Biology of the Laboratory Rabbit is a compendium of papers that discusses the use of the rabbit as an experimental substrate in the scientific process. The collection describes normative biology research utilization and rabbit disease. These papers emphasize naturally occurring diseases which affect the value of the rabbit as a research tool. Some papers describe these effects and their impact for investigators engaged in laboratory experimental work on animal medicine. Other papers tackle the value of certain rabbit diseases as models of considerable interest in comparative medicine. Several papers discuss bacterial diseases, viral diseases, protozoal diseases, arthropod parasites, helminth parasites, neoplastic diseases, inherited diseases, nutritional diseases, metabolic, traumatic, mycotic, and miscellaneous diseases of the rabbit. One paper describes a number of diseases that man can acquire from domestic and laboratory rabbits. These include tularemia which is endemic in wild rabbits and hares, plague transmitted by fleas, listeriosis rare in laboratory rabbit colonies, salmonellosis from rabbit feces, and *Pasteurella multocida* common in laboratory and domestic rabbits. The paper notes that laboratory and domestic rabbits are not a major health hazard. The compendium can benefit veterinarians, the medically oriented investigator, the biologist, the medical and chemical researcher, and others whose work involve laboratory animal care. *Introduction to the*

Colin Wilce, 2006-03-31 Rabbit Brook runs through a narrow valley. At the lower end stands the village of Lower Brook where the Brook runs into the Great Water. The main features of the Village are the three bridges that cross the Brook, the uniform stone cottages with shutters for windows, the Park next to the Great Water, and the Drink Factory looked after by Sparkling Walter and his wife Min. Young adult bucks work there or on the Terraces way above the Valley, only reached by Goose's Neck 400 winding steps leading up from by the Store and Store Bridge. Older bucks work on the Valley Vegetable Garden next to the Store. The Store Keeper Pippy Pippin looks after the Store with his wife Daisy. Their children, the twins Jim and Nat, often play with their best friends Sandy Wood and Grace Fern. Once over Store Bridge, the climb up Craggy Path leads to Dance's Corner where Lord and Lady Dance live in the majestic Dance House with its large lawn and Blossom Tree. **Primary**

proverbial expressions and has devoted much of his lifetime to studying and collecting them; no one knows more about British and American proverbs than he. The present volume, based upon writings in British North America from the earliest settlements to approximately 1820, complements his and Archer Taylor's *Dictionary of American Proverbs and Proverbial Phrases 1820-1880*. It differs from that work and from other standard collections, however, in that its sources are primarily not

literary but instead workaday writings letters diaries histories travel books political pamphlets and the like The authors represent a wide cross section of the populace from scholars and statesmen to farmers shopkeepers sailors and hunters Mr Whiting has combed all the obvious sources and hundreds of out of the way publications of local journals and historical societies This body of material because it covers territory that has not been extracted and compiled in a scholarly way before can justly be said to be the most valuable of all those that Whiting has brought together according to Albert B Friedman What makes the work important is Whiting s authority a proverb or proverbial phrase is what BJW thinks is a proverb or proverbial phrase There is no objective operative definition of any value no divining rod his tact feel experience determine what s the real thing and what is spurious *Memoirs of the American Anthropological Association* American Anthropological Association,1915 **The Creek Indians of Taskigi Town** Frank Gouldsmith Speck,1915 Recreation ,1924 Bunny Race!
