African American women's political agency does not emerge from a vacuum but is part of a complex system of institutions, economics, and personal beliefs. This ambitious volume will be an invaluable resource on the state of contemporary African American women's activism. Tainted Witness Leigh Gilmore, 2017-01-17. In 1991, Anita Hill's testimony during Clarence Thomas's Senate confirmation hearing brought the problem of sexual harassment to a public audience. Although widely believed by women, Hill was defamed by conservatives, and Thomas was confirmed to the Supreme Court. The tainting of Hill and her testimony is part of a larger social history in which women find themselves caught up in a system that refuses to believe what they say. Hill's experience shows how a tainted witness is not who someone is but what someone can become. Why are women so often considered unreliable witnesses to their own experiences? How are women discredited in legal courts and in courts of public opinion? Why is women's testimony so often mired in controversies fueled by histories of slavery and colonialism? How do new feminist witnesses enter testimonial networks and disrupt doubt? Tainted Witness examines how gender, race, and doubt stick to women witnesses as their testimony circulates in search of an adequate witness. Judgment falls unequally upon women who bear witness as well-known conflicts about testimonial authority in the late twentieth and early twenty-first centuries reveal. Women's testimonial accounts demonstrate both the symbolic potency of women's bodies and speech in the public sphere and the relative lack of institutional security and control to which they can lay claim. Each testimonial act follows in the wake of a long and invidious association of race and gender with lying that can be found to this day within legal courts and everyday practices of judgment defining these locations as willfully unknowing and hostile to complex accounts of harm. Bringing together feminist literary and legal frameworks, Leigh Gilmore provides provocative readings of what happens when women's testimony is discredited. She demonstrates how testimony crosses jurisdictions, publics, and the unsteady line between truth and fiction in search of justice. Readings for Diversity and Social Justice Maurianne Adams, 2000. These essays include writings from Cornel West, Michael Omi, Audre Lorde, Gloria Anzaldúa, and Michelle Fine. The essays address the multiplicity and scope of oppressions ranging from ableism to racism and other less well-known social aberrations. Contract and Domination Carole Pateman, Charles Wade Mills, 2007. Contract and Domination offers a bold challenge to contemporary contract theory, arguing that it should either be fundamentally rethought or abandoned altogether. Since the publication of John Rawls's *A Theory of Justice*, contract theory has once again become central to the Western political tradition. But gender justice is neglected, and racial justice almost completely ignored. Carole Pateman and Charles Mills's earlier books, *The Sexual Contract* (1988) and *The Racial Contract* (1997), offered devastating critiques of gender and racial domination and the contemporary contract tradition's silence on them. Both books have become classics of revisionist radical democratic political theory. Now Pateman and Mills are collaborating for the first time in an interdisciplinary volume drawing on their insights from political science and philosophy. They are building on but going beyond their earlier work to bring the sexual and racial contracts together. In *Contract and Domination*, Pateman and Mills

discuss their differences about contract theory and whether it has a useful future excavate the white settler contract that created new civil societies in North America and Australia argue via a non ideal contract for reparations to black Americans confront the evasions of contemporary contract theorists explore the intersections of gender and race and the global sexual racial contract and reply to their critics This iconoclastic book throws the gauntlet down to mainstream white male contract theory It is vital reading for anyone with an interest in political theory and political philosophy and the systems of male and racial domination

Gender Talk Johnnetta B. Cole, Beverly Guy-Sheftall, 2009-01-16 Why has the African American community remained silent about gender even as race has moved to the forefront of our nation's consciousness In this important new book two of the nation's leading African American intellectuals offer a resounding and far reaching answer to a question that has been

ignored for far too long. Hard hitting and brilliant in its analysis of culture and sexual politics, *Gender Talk* asserts boldly that gender matters are critical to the Black community in the twenty first century. In the Black community, rape violence against women and sexual harassment are as much the legacy of slavery as is racism. Johnnetta Betsch Cole and Beverly Guy Sheftall argue powerfully that the only way to defeat this legacy is to focus on the intersection of race and gender. *Gender Talk* examines why the race problem has become so male centered and how this has opened a deep divide between Black women and men. The authors turn to their own lives offering intimate accounts of their experiences as daughters, wives and leaders. They examine pivotal moments in African American history when race and gender issues collided with explosive results from the struggle for women's suffrage in the nineteenth century to women's attempts to gain a voice in the Black Baptist movement and on into the 1960s when the Civil Rights movement and the upsurge of Black Power transformed the Black community while sidelining women. Along the way they present the testimonies of a large and influential group of Black women and men including bell hooks, Faye Wattleton, Byllye Avery, Cornell West, Robin DG Kelley, Michael Eric Dyson, Marcia Gillispie and Dorothy Height. Providing searching analysis into the present, Cole and Guy Sheftall uncover the cultural assumptions and attitudes in hip hop and rap in the O J Simpson and Mike Tyson trials, in the Million Men and Million Women Marches and in the battle over Clarence Thomas's appointment to the Supreme Court. Fearless and eye opening, *Gender Talk* is required reading for anyone concerned with the future of African American women and men.

