Discrimination and Privacy in the Information Society Bart Custers, Toon Calders, Bart Schermer, Tal Zarsky, 2012-08-11
Vast amounts of data are nowadays collected stored and processed in an effort to assist in making a variety of administrative and governmental decisions These innovative steps considerably improve the speed effectiveness and quality of decisions Analyses are increasingly performed by data mining and profiling technologies that statistically and automatically determine patterns and trends However when such practices lead to unwanted or unjustified selections they may result in unacceptable forms of discrimination Processing vast amounts of data may lead to situations in which data controllers know many of the characteristics behaviors and whereabouts of people In some cases analysts might know more about individuals than these individuals know about themselves Judging people by their digital identities sheds a different light on our views of privacy and data protection This book discusses discrimination and privacy issues related to data mining and profiling practices It provides technological and regulatory solutions to problems which arise in these innovative contexts The book explains that common measures for mitigating privacy and discrimination such as access controls and anonymity fail to properly resolve privacy and discrimination concerns Therefore new solutions focusing on technology design transparency and accountability are called for and set forth

Adolescence, Discrimination, and the Law Roger J.R. Levesque, 2017-05 Explores the shifts and the research used to support civil rights claims of discrimination particularly relating to minority youths rights to equal treatment In the wake of the civil rights movement the legal system dramatically changed its response to discrimination based on race gender and other characteristics It is now showing signs of yet another dramatic shift as it moves from considering difference to focusing on neutrality Rather than seeking to counter subjugation through special protections for groups that have been historically and currently disadvantaged the Court now adopts a colorblind approach Equality now means treating everyone the same way This book explores these shifts and the research used to support civil rights claims particularly relating to minority youths rights to equal treatment It integrates developmental theory with work on legal equality and discrimination showing both how the legal system can benefit from new research on development and how the legal system itself can work to address invidious discrimination given its significant influence on adolescents especially those who are racial minorities at a key stage in their developmental life Adolescents Discrimination and the Law articulates the need to address discrimination by recognizing and enlisting the law s inculcative powers in multiple sites subject to legal regulation ranging from families schools health and justice systems to religious and community groups The legal system may champion ideals of neutrality in the goals it sets itself for treating individuals but it cannot remain neutral in the values it supports and imparts This volume shows that despite the shift to a focus on neutrality the Court can and should effectively foster values supporting equality especially among youth **Discrimination as Stigma** Iyiola Solanke, 2016-12-29 This monograph reconceptualises discrimination law as fundamentally concerned with stigma Using sociological and socio psychological theories of stigma the author presents an anti stigma principle promoting it as a method to determine the scope of legal protection from

discrimination The anti stigma principle recognises the role of institutional and individual action in the perpetuation of discrimination Setting discrimination law within the field of public health it frames positive action and intersectional discrimination as the norm in this field of law rather than the exception In developing and applying this new theory for anti discrimination law the book draws upon case law from jurisdictions including the UK Australia New Zealand the USA and Canada as well as European law **Resources in Women's Educational Equity** ,1979 **Commerce Today** ,1971

