**Collisions at the Crossroads** Genevieve Carpio, 2019-04-16 There are few places where mobility has shaped identity as widely as the American West but some locations and populations sit at its major crossroads maintaining control over place and mobility labor and race In *Collisions at the Crossroads* Genevieve Carpio argues that mobility both permission to move freely and prohibitions on movement helped shape racial formation in the eastern suburbs of Los Angeles and the Inland Empire throughout the nineteenth and twentieth centuries By examining policies and forces as different as historical societies Indian boarding schools bicycle ordinances immigration policy incarceration traffic checkpoints and Route 66 heritage she shows how local authorities constructed a racial hierarchy by allowing some people to move freely while placing limits on the mobility of others Highlighting the ways people of color have negotiated their place within these systems Carpio reveals a compelling and perceptive analysis of spatial mobility through physical movement and residence **Racial**

**Realities and Post-Racial Dreams** Julius Bailey, 2015-12-30 Silver medalist for the IPPY award for Current Events in 2016 *Racial Realities and Post Racial Dreams* is a moral call a harkening and quickening of the spirit a demand for recognition for those whose voices are whispered Julius Bailey straddles the fence of social science research and philosophy using empirical data and current affairs to direct his empathy laced discourse He turns his eye to President Obama and his critics racism income inequality poverty and xenophobia guided by a prophetic thread that calls like minded visionaries and progressives to action The book is an honest look at the current state of our professed city on a hill and the destruction left on the darker sides of town **Race and Racism in the United States** Charles A. Gallagher, Cameron D. Lippard, 2014-06-24 How is

race defined and perceived in America today and how do these definitions and perceptions compare to attitudes 100 years ago or 200 years ago This four volume set is the definitive source for every topic related to race in the United States In the 21st century it is easy for some students and readers to believe that racism is a thing of the past in reality old wounds have yet to heal and new forms of racism are taking shape Racism has played a role in American society since the founding of the nation in spite of the words all men are created equal within the Declaration of Independence This set is the largest and most complete of its kind covering every facet of race relations in the United States while providing information in a user friendly format that allows easy cross referencing of related topics for efficient research and learning The work serves as an accessible tool for high school researchers provides important material for undergraduate students enrolled in a variety of humanities and social sciences courses and is an outstanding ready reference for race scholars The entries provide readers with comprehensive content supplemented by historical backgrounds relevant examples from primary documents and first hand accounts Information is presented to interest and appeal to readers but also to support critical inquiry and understanding A fourth volume of related primary documents supplies additional reading and resources for research

*Race and the Third Reich* Christopher Hutton, 2005-12-02 *Race and the Third Reich* aims to set out the key concepts

debates and controversies that marked the academic study of race in Nazi Germany. It looks in particular at the discipline of racial anthropology and its relationship to linguistics and human biology. Christopher Hutton identifies the central figures involved in the study of race during the Nazi regime and traces continuities and discontinuities between Nazism and the study of human diversity in the Western tradition. Whilst Nazi race theory is commonly associated with the idea of a superior Aryan race and with the idealization of the Nordic ideal of blond hair, blue eyes and a long skull, Nazi race theorists in common with their colleagues outside Germany without exception denied the existence of an Aryan race. After 1935 official publications were at pains to stress that the term Aryan belonged to linguistics and was not a racial category at all. Under the influence of Mendelian genetics, racial anthropologists concluded that there was no necessary link between ideal physical appearance and ideal racial character. In the course of the Third Reich, racial anthropology was marginalized in favour of the rising science of human genetics. However, racial anthropologists played a key role in the crimes of the Nazi state by defining Jews and others as racial outsiders to be excluded at all costs from the body of the German Volk. Anyone studying the Third Reich or who is interested in race theory will find this a fascinating, informative and accessible study.

**Race and Hegemonic Struggle in the United States** Michael G. Lacy, Mary E. Triebel, 2014-08-20. *Race and Hegemonic Struggle in the United States: Pop Culture, Politics and Protest* is a collection of essays that draws on concepts developed by Antonio Gramsci to examine the imagining of race in popular culture, political discourses and resistance rhetoric. The chapters in this volume call for renewed attention to Gramscian political thought to examine, understand, interpret and explain the persistent contradictions, ambivalence and paradoxes in racial representations and material realities. This book's contributors rely on Gramsci's ideas to explore how popular political and resistant discourses reproduce or transform our understandings of race and racism, social inequalities and power relationships in the twentieth and early twenty-first centuries. Together, the chapters confront forms of collective and cultural amnesia about race and racism suggested in the phrases *postrace*, *postracial* and *postracism* while exposing the historical institutional, social and political forces and constraints that make antiracism, atonement and egalitarian change so difficult to achieve.

