Harper, Ryan J. Davis, Sylvia Hurtado, 2010-10 Fifty Four readings in this 3rd edition collectively show how race has influenced and continues to affect all aspects of American higher education This volume offers a comprehensive selection of seminal and contemporary publications that are situated across various postsecondary contexts It is organized around six focal areas of study in the field of higher education 1 History 2 Students 3 Faculty 4 Curriculum Teaching and Learning 5 Organizations Leadership and Governance and 6 Policy Finance and Economics Also included is a seventh section devoted entirely to critical race perspectives on higher education **Compelling Interest** Mitchell J. Chang, Daria Witt, James Jones, Kenji Hakuta, 2003-03-12 In recent years American colleges and universities have become the locus of impassioned debates about race conscious social policies as conflicting theories clash over the ways to distribute the advantages of higher education in a fair and just manner Just below the surface of these policy debates lies a complex tangle of ideologies histories grievances and emotions that interfere with a rational analysis of the issues involved As never before the need for empirical research on the significance of race in American society seems essential to solving the manifest problems of this highly politicized and emotionally charged aspect of American higher education The research evidence presented in this book has a direct relevance to those court cases that challenge race

conscious admission policies of colleges and universities Though many questions still need to be addressed by future research the empirical data collected to date makes it clear that affirmative action policies do work and are still very much needed in American higher education This book also provides a framework for examining the evidence pertaining to issues of fairness merit and the benefits of diversity in an effort to assist courts and the public in organizing beliefs about race and opportunity

Diversity Leadership in Higher Education Adalberto Aguirre, Jr., Ruben O. Martinez, 2006 Promoting diversity as a core value among social groups is one of the major challenges faced by institutions of higher education in the United States By focusing on racial and ethnic minorities in higher education this monograph provides a view of diversity as a positive and dynamic social force in society that promotes its integration as a core value and process Diversity leadership challenges higher education to move beyond co optation strategies in which diversity is viewed as a descriptive and static organizational element to the adoption of transformational strategies in which diversity is viewed as a dynamic and positive process Through the promotion and development of diversity leadership institutional leadership is seen as building capacity to promote inclusive learning and workplace environments in colleges and universities As

demographic shifts in US society create an ever expanding context in which the well being of the nation becomes increasingly linked to the social and cultural groups that have been systematically excluded from full participation in American society the need for positive cultural and structural changes that foster their inclusion in higher education becomes an important challenge to address This volume provides an overview of the context for diversity leadership roles and practices in higher education It argues for an alignment between institutions of higher education and the diverse populations they serve in this country This is volume 32 number 3 of the ASHE Higher Education Report a bi monthly journal published by Jossey Bass See our entire list of ASHE Higher Education Report titles for a wide variety of critical issues facing Higher Education today
