Immigration, and Immigrants in Europe, 1960-1993 Rinus Penninx, Judith Roosblad, 2000 Contains nine essays which discuss 1 resistance and cooperation regarding the employment of foreign workers 2 inclusion and exclusion of foreign workers within trade unions and 3 the adoption of equal treatment or special measures for foreign workers **Race, Racialization and Antiracism in Canada and Beyond** Genevieve Fuji Johnson, Randy Enomoto, 2007-06-23 This multidisciplinary volume brings together scholars and activists to examine expressions of racism in contemporary policy areas including education labour immigration media and urban planning While anti racist struggles during the twentieth century were largely pitched against overt forms of racism e g pogroms genocide segregation apartheid and ethnic cleansing it has become increasingly apparent that there are other less visible forms of racism These subtler incarnations are of special interest to the contributors The intent of Race Racialization and Antiracism in Canada and Beyond is to probe systemic forms of racism as well as to suggest strategies for addressing them The collection is organized by themes pertinent to political and social

Public and Political Discourses of Migration Amanda Haynes,Martin J. Power,Eoin Devereux,Aileen Dillane,James Carr,2016-04-14 Popular political and media discourses frame the issue of migration and shape how and when it enters the public and political consciousness These discourses are of crucial importance as they influence both the general public's perception of migration and the policies which regulate both the act of migration itself and migrant residents Public and Political Discourses of Migration brings together an interdisciplinary group of established and emerging scholars whose work

interrogates the relationship between discourse and migration Through the application of a variety of theoretical lenses drawn from the broad canon of discourse studies each contribution unpicks the productive power of discourse in shaping the reality of migration migration policy and migrant lives in the twenty first century The cases examined emerge as do their authors from a wide spectrum of national political and cultural contexts They are linked by their fundamental questioning of common sense and ahistorical approaches to migration They address the question of whose interests are served by prevailing discourses and the structures they underpin Ultimately they make strange accepted truths regarding migration in the twenty first century

West European Immigration and Immigrant Policy in the New Century Anthony M. Messina,2002-06-30 Few if any phenomena affecting Western Europe as a whole since 1945 have been more far reaching in their immediate effects or more potentially destabilizing to politics and society over the long term than the accumulative experience of immigration Messina and his contributors analyze why the major immigrant receiving states of Western Europe historically permitted and often abetted relatively high levels of postwar migration and they assess how contemporary governments attempt to govern immigration flows and manage the domestic social and political fallout which it inevitably yields The central purpose of the volume is to address these questions within the context of the decision making logics that have demonstratively governed postwar migration to Western Europe in each of its three distinct but interrelated waves or phases labor migration family migration and humanitarian or forced migration Messina demonstrates that postwar migration to Western Europe in all of its phases has been governed by a set of mutually reinforcing and mostly compatible logics Of these the economic the humanitarian and the political the political has predominated over time and is likely to continue doing so into the indefinite future A major cross disciplinary analysis that will appeal to political scientists sociologists and general researchers and scholars of ethnicity race relations and comparative public policy