Multiracials and Civil Rights Tanya Katerí Hernandez,2021-01-19 Narratives of mixed race people bringing claims of racial discrimination in court illuminating traditional understandings of civil rights law As the mixed race population in the United States grows public fascination with multiracial identity has promoted the belief that racial mixture will destroy racism However multiracial people still face discrimination Many legal scholars hold that this is distinct from the discrimination faced by people of other races and traditional civil rights laws built on a strict black white binary need to be reformed to account for cases of discrimination against those identifying as mixed race In *Multiracials and Civil Rights* Tanya Kater Hernandez debunks this idea and draws on a plethora of court cases to demonstrate that multiracials face the same types of discrimination as other racial groups Hernandez argues that multiracial people are primarily targeted for discrimination due to their non whiteness and shows how the cases highlight the need to support the existing legal structures instead of a new understanding of civil rights law The legal and political analysis is enriched with Hernandez s own personal narrative as a mixed race Afro Latina Coming at a time when explicit racism is resurfacing Hernandez s look at multiracial discrimination cases is essential for fortifying the focus of civil rights law on racial privilege and the lingering legacy of bias against non whites and has much to teach us about how to move towards a more egalitarian society *The Oxford Handbook of Stigma, Discrimination, and Health* Brenda Major,John F. Dovidio,Bruce G. Link,2018 Stigma leads to poorer health In *The Oxford Handbook of Stigma Discrimination and Health* leading scholars identify stigma mechanisms that operate at multiple levels to erode the health of stigmatized individuals and collectively produce health disparities This book provides unique insights concerning the link between stigma and health across various types of stigma and groups **The Labor Supply for Lower Level Occupations** Harold Wool,1976 **Making Anti-Racial Discrimination Law** Iyiola Solanke,2012-08-21 *Making Anti Racial Discrimination Law* examines the evolution of anti racial discrimination law from a socio legal perspective Taking a comparative and interdisciplinary approach the book does not simply look at race and society or race and law but brings these areas together by drawing out the tension in the process in different countries by which race becomes a policy issue which is subsequently regulated by law Moving beyond traditional social movement theory to include the extreme right wing as a social actor the study identifies the role of extreme right wing confrontation in agenda setting and law making a feature often neglected in studies of social action In so doing it identifies the influence of both the extreme right and liberalism on anti racial discrimination law Focusing primarily on Great Britain and Germany the book also

demonstrates how national politics feeds into EU policy and identifies some of the challenges in creating a high and uniform level of protection against racial discrimination throughout the EU Using primary archival materials from Germany and the UK the empirical richness of this book constitutes a valuable contribution to the field of anti racial discrimination law at both undergraduate and postgraduate level The book will interest specialists and academics in law sociology and political science as well as non specialists who will find this study stimulating and useful to expand their knowledge of anti racial discrimination law or pursue teaching goals policy objectives and reform agendas **Women and Work** United States. Employment and Training Administration,1977 **Race Hate** Anne Rooney,2010 Race Hate takes a broad minded look at prejudices that not only affect our lives today but have also been in place for many hundreds of years It explores subjects such as what race is and why it matters racial violence against individuals and whole populations and how different people of different races perceive immigration *Diversity and Citizenship Education* James A. Banks,2006-12-22 The increasing ethnic racial cultural religious and language diversity in nations throughout the world is forcing educators and policymakers to rethink existing notions of citizenship and nationality To experience cultural democracy and freedom a nation must be unified around a set of democratic values such as justice and equality that balance unity and diversity and protect the rights of diverse groups *Diversity and Citizenship Education Global Perspectives* brings together in one comprehensive volume a group of international experts on the topic of diversity and citizenship education These experts discuss and identify the shared issues and possibilities that exist when educating for national unity and cultural diversity *Diversity and Citizenship Education Global Perspectives* presents compelling case studies and examples of successful programs and practices from twelve nations discusses problems that arise when societies are highly stratified along race cultural and class lines and describes guidelines and benchmarks that practicing educators can use to structure citizenship education programs that balance unity and diversity The book covers a broad range of issues and includes vital information on such topics as Migration citizenship and education The challenge of racialized citizenship in the United States The contribution of the struggles by Indians and Blacks for citizenship and recognition in Brazil Crises of citizenship education and ethnic issues in Germany Russia and South Africa Conflicts between religious and ethnic factions Diversity globalization and democratic education Race, Ethnicity, And Nationality In The United States Paul Wong,2021-09-02 This book is intended for use in advanced undergraduate and graduate level courses on race and ethnicity and on diversity in America It was first conceived as a collective project of the Research and Resident Scholar Program in Comparative Race Relations at Washington State University which was established in 1994 with support from the Rockefeller Foundation A number of the participating authors are established scholars in racial ethnic studies and several have published award winning bestsellers Others are relative newcomers to the field who were invited to join the project because they were doing important work on less well covered topics such as relations between African Americans and Chicano Latino Americans *Australian Books in Print*
