Voices of African-American Teen Fathers Angelia M

Paschal, 2013-01-11 Find out what it's like to be young African American and a father **Voices of African American Teen Fathers** is an insightful look at adolescent pregnancy and parenthood through the eyes of fathers aged 14 to 19. This unique book features candid interviews with thirty teens who talk about doing what they got to do, handling their responsibilities as best they can, given their perceptions, limitations, and life experiences. Teens talk about how and why they became fathers, how they handle being a parent, their perceptions of fatherhood, the relationships they have with their parents and the mothers of their children, and how they deal with the everyday struggles, demands, and concerns they face. Nearly one million girls between the ages of 15 and 19 become pregnant each year in the United States, and most of the available research on adolescent parenthood focused on them. We know little about African American adolescent fathers or about their perspectives on the cultural and socioeconomic conditions that define their experience. **Voices of African American Teen Fathers** provides an understanding of these young fathers on their own terms and suggests theoretical frameworks, assessment tools, and effective interventions to develop a plan of action to help African American adolescent fathers fulfill their roles. Helpful appendices including an interview guide and biographies of the participants are included, as are six tables that make complex information easy to access and understand. **Voices of African American Teen Fathers** examines tough issues including intimate, amicable, or antagonistic relationships with their children's mothers, relationships with their own mothers and fathers, racism and discrimination, child support, loss of independence, transportation problems, drugs, socioeconomic issues, and much more. **Voices of African American Teen Fathers** is an invaluable resource for counselors, family educators, social service organizations, community practitioners, and social scientists.

A Cross-Cultural Theory of Voter Behavior Wojciech Cwalina, Andrzej Falkowski, Bruce I. Newman, 2013-01-11 The rapid development of democracy and political freedoms has created new and sophisticated psychology-based methods of influencing the way voters choose, as well as political systems based on free market principles. **A Cross Cultural Theory of Voter Behavior** uses advanced empirical testing to determine whether the behavior of voters in established and emerging democracies around the world is predictable. The results of the testing suggest the theory is a ground-breaking cross-cultural model with theoretical and strategic global implications. This unique book examines the many facets of political marketing and its direct relationship with the voter. A comprehensive theory meticulously tested in the dynamic political waters of the U.S. and Europe, this text bridges the latest theoretical developments in the emerging and advanced democracies. **A Cross Cultural Theory of Voter Behavior** offers an innovative and seldom-seen international perspective that integrates up-to-date literature in political science with advanced political marketing to provide readers with useable, unified information. In addition, the text is replete with detailed references and illustrated with a wealth of informative tables and graphics to make pertinent data accessible and easily understood. Some of the topics discussed in **A Cross Cultural Theory of Voter Behavior** include politics in an age of manufactured images, partisanship, and party identification, candidate-centered politics, political cognition, social categorization of politicians, the role

of advertising and emotion among others An ideal text for students academics and researchers the information presented in A Cross Cultural Theory of Voter Behavior is also a vital resource for political practitioners such as consultants candidates lobbyists political action committees fund raisers pollsters government officials ad specialists journalists public relations executives and congressional aides *The Help-yourself City* Gordon C. C. Douglas,2018 When local governments neglect public services or community priorities how do concerned citizens respond In *The Help Yourself City* Gordon Douglas looks closely at people who take urban planning into their own hands with homemade signs and benches guerrilla bike lanes and more Douglas explores the frustration creativity and technical expertise behind these interventions but also the position of privilege from which they often come Presenting a needed analysis of this growing trend from vacant lots to city planning offices *The Help Yourself City* tells a street level story of people s relationships to their urban surroundings and the individualization of democratic responsibility *The Journal of African American History* ,2005 **Black Issues in Higher Education** ,2004-06 Making Business Districts Work David Feehan,Marvin D.
