

The background of the slide is a dark, textured surface. On the left side, there is a vertical strip of an old, sepia-toned map. The map shows a coastline with various labels, including "New York", "New Jersey", "Pennsylvania", and "Delaware". A prominent blue line, likely representing a river or canal, runs diagonally across the map. The overall tone is historical and academic.

A Review of Hoffman's Race Traits and Tendencies of the American Negro - The American Negro Academy. Occasional Papers No. 1 Kelly Miller, 2018-02-21 Dr Kelly Miller wrote this text in reply to Frederick Ludwig Hoffman debunking many of the author's points regarding the characteristics and behaviors of black American people Hoffman's treatise contained a number of incorrect assertions regarding the black American peoples and their condition Its central tenet is that the black American race is decaying both physically and morally due to a number of innate race traits Contrasting this opinion Miller attributes said criticisms not to biological defects but inferior environmental and social conditions endured by black Americans in the Reconstruction era Point by point Miller tackles Hoffman's assertions on black population levels rates of birth and death the notion that black Americans are on a trend to become extinct physical morphology and characteristics and the social conditions that most reside in An eloquent and concise counter thesis is built by Miller who offers readers a compelling picture of life for African Americans with the powerful argument backed by facts that the prime cause of any decline is the degraded and impoverished social conditions that many blacks live under Kelly Miller was a famed author in the early 20th century who did much to advance African American tutoring in the American education system His greatest fame was in the field of mathematics which he taught in academia for decades An early proponent of civil rights for black Americans Dr Miller was outraged by the reticence and lack of action by the U S government as lynchings became commoner in the 1910s and 1920s terming the lack of state support a disgrace of democracy

A Review of Hoffman's Race Traits and Tendencies of the American Negro Kelly Miller, 2015-05-08 11 93 If we begin with 1810 the first census year after the constitutional suppression of the slave trade we see from this table that the growth of the Negro element followed the ordinary law of population viz a gradual decline in the rate of increase In 70 years the decennial rate of increase declined from about 30 per cent to 22 per cent But from 1880 to 1890 there was a per saltum decrease from 22 to 13 per cent that is the decline in ten years was equal to that of the previous seventy And all this has happened during an era of profound peace and prosperity when the Negro population was subject to no great perturbing influences When a number of

W. E. B. Du Bois, Race, and the City Michael B. Katz, Thomas J. Sugrue, 1998-04-20 There is unanimity among these historians and sociologists in ascribing seminal importance to The Philadelphia Negro David Levering Lewis Journal of American History Race Traits and Tendencies of the American Negro Volume 11 Frederick Ludwig Hoffman, 2013-09 This historic book may have numerous typos and missing text Purchasers can usually download a free scanned copy of the original book without typos from the publisher Not indexed Not illustrated 1896 edition Excerpt Burglary 9 647 2 710 28 09 Robbery 2 350 555 23 62 Larceny 7 978 3 126 39 18 Grand larceny 6 411 1 774 27 67 Petit larceny 3 475 1 055 30 36 Percentage of colored in total pop ulation over 15 yrs of age males 1o 2o FEMALE PIISONERS Crimes Against the Person Homicide _ 393 227 57 76 Assault 346 198 57 23 Crimes Against Property Arson So 49 61 25 Larceny 425 225 52 94 Grand larceny 320 159 49 69 Petit larceny 266 99 37 22 Percentage of colored in total popula tion over 15 yrs of age females 11 09 The table fully explains itself and needs little comment Of homicides the colored prisoners formed 36 1 per cent For the most atrocious of all crimes rape 40 88 per cent of the prisoners convicted were colored and for assault 39 98 per cent The proportion of colored females charged with homicide was even greater than that of males and the same is true for the cases of assault The large proportion of colored among prisoners charged with arson attests the wisdom of the recognized policy of fire insurance companies in restricting the amount of fire insurance obtainable by colored persons For all crimes against property the proportion of colored criminals far exceeds the proportion of colored in total population The facts brought out in these tables are so significant that the following supplementary tables for various states and cities may prove of value in that they confirm the census figures while of course they were largely derived from the same official sources The table below will show for the state of Pennsylvania the proportion of colored inmates in the two penitentiaries for the years 1886 and 1894 Males Females Percentage

Reluctant Race Men Joan L. Bryant, 2024-02-13 *Reluctant Race Men* traces a history of ethical philosophical political religious and scientific challenges that Black American reformers lodged against configurations of race across the long nineteenth century It reconstructs a largely ignored reform tradition showing race as diverse practices that configure human difference sameness hierarchy and consciousness

The Condemnation of Blackness Khalil Gibran Muhammad, 2019-07-22 Chronicling the emergence of deeply embedded notions of black people as a dangerous race of criminals by explicit contrast to working class whites and European immigrants this fascinating book reveals the influence such ideas have had on urban development and social policies

Forging a Laboring Race Paul R.D. Lawrie, 2018-04-03 How does it feel to be a problem asked W E B DuBois in *The Souls of Black Folk* 1903 For

Progressive Era thinkers across the color line the Negro problem was inextricably linked to the concurrent labor problem occasioning debates regarding blacks role in the nation s industrial past present and future With blacks freed from what some believed to be the protective embrace of slavery many felt that the assumedly primitive Negro was doomed to expire in the face of unbridled industrial progress Yet efforts to address the so called Negro problem invariably led to questions regarding the relationship between race industry and labor In consequence a collection of thinkers across the natural and social sciences developed a new culture of racial management linking race and labor to color and the body Evolutionary theory and industrial management combined to link certain peoples to certain forms of work and reconfigured the story of races into one of development and decline efficiency and inefficiency and the thin line between civilization and savagery Forging a Laboring Race charts the history of an idea race management building on recent work in African American labor and disability history to analyze how ideas of race work and the fit or unfit body informed the political economy of early twentieth century industrial America Forging a Laboring Race foregrounds the working black body as both a category of analysis and lived experience It charts a corporeal map of African American proletarianization via the fields factories trenches hospital and universities of Progressive Era America

The Surgical peculiarities of the American negro
Rudolph Matas,1896 Critical Philosophy of Race Robert Bernasconi,2023 The fifteen essays by distinguished philosopher of race Robert Bernasconi that are collected here demonstrate why the critical philosophy of race needs to take a historical turn Genealogies of the concepts of both race and racism clarify why some of the dominant strategies for combatting racism tend to be ineffective For example the Boasian UNESCO strategy that highlights biology s rejection of race neglects cultural racism Drawing on the work of Frantz Fanon the late Sartre and Michel Foucault Robert Bernasconi argues for a holistic approach that integrates the concrete experience of racism faced by individuals into the study of institutional structural and systemic racism His philosophical studies of such Black philosophers as Ottobah Cugoana Ant nor Firmin and W E B Du Bois contribute to challenging the dominant philosophical canon This volume will be an essential resource for scholars and students interested in this resurgent topic
