**Quislings Or Realists?** Pierre J. Hugo, 1978 *Quislings Or Realists? A Documentary Study of 'Coloured' Politics in South Africa* Pierre Hugo, 2001 **Quislings Or Realists?** Pierre J. Norval, 1996-04-17 The book thus seeks to trace the construction and contestation of the central axes around which its political frontiers were organized *Africa, Asia, and South America Since 1800* A. J. H. Latham, 1995 A reference for graduate and undergraduate students presenting the bibliographic details and sometimes describing and evaluating the content of over 5 000 books in English most published since 1945 and many quite recently but also some earlier works of enduring importance A section of works on all three continents is followed by sections on each which first consider the continent as a whole then each country usually by chronological periods and topics such as economics politics and society Indexed only by author and editor but the table of contents is detailed enough to provide adequate access Distributed in the US by St Martin's Press Annotation copyright Book News Inc Portland Or **Historical Dictionary of South Africa** Christopher Saunders, Peter Limb, 2020-12-15 As the most influential and powerful country on the entire continent of Africa an understanding of South Africa's past and its present trends is crucial in appreciating where South Africans are going to and from where they have come South Africa changed dramatically in 1994 when apartheid was dismantled and it became a democratic state Since 2000 when the previous edition appeared further big changes occurred with the rise of new political leaders and of a new black middle class There were also serious problems in governance in public health and the economy but with a remarkable popular resilience too This third edition of Historical Dictionary of South Africa contains a chronology

an introduction and an extensive bibliography The dictionary section has more than 600 cross referenced entries on important personalities as well as aspects of the country s politics economy foreign relations religion and culture This book is an excellent resource for students researchers and anyone wanting to know more about South Africa South Africa T. Davenport,C. Saunders,2000-03-08 A survey of the whole of South African history from pre colonial times to 1999 suitable for serious students of the subject It handles all major topics with special focus on the dramatic changes that have occurred since 1990 Teacher and Comrade Alan Wieder,2014-01-21 Teacher and Comrade explores South African resistance in the twentieth century before and during apartheid through the life of Richard Dudley a teacher politico who spent thirty nine years in the classroom and his entire life fighting for democracy Dudley has given his life to teaching and politics and touched and influenced many people who continue to work for democracy in South Africa and abroad Whether it was students comrades or opposition life was always teaching and relational for Dudley He challenged power throughout the apartheid era and his foundational beliefs in anti imperialism and nonracialism compel him to continue to talk teach and speak to power Through Dudley s story Teacher and Comrade provides a rare portrait of both Cape Town and South Africa as well as the struggle against racism and apartheid The Cambridge History of Africa J. D. Fage,Roland Anthony Oliver,Michael Crowder,1975 The eighth and final volume of The Cambridge History of Africa covers the period 1940 75 It begins with a discussion of the role of the Second World War in the political decolonisation of Africa Its terminal date of 1975 coincides with the retreat of Portugal the last European colonial power in Africa from its possessions and their accession to independence The fifteen chapters which make up this volume examine on both a continental and regional scale the extent to which formal transfer of political power by the European colonial rulers also involved economic social and cultural decolonisation A major theme of the volume is the way the African successors to the colonial rulers dealt with their inheritance and how far they benefited particular economic groups and disadvantaged others The contributors to this volume represent different disciplinary traditions and do not share a single theoretical perspective on the recent history of the continent a subject that is still the occasion for passionate debate **Why South Africa Will Survive** L. H. Gann,Peter Duignan,2022-10-05 Originally published in 1981 this book took a position which was unpopular within the academic establishment at the time of its publication It argued that the extraordinary social and economic changes that came over South Africa in the 20th Century gave the country great stability The authors believed that change would come from within the ruling white oligarchy rather than from Liberation Movements and that the greatest solvent of apartheid was to be found in the working of a free market economy The book provided novel data for sociological political and strategic reassessment of South Africa The approach was unusual in that the book represented neither a conventional defence of apartheid nor one of the customary attacks on South Africa **Walking a Tightrope** James Muzondidya,2005 Focusing mainly on the process of identity formation among members of Zimbabwe s coloured community this book challenges conventional wisdom on race

and ethnic identities When viewed in the broad perspective of studies which focus on identities in general this work is one of the few that clearly tries to demonstrate how social identities are produced and reproduced in the dialect of internal and external definition while paying adequate attention to the role played by the people themselves *Not White Enough, Not Black Enough* Mohamed Adhikari, 2005-11-17 The concept of Colouredness being neither white nor black has been pivotal to the brand of racial thinking particular to South African society The nature of Coloured identity and its heritage of oppression has always been a matter of intense political and ideological contestation *Not White Enough Not Black Enough Racial Identity in the South African Coloured Community* is the first systematic study of Coloured identity its history and its relevance to South African national life Mohamed Adhikari engages with the debates and controversies thrown up by the identity's troubled existence and challenges much of the conventional wisdom associated with it A combination of wide ranging thematic analyses and detailed case studies illustrates how Colouredness functioned as a social identity from the time of its emergence in the late nineteenth century through its adaptation to the postapartheid environment Adhikari demonstrates how the interplay of marginality racial hierarchy assimilationist aspirations negative racial stereotyping class divisions and ideological conflicts helped mold people's sense of Colouredness over the past century Knowledge of this history and of the social and political dynamic that informed the articulation of a separate Coloured identity is vital to an understanding of present day complexities in South Africa *A Survey of Race Relations in South Africa* South African Institute of Race Relations, 1981

**Betrayal and Betrayers** Malin Akerstrom, 2017-09-08 Betrayal has a deep fascination It captures our imagination in part because we have all betrayed or been betrayed in small or large ways Despite this there has been little serious work on the subject It was this absence that inspired this book As Akerstrom notes betrayal is something that most people have encountered at some point in their lives She defines betrayal as a breach of trust when information is shared beyond an agreed upon boundary of relations whether that boundary is a pair of friends or a nation Taking as a point of departure Simmers work on secrets and secrecy Akerstrom discusses categories of betrayal and conditions that influence its intensity Sometimes the betrayer is seen as a hero and at other times a traitor and sometimes there are competing loyalties In certain situations she reminds us it is difficult to avoid betrayal or the perception of betrayal Akerstrom discusses strategies people employ to avoid betraying ranging from not telling to making sure one does not know about something in the first place With deft precision she clarifies distinctions and in the process broadens our understanding Initially inspired by insights arising from her research on the criminal informer for which she had done in depth interviews Akerstrom supplements these with interviews with policemen She has also drawn from her experiences in the field of social work particularly with women's and crime shelters Using biographies autobiographies and a broad range of literature related to spies World War II the McCarthy era and recent literature on whistle blowing Akerstrom has defined a fascinating theme While her illustrations are sometimes dramatic she hopes that readers will perceive obvious parallels with their own

experiences Social psychologists sociologists criminologists and others interested in secrecy secrets and those who betray them to others will find this an unusual and absorbing volume     *The Making of Racial Conflict in South Africa* Roy H. Du
