## **Quintus Sertorius And The Legacy Of Sulla:**

Quintus Sertorius and the Legacy of Sulla Philip O. Spann, 1987      **Contested Pasts** Jennifer Finn, 2022-04-18 Taking as a key turning point the self-fashioning of the first Roman emperor Augustus author Jennifer Finn revisits the idea of universal history in Polybius Justin and Diodorus combined with the Stoic philosophy of determinism present in authors like Plutarch and Arrian Finn endeavors to determine the ways in which Roman authors manipulated narratives about Alexander's campaigns and even other significant events in Mediterranean history to artificially construct a past to which the Romans could attach themselves as a natural teleological culmination In doing so *Contested Pasts* uses five case studies to reexamine aspects of Alexander's campaigns that have received much attention in modern scholarship providing new interpretations of issues such as his connections to the Trojan and Persian wars the Great Weddings at Susa the battles of Thermopylae in 480 BCE and 191 BCE and Alexander's conflict at the Persian Gates the context of his Last Plans the role of his memory in imagining the Roman Civil Wars and his fictitious visit to the city of Jerusalem While Finn demonstrates throughout the book that the influence for many of these narratives likely originated in the reign of Alexander or his Successors nevertheless these retroactive authorial manipulations force us to confront the fact that we may have an even more opaque understanding of Alexander than has previously been acknowledged Through the application of a mnemohistorical approach the book seeks to provide a new understanding of the ways in which the Romans and people in the purview of the Romans conceptualized their own world with reference to Alexander the Great

**The Ancient Sea** Hamish Williams, Ross Clare, 2022-11-17 In the ancient Mediterranean world the sea was an essential domain for trade cultural exchange communication exploration and colonisation In tandem with the lived reality of this maritime space a parallel experience of the sea emerged in narrative representations from ancient Greece and Rome of the sea as a cultural imaginary This imaginary seems often to oscillate between two extremes the utopian and the catastrophic such representations can be found in narratives from ancient history philosophy society and literature as well as in their post-classical receptions Utopia can be found in some imaginary island paradise far away and across the distant sea the sea can hold an unknown mysterious divine wealth below its surface and the sea itself as a powerful watery body can hold a liberating potential The utopian quality of the sea and seafaring can become a powerful metaphor for articulating political notions of the ideal state or for expressing an individual's sense of hope and subjectivity Yet the catastrophic sea balances any perfective imaginings the sea threatens coastal inhabitants with floods tsunamis and earthquakes and sailors with storms and the accompanying monsters From symbolic perspectives the catastrophic sea represents violence instability the savage and even cosmological chaos The twelve papers in this volume explore the themes of utopia and catastrophe in the liminal environment of the sea through the lens of history philosophy literature and classical reception Contributors Manuel lvarez Mart Aguilar Vilius Bartninkas Aaron L Beek Ross Clare Gabriele Cornelli Isaia Crosson Ryan Denson Rhiannon Easterbrook Emilia Mataix Ferrndiz Georgia L Irby Simona

**Rome and the Making of a World State, 150 BCE-20 CE** Josiah

Osgood,2018-04-12 In the century following 150 BCE the Romans developed a coherent vision of empire and a more systematic provincial administration The city of Rome itself became a cultural and intellectual center that eclipsed other Mediterranean cities while ideas and practices of citizenship underwent radical change In this book Josiah Osgood offers a new survey of this most vivid period of Roman history the Late Republic While many discussions focus on politics in the city of Rome itself his account examines developments throughout the Mediterranean and ties political events more firmly to the growth of overseas empire The volume includes a broad overview of economic and cultural developments By extending the story well beyond the conventional stopping date of Julius Caesar s assassination in 44 BCE Osgood ultimately moves away from the old paradigm of the fall of the Republic The Romans of the Late Republic emerge less as the disreputable gangsters of popular imagination and more as inspired innovators

who died a humiliating desert death in search of military glory Marcus Licinius Crassus 115 53 BCE was a modern man in an ancient world a pioneer disrupter of finance and politics and the richest man of the last years of the Roman republic Without his catastrophic ambition this trailblazing tycoon might have quietly entered history as Rome s first modern political financier Instead Crassus and his son led an army on an unprovoked campaign against Parthia into what are now the borderlands of Turkey Syria and Iraq losing a battle at Carrhae which scarred Roman minds for generations After Crassus was killed historians told many stories of his demise Some said that his open mouth shriveled by desert air had been filled with molten gold as testament to his lifetime of greed His story poses both immediate and lasting questions about the intertwining of money ambition and power

