Remaking Transitional Justice in the United States James Edward Beitler III,2012-11-09 Remaking Transitional Justice in the United States The Rhetoric of the Greensboro Truth and Reconciliation Commission explores rhetorical attempts to authorize the Greensboro Truth and Reconciliation Commission a grassroots U S based truth commission created in 2004 to redress past injustices in the city Through detailed rhetorical analyses the book demonstrates that the development of the field of transitional justice

has given rise to a transnational rhetorical tradition that provides those working in the field with series of enabling constraints The book then shows how Greensboro stakeholders attempted to reaccentuate this rhetorical tradition in their rhetorical performances to construct authority and bring about justice even as the tradition shaped their discourse in ways that limited the scope of their responses Calling attention to the rhetorical interdependence among practitioners of transitional justice this study offers insights into the development of transitional justice in the United States and in grassroots contexts in other liberal democracies The volume is a relevant guide to scholars and practitioners of transitional justice as it brings into relief mechanisms of transitional justice that are frequently overlooked namely rhetorical mechanisms It also speaks to any readers who may be interested in the communicative strategies tactics that may be employed by grassroots transitional justice initiatives

Degrees of Mixture, Degrees of Freedom Peter Wade, 2017-05-04 Race mixture or mestizaje has played a critical role in the history culture and politics of Latin America In *Degrees of Mixture Degrees of Freedom* Peter Wade draws on a multidisciplinary research study in Mexico Brazil and Colombia He shows how Latin American elites and outside observers have emphasized mixture s democratizing potential depicting it as a useful resource for addressing problems of racism claiming that race mixture undoes racial difference and hierarchy while Latin American scientists participate in this narrative with claims that genetic studies of mestizos can help isolate genetic contributors to diabetes and obesity and improve health for all Wade argues that in the process genomics produces biologized versions of racialized difference within the nation and the region but a comparative approach nuances the simple idea that highly racialized societies give rise to highly racialized genomics Wade examines the tensions between mixture and purity and between equality and hierarchy in liberal political orders exploring how ideas and scientific data about genetic mixture are produced and circulate through complex networks
