## A "Research Essay" or a "Research Project" Instead of a "Research Paper"

---

Throughout this book, I've purposefully avoided the term "research paper" for three reasons. First, while teachers assign and students write essays in college classes that are commonly called "research papers," there is no clear consensus on the definition of a research paper. This is because the definition of "research" differs from field to field, and even between instructors within the same discipline teaching the same course.

Second, while the papers we tend to call "research papers" do indeed include research, most other kinds of college writing require at least some research as well. All of the exercises outlined in Part Two of the book, "Exercises in the Process of Research" are examples of this: while none of these assignments are "research papers," all of them involve research in order to make a point.

A third reason has to do with the connotations of the word "paper" versus the word "essay." For me, "paper" suggests something static, concrete, routine, and uninteresting—think of the negative connotations of the term bureaucratic "paperwork," or the policing mechanism of "showing your papers" to the authorities. On the other hand, the word "essay" has more positive connotations: dynamic, flexible, unique, and creative. The definitions of essay in dictionaries I have examined include terms like "attempt," "endeavor," and "a try." As a writer, I would much rather work on something that was a dynamic and creative endeavor rather than a static and routine document. My hope is that you, as a student and a writer, feel the same way.

This chapter is about writing a research essay. While I cannot offer you *exact* guidelines of how to do this for each and every situation where you will be asked to write such a paper or essay, I can provide you with the general guidelines and advice you'll need to successfully complete these sorts of writing assignments. In the next chapter, I'll describe a few alternatives to presenting your research in a conventional essay.
