

# *Characteristics of African Traditional Religion*

---

- ★ There exists a remote High God that does not interact with man.
- ★ The physical world is charged with spiritual energy that influences the flow of life.
  - This energy is distributed in a “lumpy” way.
- ★ The struggle is constant to balance and appease spiritual forces to avert disaster and elicit blessing.
  - Life often seems out of control.
- ★ Time centers on the past and present.
- ★ The living dead are involved still in the daily affairs of their village.

## Religion In An African City:

Religion in an African city Edward Geoffrey Parrinder, 1974      Migrants and Strangers in an African City Bruce Whitehouse, 2012-03-14 Finding place and identity in a globalized world      **Religion in an African City** Geoffrey Parrinder, 1963      *Encyclopedia of African Religion* Molefi Kete Asante, Ama Mazama, 2008-11-26 Numerous titles focusing on particular beliefs in Africa exist including Marcel Griaule's *Conversations with Ogotemmeli* but this one presents an unparalleled exploration of a multitude of cultures and experiences. It is both a gateway to deeper exploration and a penetrating resource on its own. This is bound to become the definitive scholarly resource on African religions. Library Journal Starred Review Overall because of its singular focus, reliability, and scope, this encyclopedia will prove invaluable where there is considerable interest in Africa or in different religious traditions. Library Journal As the first comprehensive work to assemble ideas, concepts, discourses, and extensive essays in this vital area, the *Encyclopedia of African Religion* explores such topics as deities and divinities, the nature of humanity, the end of life, the conquest of fear, and the quest for attainment of harmony with nature and other humans. Editors Molefi Kete Asante and Ama Mazama include nearly 500 entries that seek to rediscover the original beauty and majesty of African religion. Features Offers the best representation to date of the African response to the sacred. Helps readers grasp the enormity of Africa's contribution to religious ideas by presenting richly textured concepts of spirituality, ritual, and initiation while simultaneously advancing new theological categories, cosmological narratives, and ways to conceptualize ethical behavior. Provides readers with new metaphors, figures of speech, modes of reasoning, etymologies, analogies, and cosmogonies. Reveals the complexity, texture, and rhythms of the African religious tradition to provide scholars with a baseline for future works. The *Encyclopedia of African Religion* is intended for undergraduate and graduate students in fields such as Religion, Africana Studies, Sociology, and Philosophy.      **Slavery and the Birth of an African City** Kristin Mann, 2007-09-26 As the slave trade entered its last illegal phase in the 19th century, the town of Lagos on West Africa's Bight of Benin became one of the most important port cities north of the equator. *Slavery and the Birth of an African City* explores the reasons for Lagos's sudden rise to power. By linking the histories of international slave markets to those of the regional suppliers and slave traders, Kristin Mann shows how the African slave trade forever altered the destiny of the tiny kingdom of Lagos. This magisterial work uncovers the relationship between African slavery and the growth of one of Africa's most vibrant cities.      The African City Bill Freund, 2007-03-05 This book is comprehensive both in terms of time coverage from before the Pharaohs to the present moment and in that it tries to consider cities from the entire continent, not just Sub-Saharan Africa. Apart from factual information and rich description material culled from many sources, it looks at many issues from why urban life emerged in the first place to how present-day African cities cope in difficult times. Instead of seeing towns and cities as somehow extraneous to the real Africa, it views them as an inherent part of developing Africa, indigenous, colonial, and post-colonial, and emphasizes the extent to which the future of African society

and African culture will likely be played out mostly in cities The book is written to appeal to students of history but equally to geographers planners sociologists and development specialists interested in urban problems

**European Traditions in the Study of Religion in Africa** Ulrich Berner, Christoph Bochinger, 2004 This volume comprises case studies of five centuries of European encounters with and imaginations of Africa encompassing her triple religious heritage African Traditional Religions Christianity and Islam The introductory chapters outline the challenges and present overviews some of them also analyze the early accounts of European travelers and missionaries The following contributions examine the lasting legacy of the European Enlightenment in employing an ambivalent language of human equality and universalism while in actual fact consigning Africa to an inferior position It has been difficult for western scholars to divorce themselves wholly from the perceptions thus established However there have been quite different approaches This is indicated in the papers discussing the role and impact of influential European academics scholars of religion theologians historians and social scientists during the colonial and postcolonial period Other contributions examine specific institutional centers of African religious studies in Europe The concluding chapters critically assess European approaches and their use for the study of religion in Africa from an African perspective

**The Palgrave Handbook of African Traditional Religion** Ibigbolade S. Aderibigbe, Toyin Falola, 2022-05-20 The Palgrave Handbook of African Traditional Religion interrogates and presents robust and comprehensive contributions from interdisciplinary experts and scholars Offering a range of perspectives and opinions through the prism of understanding the past about African Traditional religions and more importantly capturing their dynamics in the present and projecting their sustainability and relevance for the future this volume is an essential resource for knowledge and understanding of African Traditional religions in the global space of religious traditions
