Wealth, Whiteness, and the Matrix of Privilege Jessica Holden Sherwood, 2012-07-10 Exclusive social clubs are traditionally an important site for the consolidation of upper class power **Wealth Whiteness and the Matrix of Privilege** shows that while the particulars of admission have changed these clubs remain socially significant incubators Having interviewed typically inaccessible members of exclusive clubs in the Northeast Jessica

Holden Sherwood reports and analyzes what they have to say about who is in who is out and why The members talk frankly about their exclusiveness based on money and style but they are quick to point out that ethnically based exclusion is a thing of the past Club members also address the status of their women members which is at times distinctly second class The talk of country club members is shown to draw on elements in popular discourse And even if it s not their intention as club members exclude and account for their exclusion they contribute to reproducing class race and gender inequalities

Debating the Drug War Michael Rosino,2021-03-16 Since President Nixon coined the phrase the War on Drugs has presented an important change in how people view and discuss criminal justice practices and drug laws The term evokes images of militarization punishment and violence as well as combat and the potential for victory It is no surprise then that questions such as whether the War on Drugs has failed or can be won have animated mass media and public debate for the past 40 years Through analysis of 30 years of newspaper content *Debating the Drug War* examines the social and cultural contours of this heated debate and explores how proponents and critics of the controversial social issues of drug policy and incarceration frame their arguments in mass media Additionally it looks at the contemporary public debate on the War on Drugs through an analysis of readers comments drawn from the comments sections of online news articles Through a discussion of the findings and their implications the book illuminates the ways in which ideas about race politics society and crime and forms of evidence and statistics such as rates of arrest and incarceration or the financial costs of drug policies and incarceration are advanced interpreted and contested Further the book will bring to light how people form a sense of their racial selves in debates over policy issues tied to racial inequality such as the War on Drugs through narratives that connect racial categories to concepts such as innocence criminality free will and fairness *Debating the Drug War* offers readers a variety of concepts and theoretical perspectives that they can use to make sense of these vital issues in contemporary society

Race, Gender, and Class in the Tea Party Meghan A. Burke,2015-01-27 It has been all too tempting to characterize the Tea Party as an irrational racist astro turf movement composed of members who are working to subvert their own economic interests *Race Gender and Class in the Tea Party* reveals a much messier and much more fascinating analysis of this movement Drawing upon in depth interviews with organizers and fieldwork at conservative campaign trainings and conventions its rich ethnographic data explores how the active folks in this movement specifically organizers in one Midwestern state understand their world and how they act on that basis to change it As this book will reveal most Tea Party organizers do depend on deeply flawed understandings of race and class either believing wholeheartedly in myths or confining their analyses to the narrow limits of the conservative media system Yet Tea Party racism is simply American racism *Race Gender and Class in the Tea Party* reveals the complexities and contradictions inherent in this movement where organizers attempt to reconcile their personal experiences with their conservative politics In the end these dynamics reveal as much about us as it does about the Tea Party It is certain to challenge all of our politics and especially our scholarly

thinking about the movement and offers a path toward real conversations about our collective future in the United States

Racial Emotion at Work Tristin K. Green, 2023-10-03 Takes White Fragility to the next level placing emotional conversations about race squarely in the realm of employment discrimination law exploring how implicit bias and diversity trainings are insufficient tools for battling inequality in the workplace *Racial Emotion at Work* is an invitation to understand our own emotions and associated behaviors around race and much more With this surprising and timely book Tristin K Green takes us beyond diversity trainings and other individualized solutions to discrimination and inequality in employment calling for sweeping changes in how the law and work organizations treat and shape racial emotions Green provides readers with the latest research on racial emotions in interracial interactions and ties this research to thinking about discrimination and disadvantage at work We see how our racial emotions can result in discrimination and how our institutions the law and work organizations value and skew our racial emotions in ways that place the brunt of negative consequences on people of color It turns out we need to reset our institutional and not just our personal radars on racial emotion to advance racial justice *Racial Emotion at Work* shows how we can rise to the task **We Shall Not Be Moved** Jane Ellen Nickell, 2014-10-15 As

Protestant denominations are fracturing over whether to ordain gays and lesbians this work looks at The United Methodist Church's conversations about the issue in light of Methodism's historic contests over the leadership of African Americans and women to see what can be learned from these earlier periods of change Using the uniform context of the Methodist General Conference where denominational policy is set the book analyzes transcripts of floor debates in key years of these struggles letting those who argued for and against the changes speak for themselves Those arguments are read through the lens of French sociologist Pierre Bourdieu whose theory offers a sophisticated model that goes deeper than simple resistance to change in articulating a dialectic between social structures and agents that predisposes both to reproduce existing power relationships This interdisciplinary historical study seeks to move beyond conscious motivations for the exclusion of these three groups and uncover deeply embedded misrecognized social dynamics In exploring these groups' stories this book examines who holds power in Methodist churches how changes in authority structures occur and why it is such a long and painful process

Chase,2011-03-15 Over the past three decades colleges and universities have committed to encouraging embracing and supporting diversity as a core principle of their mission But how are goals for achieving and maintaining diversity actually met What is the role of students in this mission When a university is committed to diversity what is campus culture like In Learning to Speak Learning to Listen Susan E Chase portrays how undergraduates at a predominantly white urban institution which she calls City University a pseudonym learn to speak and listen to each other across social differences Chase interviewed a wide range of students and conducted content analyses of the student newspaper student government minutes curricula and website to document diversity debates at this university Amid various controversies she identifies a defining moment in the campus culture a protest organized by students of color to highlight the university's failure to live up to its diversity commitments Some white students dismissed the protest some were hostile to it and some fully engaged their peers of color In a book that will be useful to students and educators on campuses undergoing diversity initiatives Chase finds that both students willingness to share personal stories about their diverse experiences and collaboration among student organizations student affairs offices and academic programs encourage speaking and listening across differences and help incorporate diversity as part of the overall mission of the university Street Harassment as Everyday Violence