Black Male(d): Peril and Promise in the Education of African American Males Tyrone C. Howard, 2014. In his new book, the author of the bestseller *Why Race and Culture Matter in Schools* examines the chronic under performance of African American males in U S schools. Citing a plethora of disturbing academic outcomes for Black males, this book focuses on the historical structural, educational, psychological, emotional and cultural factors that influence the teaching and learning process for this student population. Howard discusses the potential and promise of Black males by highlighting their voices to generate new insights, create new knowledge and identify useful practices that can significantly improve the schooling experiences and life chances of Black males. Howard calls for a paradigm shift in how we think about teaching and studying Black males. The book examines current structures, ideologies and practices that both help and hinder the educational and social prospects of Black males, translates frequently cited theoretical principles into research based classroom practice, documents teacher student interactions, student viewpoints and discusses the troubling role that sports plays in the lives of many Black males. Highlights voices and perspectives from Black male students about ways to improve their schooling experiences and outcomes and identifies community based programs that are helping Black males succeed.

Enduring Liberalism Robert Booth Fowler, 2021-10-29. Has the United States become more pluribus than unum? In terms of the nation's political beliefs, Robert Booth Fowler answers both yes and no. While his study affirms significant diversity among an elite cadre of public intellectuals, it vigorously denies it in a general public that collectively adheres to the same set of liberal core values. *Enduring Liberalism* pursues two

objectives One it explores the political thought of public intellectuals and the general public since the 1960s Two it assesses contemporary and classic interpretations of American political thought in light of the study's findings Fowler interprets the writings of public intellectuals like Robert Bellah Jean Bethke Elshtain Michael Walzer William Bennett Seymour Martin Lipset William Galston and others as well as survey data of American political attitudes to spotlight this oft ignored divide between citizens and high profile commentators whose contentious debates are mistakenly assumed to reflect countrywide rifts Fowler's argument is straightforward but the interpretation is controversial He recounts how the consensus liberal view in post World War II American political thought collapsed among public intellectuals during the tumult of the 1960s and remains so to this day His book examines the resultant diversity among contemporary public intellectuals focusing on three predominant themes concern for community worry about the environment and interest in civil society In marked contrast to these disputatious commentators Fowler finds the realm of popular opinion to be characterized by much greater consensus Indeed there seems to be a trend toward an even more general embrace of the liberal values that characterize our attitudes toward the individual individual liberty political equality economic opportunity and consent of the governed Liberal values above all the celebration of the individual and individual rights have revolutionized the so called private realms of life like family and religious communities to an extent unimagined in the 1950s From these conclusions Fowler demonstrates that most interpretations of American political thinking have exaggerated the extent of conflict and diversity in our nation's often raucous policy disputes But he also cautions us not to overstate the public's widely shared liberal values and by doing so miss opportunities to facilitate problem solving or to recognize the ways in which our reform efforts may be constrained

Sellout Randall Kennedy, 2009-01-06 An incisive and unflinching study from the national bestselling author of *Say it Loud* that tackles a stigma of America's racial discourse selling out Brisk and enjoyable no small feat given the density of its ideas Los Angeles Times Randall Kennedy explains the origins of the concept of selling out and shows how fear of this label has haunted prominent members of the black community including most recently Colin Powell Condoleezza Rice and Barack Obama *Sellout* also contains a rigorously fair case study of America's quintessential racial sellout Supreme Court Justice Clarence Thomas In the book's final section Kennedy recounts how he himself has dealt with accusations of being a sellout

Legacies of Lynching Jonathan Markovitz, 2004 Between 1880 and 1930 thousands of African Americans were lynched in the United States Beyond the horrific violence inflicted on these individuals lynching terrorized whole communities and became a defining characteristic of Southern race relations in the Jim Crow era As spectacle lynching was intended to serve as a symbol of white supremacy Yet Jonathan Markovitz notes the act's symbolic power has endured long after the practice of lynching has largely faded away *Legacies of Lynching* examines the evolution of lynching as a symbol of racial hatred and a metaphor for race relations in popular culture art literature and political speech Markovitz credits the efforts of the antilynching movement with helping to ensure that lynching would be understood not as a method of punishment for black

rapists but as a terrorist practice that provided stark evidence of the brutality of Southern racism and as America's most vivid symbol of racial oppression. Cinematic representations of lynching from *Birth of a Nation* to *Do the Right Thing* he contends further transform the ways that American audiences remember and understand lynching as have disturbing recent cases in which alleged or actual acts of racial violence reconfigured stereotypes of black criminality. Markovitz further reveals how lynching imagery has been politicized in contemporary society with the example of Clarence Thomas who condemned the Senate's investigation into allegations of sexual harassment during his Supreme Court confirmation hearings as a high tech lynching. Even today as revealed by the 1998 dragging death of James Byrd in Jasper Texas and the national soul searching it precipitated lynching continues to pervade America's collective memory. Markovitz concludes with an analysis of debates about a recent exhibition of photographs of lynchings suggesting again how lynching as metaphor remains always in the background of our national discussions of race and racial relations. Jonathan Markovitz is a lecturer in sociology at the University of California San Diego.

Postfeminist News Mary Douglas Vavrus, 2012-02-01 Winner of the 2003 Diamond Anniversary Book Award presented by the National Communication Association. In the media saturated decade of the 1990s news reports shaped public sentiment about women in electoral politics and beyond. Mary Douglas Vavrus explores the process of representing political women in media and argues that contemporary news accounts promote a postfeminist politics that encourages women's private consumer lifestyles and middle class aspirations while it discourages public life and political

activism The author discusses the Anita Hill Clarence Thomas hearings of 1991 the 1991 92 Year of the Woman in politics the 1996 presidential campaign s use of soccer moms and Hillary Rodham Clinton s campaign for Senate in 2000 Vavrus assesses the logic that emerges in these narratives recurrent themes about gender and explores their significance for women and for feminism ultimately arguing that feminism has been supplanted by postfeminism in news accounts of political women
