work of English philosopher Peter Sterry and Spanish Jesuit St John of the Cross the apparently paradoxical contemplation of silence through the medium of music by Messiaen and the relationship between silence and faith the aesthetics of Susan Sontag applied to Cage s idea of silence silence as a different means of understanding musical texture ways of thinking about silences in music produced during therapy sessions as a form of communication music and silence in film including the idea that music can function as silence and the function of silence in early chant Perhaps the most all pervasive theme of the book is that of silence and nothingness music and spirituality a theme that has appeared in writings on John Cage but not in a broader sense in scholarly writing The book reveals that unexpected concepts and ways of thinking emerge from looking at sound in relation to its antithesis encompassing not just Western art traditions but the relationship between music silence the human psyche and sociological trends ultimately providing deeper understanding of the elemental places both music and silence hold within world philosophies and fundamental states of being Silence Music Silent Music will appeal to those working in the fields of musicology psychology of religion gender studies aesthetics and philosophy *The Voice in the Headphones* David Grubbs, 2020-03-20 The voice in the headphones says you re rolling The Voice in the Headphones is an experiment in music writing in the form of a long poem centered on the culture of the recording studio It describes in intricate prismatic detail one marathon day in a recording studio during which an unnamed musician struggles to complete a film soundtrack The book extends the form of Grubbs s previous volume Now that the audience is assembled sharing its goal of musicalizing the language of writing about music Mulling the insight that studio is the absence of pushback now that no audience is assembled The Voice in the Headphones details one musician s strategies for applying the requisite pressure to the proceedings for making it count The Voice in the Headphones is both a literary work and a meditation on sound recording delivered at a moment in which the commercial recording studio shades into oblivion It draws upon Grubbs s own history of several decades as a recording artist and its location could be described as every studio in which he has set foot Eastern

Drawing Music, Marking Time David Griffin, 2025-01-23 Marking down the complexities of musical pieces on paper allows them to become portable shareable and eminently teachable but how are the simple geometries of a music notation unfolded into space and time A music notation is an almost impossibly complicated bit of drawing Calling it a map or a diagram does not quite do the trick Its tracery supplies mechanisms for planning composition analysis annotation and performance of music But how is it that we read that simple strategic two dimensional geometry and make such complex four dimensional performances In this book David Griffin guides readers to a comprehensive understanding of the structural properties of music notations with a particular focus on the standard Western staff notation system looking at composers such as Bach John Cage Earle Brown and Stockhausen Developed over a thousand years ago the staff notation is a geometrical drawing method using dots and lines on a horizontal timeline for explaining the structure of a musical piece The system behaves a bit like a picture but it is also like a diagram and a bit like writing in its structure In the hands of an experienced user the notation s complex of marks and phatic elements allows us to leave behind the mere denotation of diagrams or pictures to become a connotative drawing system This book will attempt to de code music drawings untangling their strange knots of graphic and linguistic elements Using a series of visual examples Griffin presents background information on how the staff notation developed as an inter linguistic inscription a drawing that slips through the mere denotation of pictorial or diagrammatic graphics to become a connotative system with which we may craft subtle and powerful elements of musical poetry
