American National Pastimes - A History Mark Dyreson, Jaime Schultz, 2016-04-14 When the colonies that became the USA were still dominions of the British Empire, they began to imagine their sporting pastimes as finer recreations than even those enjoyed in the motherland. From the war of independence and the creation of the republic to the twenty-first century, sporting pastimes have served as essential ingredients in forging nationhood in American history. This collection gathers the work of an all-star team of historians of American sport in order to explore the origins and meanings of the idea of national pastimes of a nation symbolized by its sports. These wide-ranging essays analyze the claims of particular sports to national pastime status from horse racing, hunting, and prize fighting in early American history to baseball, basketball, and football more than two centuries later. These essays also investigate the legal, political, economic, and culture patterns and the gender, ethnic, racial, and class dynamics of national pastimes, connecting sport to broader historical themes. American National Pastimes chronicles how and why the USA has used sport to define and debate the contours of nation. This book was published as a special issue of the International Journal of the History of Sport.

The World's Number One, Flat-Out, All-Time Great, Stock Car Racing Book Jerry Bledsoe, 2019-02-01 On Labor Day weekend of 1972, journalist Jerry Bledsoe hooked up with the stock car racing circuit to begin research for his first book. The result of his efforts, first published in 1975, has been called the classic work on stock car racing. Bledsoe captures the beginnings of the modern NASCAR era, a time when legends like

Richard Petty David Pearson Bobby Allison and the Wood brothers ruled It was also a time when independent drivers like Wendell Scott NASCAR's first African American driver and Larry Smith could build a car in their garages during the week and race on Sunday alongside King Richard With levels of access impossible to achieve today Bledsoe is not only in the pits and garages with the drivers but also is alongside their family driving to the next race in a van piled high with ice chests filled with sandwiches and fried chicken He digs into the sport's rough and rowdy history and shines a light into its nooks and crannies uncovering the forgotten role that women drivers played in creating this most macho of motorsports And then there are the fans There's Red Robinson the self-proclaimed World's Number One Stock Car Racing Fan who collects racing beauty queens the way some people collect stamps And the fans camped out in the infield at Darlington the biggest wildest whoopingest holleringest drinkingest gamblingest carousingest knock down fall out blowout held in the South More than a book about racing this is a close up look at a cultural phenomenon that illuminates America and the South In 1965 Tom Wolfe called racer Junior Johnson the last American hero The World's Number One All Time Great Stock Car Racing Book shows that a decade later there were still plenty of heroes circling the track with no signs of them disappearing anytime soon