*City of Hope, City of Rage* Seth A. Weitz, 2024. In *City of Hope, City of Rage* (Miami, 1968-1994), Seth A. Weitz examines the transformative period when the young city founded under Jim Crow in 1896 and searching for an identity after the upheavals of the 1950s and 60s began to strive for maturity. Tracing three turbulent decades marked by mass immigration, racially motivated uprisings, economic inequity, rising crime and social change, *City of Hope, City of Rage* tells the story of Miami's evolution from a predominantly white southern city and vacation community into what is now a global, predominantly Hispanic metropolis with an international tourist base, one which nevertheless remains one of the most segregated cities in the United States. Drawing on numerous primary sources, including one-on-one interviews with people who lived the history, Weitz assembles a kaleidoscopic portrait of his hometown's coming of age, returning again and again to the question of how Miami is defined.

who gets to define it and by extension the parameters of civic identity and belonging in an increasingly cosmopolitan network of communities

**The Battle Nearer to Home** Christopher Bonastia, 2022-07-05 Despite its image as an epicenter of progressive social policy New York City continues to have one of the nation's most segregated school systems Tracing the quest for integration in education from the mid 1950s to the present *The Battle Nearer to Home* follows the tireless efforts by educational activists to dismantle the deep racial and socioeconomic inequalities that segregation reinforces The fight for integration has shifted significantly over time not least in terms of the way integration is conceived from transfers of students and redrawing school attendance zones to more recent demands of community control of segregated schools In all cases the Board eventually pulled the plug in the face of resistance from more powerful stakeholders and starting in the 1970s integration receded as a possible solution to educational inequality In excavating the history of New York City school integration politics in the halls of power and on the ground Christopher Bonastia unearths the enduring white resistance to integration and the severe costs paid by Black and Latino students This last decade has seen activists renew the fight for integration but the war is still far from won

*Inside Ocean Hill* *Brownsville* Charles S. Isaacs, 2014-05-09 The story of an Ocean Hill Brownsville teacher who crossed picket lines during the racially charged New York City teachers strike of 1968 In 1968 the conflict that erupted over community control of the New York City public schools was centered in the black and Puerto Rican community of Ocean Hill Brownsville It triggered what remains the longest teachers strike in US history That clash between the city's communities of color and the white predominantly Jewish teachers union paralyzed the nation's largest school system undermined the city's economy and heightened racial tensions ultimately transforming the national conversation about race relations At age twenty two when the strike was imminent Charles S Isaacs abandoned his full scholarship to a prestigious law school to teach mathematics in Ocean Hill Brownsville Despite his Jewish background and pro union leanings Isaacs crossed picket lines manned by teachers who looked like him and took the side of parents and children who did not He now tells the story of this conflict not only from inside the experimental community controlled Ocean Hill Brownsville district its focal point but from within ground zero itself Junior High School 271 which became the nation's most famous or infamous public school Isaacs brings to life the innovative teaching practices that community control made possible and the relationships that developed in the district among its white teachers and its black and Puerto Rican parents teachers and community activists *Inside Ocean Hill Brownsville* is one of the finest accounts of this turbulent time in America's educational history As a firsthand analysis of a teacher embroiled in the Ocean Hill Brownsville community fight for educational justice it has no peer From its vantage point forty five years after the conflict we finally have a corrective to a plethora of secondhand analyses that have been written over the years It is a candid picture that I recommend highly Maurice R Berube coeditor of *Confrontation at Ocean Hill Brownsville* *Inside Ocean Hill Brownsville* makes a vital contribution to a much needed reinterpretation of the epochal struggles over community control of the New York City public

schools in the 1960s and the divisive UFT fall 1968 strikes in opposition to that community based movement Writing from the firsthand perspective of a young Jewish math teacher at JHS 271 Isaacs brings this important story vividly to life with insight candor and humor He evokes the attitudes and actions of a rich array of ordinary teachers administrators students and parents who fought to defend the community control experiment in the face of the lies and distortions perpetrated by UFT officials and the mainstream press A must read for anyone interested in creating successful public schools this book helps us remember what democratic public education might look like Stephen Brier The Graduate Center City University of New York Charles Isaacs s *Inside Ocean Hill Brownsville* is a firsthand account of the dramatic events of New York City s greatest school crisis Isaacs debunks many of the popular myths of black militants waging assaults on teachers Instead he demonstrates that the episode in Ocean Hill Brownsville was a case of black and Latino parents with the support of a number of teachers at JHS 271 struggling for the education of their children and for a more democratically run educational system These parents faced one of the most powerful unions in the city and a bureaucratic board of education that wanted to protect the status quo There have been many books written on the 1968 teachers strike but Isaacs s well written detailed account is by far the best Clarence Taylor author of *Knocking at Our Own Door* Milton A Galamison and the *Struggle to Integrate New York City Schools* **The Arc of the Universe is Long** Leslie Takahashi Morris, Chip Roush, Leon E.