*Citizens of Discord* Brian Breed, Cynthia Damon, Andreola Rossi, 2010-08-26 Civil wars more than other wars sear themselves into the memory of societies that suffer them This is particularly true at Rome where in a period of 150 years the Romans fought four epochal wars against themselves The present volume brings together exciting new perspectives on the subject by an international group of distinguished contributors The basis of the investigation is broad encompassing literary texts documentary texts and material culture spanning the Greek and Roman worlds Attention is devoted not only to Rome's four major conflicts from the period between the 80s BC and AD 69 but the frame extends to engage conflicts both previous and much later as well as post classical constructions of the theme of civil war at Rome Divided into four sections the first *Beginnings Endings* addresses the basic questions of when civil war began in Rome and when it ended *Cycles* is concerned with civil war as a recurrent phenomenon without end *Aftermath* focuses on attempts to put civil war in the past or conversely to claim the legacy of past civil wars for better or worse Finally the section *Afterlife* provides views of Rome's civil wars from more distant perspectives from those found in Augustan lyric and elegy to those in much later post classical literary responses As a whole the collection sheds new light on the ways in which the Roman civil wars were perceived experienced and represented across a variety of media and historical periods

#### **Intelligence Activities in Ancient Rome**

Rose Mary Sheldon, 2004-12-16 Professor Sheldon uses the modern concept of the intelligence cycle to trace intelligence activities in Rome whether they were done by private citizens the government or the military Examining a broad range of activities the book looks at the many types of espionage tradecraft that have left their traces in the ancient sources intelligence and counterintelligence gathering covert action clandestine operations the use of codes and ciphers Dispelling the myth that such activities are a modern invention Professor Sheldon explores how these ancient spy stories have modern echoes as well What is the role of an intelligence service in a free republic When do the security needs of the state outweigh the rights of the citizen If we cannot trust our own security services how safe can we be Although protected by the Praetorian Guard seventy five percent of Roman emperors died by assassination or under attack by pretenders to his throne Who was guarding the guardians For students of Rome and modern social studies too this will provide a fascinating read

The Quaestorship in the Roman Republic Francisco Pina Polo, Alejandro Díaz Fernández, 2019-09-23 The lack of evidence has proved to be the greatest obstacle involved in reconstructing the quaestorship and has probably discouraged scholars from undertaking a large scale study of the office As a consequence a comprehensive study of the quaestorship has long been a desideratum this book aims to fill this gap in the scholarship The book contains a study of the quaestorship throughout the Roman Republic both in Italy particularly at Rome and in the overseas provinces It includes a history of the office an analysis of its role within the *cursus honorum* and its larger importance for the Roman constitution as well as the prosopography of all quaestors known during the Republican period based on the literary epigraphic and numismatic evidence The quaestorship was always an office for beginners who aspired to follow a political career and hence served as institutional entrance to the

senate Despite their youth quaestors were endowed with functions of great significance at Rome and abroad such as the control and supervision of Rome's finances As the book shows the quaestorship was a prominent and essential part of the Roman administration

**Lucullus** Lee Fratantuono, 2017-09-30 The military achievements of Lucius Licinius Lucullus 118 57 56 B C have been the subject of admiration and great respect throughout the history of the study of warfare Yet there have been few studies dedicated to a comprehensive examination of exactly how Lucullus conquered the Roman East and made it a more or less cohesive part of the empire Lee Fratantuono considers every aspect of Lucullus' life starting with the training and education of a future Roman officer but the greatest emphasis is on his military strategy and tactics during the Third Mithridatic War and his military adventures in Armenia His most famous achievement was his victory against immense odds at the land battle of Tigranocerta We are also reminded that he one of the most formidable naval strategists of the Roman Republic Lucullus' complicated relationship with Sulla and Crassus is explored and the study concludes with the retirement of the man Pliny the Elder memorably referred to as Xerxes in a Toga a patron of the arts and master of a life of horticulture and reflection
