Santirocco, 2015-01-01 Horace s first three books of Odes published together in 23 B C are a masterpiece of Augustan literature and the culmination of classical lyric Matthew Santirocco provides the first new critical approach to them in English in more than two decades Drawing on recent works on ancient and modern poetry books and using several contemporary critical methodologies Santirocco reveals the Odes both as individual poems and as components in a larger poetic design His reading of Horace demonstrates that the ensemble is itself an important context for understanding and appreciating the poetry Reconstructing the history of the ancient poetry book both Greek and Roman Santirocco challenges certain common assumptions about its origin and development He argues that true parallels for the Odes are not to be found in the other Augustan books which are relatively homogeneous in content and form but in the heterogeneous collections of

Hellenistic writers Odes I III comprise eighty eight poems in twelve different meters and in tone and topic they vary widely Avoiding the two extremes of past scholarship which either has searched for a single underlying unity or else has denied any meaningful design Santirocco uncovers a variety of both static and dynamic structures and shows their relevance to the literary interpretation of the poems at all levels Ultimately the composition of a poem and the disposition of the group are shown to be analogous activities Odes I III do not constitute a medley of discrete poems but instead approximate the unity of a single ode

**Horace's Narrative Odes** Michèle Lowrie, 1997 Narrative has not traditionally been a subject in the analysis of lyric poetry This book deconstructs the polarity that divides and binds lyric and narrative means of representation in Horace's Odes While myth is a canonical feature of Pindaric epinician Horace cannot adopt the Pindaric mode for aesthetic and political reasons Roman Callimacheanism's privileging of the small and elegant offers a pretext for Horace to shrink from the difficulty of writing praise poetry in the wake of civil war But Horace by no means excludes story telling from his enacted lyric On the formal level numerous odes contain narration Together they constitute a larger narrative told over the course of Horace's two lyric collections Horace tells the story of his development as a lyricist and of the competing aesthetic and political demands on his lyric poetry At issue is whether he can ever truly become a poet of praise

**Augustan Poetry and the Irrational** Philip R. Hardie, 2016 The establishment of the Augustan regime presents itself as the assertion of order and rationality in the political ideological and artistic spheres after the disorder and madness of the civil wars of the late Republic But the classical Apollonian poetry of the Augustan period is fascinated by the irrational in both the public and private spheres There is a vivid memory of the political and military furor that destroyed the Republic and also an anxiety that furor may resurface that the repressed may return Epic and elegy are both obsessed with erotic madness Dido experiences in her very public role the disabling effects of love that are both lamented and celebrated by the love elegists Didactic especially the Georgics and the related Horatian exercises in satire and epistle offer programmes for constructing rational order in the natural political and psychological worlds but at best contain uneasily an ever present threat of confusion and backsliding and for the most part fall short of the austere standards of rational exposition set by Lucretius Dionysus and the Dionysiac enjoy a prominence in Augustan poetry and art that goes well beyond the merely ornamental The person of the emperor Augustus himself tests the limits of rational categorization Augustan Poetry and the Irrational contains contributions by some of the leading experts of the Augustan period as well as a number of younger scholars An introduction which surveys the field as a whole is followed by chapters that examine the manifestations of the irrational in a range of Augustan poets including Virgil Horace Ovid and the love elegists and also explore elements of post classical reception

*The Neo-Latin Verse of Urban VIII, Alexander VII and Leo XIII* Stephen Harrison, 2024-04-04 A fascinating insight into the most talented Latin poets to occupy the Papal throne after Pius II Piccolomini in the 15th century this book offers translations of and commentaries on the major poems of the three popes all Italians Urban VIII Barberini Alexander VII Chigi and Leo XIII Pecci Their highly

accomplished Neo Latin poems owe much to the major Latin poets and are significant instances of classical reception but also cast an interesting light on their lives times and papacies Urban elected pope in 1623 published a mixture of secular and religious verse drawing on the hexameter epistles of Horace and the lyrics of Catullus and writing Horatian material in praise of Alessandro Farnese governor of the Netherlands for Philip II of Spain and the Spanish martyr St Laurence Alexander elected pope in 1655 like Urban combines secular and religious themes and often uses Horatian frameworks writing hexameter accounts of some of the journeys he made as a papal diplomat in Germany and an Horatian ode on the fall of the Protestant stronghold of La Rochelle 1628 Leo s poetry was mostly religious and published during his papacy 1878 1903 his Horatian ode on the new millennium of 1900 was widely read and other works include an elegy which links a shrine of the Virgin with the Battle of Lepanto an Horatian satire on moderate diet and hymns to saints which combine early Christian and Horatian forms *The odes and epodes* Horace,1902 **The Poetical Works of Sir William Alexander, Earl of**
