Trump and the Protestant Reaction to Make America Great Again Matthew Rowley, 2020-11-01 This book explores how polarised interpretations of America's past influence the present and vice versa A focus on competing Protestant reactions to President Trump's Make America Great Again slogan evidences a fundamental divide over how America should remember historical racism sexism and exploitation Additionally these Protestants disagree over how the past influences present injustice and equality The 2020 killing of George Floyd forced these rival histories into the open Rowley proposes that recovering a complex view of the past confessing the bad and embracing the good might help Americans have a shared memory that can bridge polarisation and work to secure justice and equality An accessible and timely book this is essential reading for those concerned with the vexed relationship of religion and politics in the United States including students and scholars in the fields of Protestantism history political science religious studies and sociology

Race in the Mind of America Paul L. Wachtel, 2012-10-12 Internationally recognized psychologist Paul L. Wachtel sheds new light on the psychological foundations of our nation's racial impasse and applies his pathbreaking vicious circle approach to help resolve it This timely and fascinating analysis shows how the ways we attempt to cope with racial tensions and inequalities often lead to the perpetuation of our difficulties rather than their resolution Understanding the ironies that characterize contemporary race relations is the first step toward extricating our nation from the vicious circle Both controversial and healing *Race in the Mind of America* challenges the orthodoxies that shape black and white opinion and liberal and conservative policies while sensitively exploring the way the world looks to both sides and why it looks that way Wachtel probes the daily experiences of blacks and whites shedding new light on how individual experiences and larger social historical and economic forces continually re create each other In illustrating how blacks and whites get caught in vicious circles that sustain the very behaviors and attitudes they wish would change Wachtel also points toward the concrete solutions to our seemingly enduring dilemmas and shows how to move beyond the adversarial rhetoric that divides us

Racism and Sexual Oppression in Anglo-America Ladelle McWhorter, 2009-03-26 Does the black struggle for civil rights make common cause with the movement to foster queer community protest anti queer violence or discrimination and demand respect for the rights and sensibilities of queer people Confronting this emotionally charged question Ladelle McWhorter reveals how a carefully structured campaign against abnormality in the late 19th and early 20th centuries encouraged white Americans to purge society of so called biological contaminants people who were poor disabled black or queer Building on a legacy of savage hate crimes such as the killings of Matthew Shepard and James Byrd McWhorter shows

that racism sexual oppression and discrimination against the disabled the feeble and the poor are all aspects of the same societal distemper and that when the civil rights of one group are challenged so are the rights of all

[What's Real about Race?](#) Rina Bliss, 2025-02-11 A paradigm shifting tour of genetics and identity arguing that race is at once a biological fiction and a social reality Biologically race does not exist Scientists have proven that human DNA is 99.9 percent identical But we know that racism and its structural impacts shape our health opportunities and lives in profound ways What is the true relationship between genetics and race And how should we talk about identity in science and medicine In *What's Real About Race* sociologist Rina Bliss illuminates the truth about one of the most misunderstood controversial concepts in our society and reveals why we cannot confuse race with genetic difference Blending energizing prose with the latest in genetics research this paradigm shifting tour unmasks what's truly real about race namely racism s impact on our bodies and lives Bliss traces the history of race revealing how unscientific categories of

identity White Black Asian Pacific Islander and American Indian Alaska Native became the modern standard and illuminates how the myth of biological races endures in science and society warping our understanding of complex topics like intelligence disease susceptibility and behavior Along the way What's Real About Race busts enduring myths about IQ ancestry tests behavioral racism and more In fascinating explorations of gene research medicine and social justice Bliss argues for a new way forward To create equity in science and society we must disentangle our understanding of genetics from identity and see race for what it really is a purely social category At a time when misinformation about our bodies and identities is dangerously prevalent What's Real About Race is an indispensable resource and a powerful reminder that biologically our similarities vastly outweigh our differences
