**The Fascist Turn in the Dance of Serge Lifar** Mark Franko, 2020-06-19 Ukrainian dancer and choreographer Serge Lifar 1905-86 is recognized both as the modernizer of French ballet in the twentieth century and as the keeper of the flame of the classical tradition upon which the glory of French ballet was founded Having migrated to France from Russia in 1923 to join Diaghilev's Ballets Russes Lifar was appointed star dancer and ballet director at the Paris Opéra in 1930 Despite being rather unpopular with the French press at the start of his appointment Lifar came to dominate the Parisian dance scene through his publications as well as his dancing and choreography until the end of the Second World War reaching the height of his fame under the German occupation of Paris 1940-44 Rumors of his collaborationism having remained inconclusive throughout the postwar era Lifar retired in 1958 This book not only reassesses Lifar's career both aesthetically and politically but also provides a broader reevaluation of the situation of dance specifically balletic neoclassicism in the first half of the twentieth century *The Fascist Turn in the Dance of Serge Lifar* is the first book not only to discuss the resistance to Lifar in the French press at the start of his much mythologized career but also the first to present substantial evidence of Lifar's collaborationism and relate it to his artistic profile during the preceding decade In examining the political significance of the critical discussion of Lifar's body and technique author Mark Franko provides the ground upon which to understand the narcissistic and heroic images of Lifar in the 1930s as prefiguring the role he would play in the occupation Through extensive archival research into unpublished documents of the era police reports the transcript of his postwar trial and rarely cited newspaper columns Lifar wrote Franko reconstructs the dancer's political activities political convictions and political ambitions during the Occupation

**The Art of Maria Tomasula** Soo Y. Kang, 2022-11-15 Maria Tomasula's still life paintings are absolutely captivating dramatizing luscious objects of saturated colors and meticulous details through the spotlight effect against a dark backdrop Beyond their immediate appeal however the still lifes usually contain disturbing

features such as flowers being sharply pierced by hooks and nails or isolated body parts such as bones and organs that seem to be fiercely alive Although the pictures are materialistically appealing due to the illusionistic style of the artist they lend themselves to a depth of iconography that has not been accounted for in previous writings on her art This book is the first comprehensive monograph on Tomasula b 1958 unraveling her complex iconography that is founded on her Mexican American heritage and Catholicism but also tracing the European still life tradition It shows that her paintings reflect her feminist and philosophical leanings influenced by various intellectuals including Baruch Spinoza Gilles Deleuze and the proponents of New Materialism Her still life converges the old with new interests it pays tribute to traditional Mexican and European motifs but also reflects ideas and mannerism that speak to the contemporary audience This research evidences the complexity of the Mexican American experience which merges divergent cultural and ideological perspectives from Latin America North America and Europe in varied ways for different and unique individuals
