Quinta Montana:

La Quinta Montana Paulo Coelho, 1999-02-17 Inspirado en un breve pasaje de la Biblia I Reyes 18 8 24 La Quinta Montana cuenta la historia de un hombre el profeta Elías que recibe de Dios la orden de abandonar Israel En un mundo regido por supersticiones conflictos religiosos y tradiciones profundamente arraigadas el joven profeta debe enfrentarse a una avalancha de acontecimientos que le conduzcan a una definitiva cara a cara con Dios La historia del profeta Elías se convierte así en una valiosa lección de esperanza para el hombre contemporáneo Hasta qué punto podemos determinar nuestro destino está es la pregunta que lanza al aire La Quinta Montana para que cada uno de nosotros encuentre su propia respuesta Reafirmando una vez más su talento literario Paulo Coelho el escritor brasileño más vendido de nuestros días vuelve a sorprendernos con una novela tan fascinante como inolvidable *La quinta montaña* Paulo Coelho, Montserrat Mira, 2002

Corporate Risks and Leadership Eduardo E. Mariscotti, 2020-05-13 The context of business has been changing for companies in recent years and following numerous corporate and accounting scandals many countries have increased the number of national and international regulations designed to ensure transparency and compliance with the law Because of the existence of these new regulations the level of control the severity of sanctions by governments and the amount of the fines for noncompliance have increased dramatically In parallel with the technological revolution in communications business management has become more transparent and any negative event is uploaded to social networks and shared with an indeterminate number of people This change in the regulatory sanctioning and technological context has forced large companies to rethink risks investments and budgets to deal in this more complex environment To transition to this change some companies have included ethics and compliance programs in their corporate agenda along with marketing and sales plans strategies growth targets investment plans and or talent acquisition While each industry has its particular risks in this book the author describes the essential elements that any effective ethics and compliance program should contain This book is a source of information that connects yesterday with today The author shares observations and lessons of the past to suggest corporate leaders implement effective ethics and compliance programs to protect their organizations and themselves The book covers theories of ethics but with an eye focused on practical application Risks ethics and compliance are analyzed with an overall vision connected to the reality of business life without getting bogged down in abstract thinking or in technical and regulatory details Ethics and compliance are disciplines that have increasingly achieved greater recognition in organizations Thus due to the importance of risk management in the business world and the necessary involvement of the CEO and the board of directors it seems appropriate that executives get access to a book about risks ethics compliance and human resources directed not only to compliance experts but also to any organizational leader This book is a wake up call that allows business leaders to understand the benefits of implementing an effective ethics and compliance program that will help members of organizations to make the right decisions and act within the law If they do they can better prevent and react
