*Race, Labor, and Punishment in the New South* Martha A. Myers, 1998 For Emile Durkheim writing in the nineteenth century punishment was simply understood as a clear response to the criminal behavior a society experiences Today s penal institutions challenge such a simple understanding Inseparably linked with many aspects of society they are profoundly shaped by the traumatic events and changes a society undergoes Nowhere is this clearer than in the American South Georgia embraced the concept of the penitentiary as a form of social control earlier than most of its southern neighbors Its penal code of 1816 replaced or curtailed such traditional punishments as whipping the pillory fines or death Georgia s control over felony convicts effectively began in 1817 when the state prison at Milledgeville accepted its first convict Martha A Myers finds that Georgia also led the region in embracing the convict lease system as an alternative to incarceration In *Race Labor and Punishment in the New South* she examines the social political and economic forces that shaped punishment over a seventy year period Between 1870 and 1940 Georgia s system of punishment shifted from capital and corporal punishment to hard labor in the penitentiary then to the convict lease system then to county run chain gangs and then back to incarceration in prison This book forges a connection between these dramatic shifts and analyzes three facets of punishment for black and white men rates of admission to the penitentiary the harshness of sentences and the ease with which felons achieved release from the penitentiary Her findings challenge the conventional notion that hard times invariably prompt harsh punishment In uncovering the complex link between social change and southern punishment Myers reveals the poverty of current theories of criminal punishment

**A Comprehensive Study of Female Offenders** Martin Guevara Urbina, 2008 Few empirical studies have focused on women in prison In the last few years though a number of studies have demonstrated that there are fundamental differences between male and female prisoners in an ever changing penal system Consequently there has been a need for more comprehensive studies of female offenders for three primary reasons 1 imperative research gaps remain to be bridged 2 the female prison experience is not constant and 3 prison rates for female offenders especially minority offenders have increased considerably in the last few years A central goal of this book then is to provide a balance to the existing literature and research on female prisoners in the United States and to an extent abroad focusing primarily on female offenders and using data gathered from the Wisconsin Department of Corrections The book utilizes a comprehensive investigative approach by equating the experience of female offenders by the totality of circumstances within an historical institutional political and ideological context The critical objective is to offer an inclusive analysis of the things that are considered by female inmates to be the most significant before during and after their incarceration as a way of better understanding the reasons that lead to their first incarceration as well as subsequent incarcerations By reading this book the reader will have a greater understanding of the many challenges facing female inmates as well as the relationship between inmates correctional officers and by extension society in general Also provided is a series of policy recommendations throughout the book particularly in the concluding chapter and epilogue

*Doing Time in the Depression* Ethan Blue, 2014-11-22 As banks crashed belts tightened and cupboards emptied across the country American prisons grew fat *Doing Time in the Depression* tells the story of the 1930s as seen from the cell blocks and cotton fields of Texas and California prisons state institutions that held growing numbers of working people from around the country and the world overwhelmingly poor disproportionately non white and displaced by economic crisis Ethan Blue paints a vivid portrait of everyday life inside Texas and California s penal systems Each element of prison life from numbing boredom to hard labor from meager pleasure in popular culture to crushing pain from illness or violence demonstrated a contest between keepers and the kept From the moment they arrived to the day they would leave inmates struggled over the meanings of race and manhood power and poverty and of the state itself In this richly layered account Blue compellingly argues that punishment in California and Texas played a critical role in producing a distinctive set of class race and gender identities in the 1930s some of which reinforced the social hierarchies and ideologies of New Deal America and others of which undercut and troubled the established social order He reveals the underside of the modern state in two very different prison systems and the making of grim institutions whose power would only grow across the century
