Sambia Ritual And Gender In New Guinea:

The Sambia Gilbert H. Herdt, 2002 **Rituals of Manhood** Gilbert H. Herdt, 2017-09-08 Rituals of Manhood provides some of the most dramatic and richly textured accounts of ritual passages known to anthropologists of the late twentieth century When in an earlier time anthropologists and sociologists described collective initiation rituals the political and gender aspects of these practices were seldom underscored Today the power relationships of the body and domination and the social arena of gender politics are widely regarded as critical to the cultural meaning and interpretation **The Sambia** Gilbert H. Herdt, 1987 This cultural and psychological study of gender identity and sexual development in a New Guinea Highlands society includes initiation rites and socialization studies and contrasts the Sambia with other societies including our own Sambia boys experience ritualized homosexuality before puberty and do not leave it until marriage after which homosexual activity is prohibited The implications are developed cross culturally and contextualized in gender literature

Perspectives on Human Sexuality Anne Bolin, Patricia Whelehan, 1999-01-01 Presents the first book length examination of both the biological and cultural factors in human sexuality **Brothers and Others in Arms** Danny Kaplan, 2003 Based on their gripping stories the author unveils the inner workings of military life exploring the territory surrounding the thin line between brothers in arms and brothers in bed **BOOK JACKET** *Dreams, Gender, and Artisanal Mining in Papua New Guinea* Dan Moretti, 2025-10-01 Up to 200 000 Melanesian men women and children work as artisanal miners yet their lifeworlds are seriously under researched This ethnography of a multigenerational community of migrant miners in Papua New Guinea shows that dreaming mediates how they experience and manage gold mining Men argue that they alone can mine successfully by forming oneiric marriage bonds with the spirits of the land Women draw on their own dream experience to challenge this asserting their equal capacity to marry spirits and their right to mine For women and men alike dreams provide legitimations of agency and commentaries on mutual dependencies and moral obligations in the domestic domain and between humans and nonhumans The Sambia: Ritual, Sexuality, and Change in Papua New Guinea Gilbert Herdt, 2006 This cultural and psychological study of gender identity and sexual development in a New Guinea Highlands society includes rich material on initiation rites and socialization studies and contrasts the Sambia with other societies including the United States For example Sambia boys experience ritualized homosexuality before puberty and continue this practice until marriage after which homosexual activity is prohibited The implications are developed cross culturally and contextualized in gender literature This new edition contains updated information about the Sambia ritualization and socialization of gender practices and will include a new chapter on sexuality gender and social change among the Sambia Important Notice Media content referenced within the product description or the product text may not be available in the ebook version **Gender in Amazonia and Melanesia** Thomas Gregor, Donald Tuzin, 2001-11 Amazonia and Melanesia are half a world in distance yet their cultures bear similarities in the areas of sex and gender This work looks at ways in which

sex and gender are elaborated obsessed over and internalized Gender Rituals Nancy Lutkehaus, Paul Roscoe, 2013-09-13 This volume draws together ethnographies of female initiation rites in Melanesia which require anthropologists to rethink their analysis of initiations and their perceptions of gender The contributors argue that female initiation rites express more than cultural notions of femininity narrow definitions of reproduction or coming of age rituals instead they play an important role in other life cycle rituals and in the political and economic organization of society **Gay and Lesbian Youth** Gilbert H. Herdt, 1989 A compendium of research on gay and lesbian adolescents consisting of fourteen articles on the formation of homosexual identities male prostitution among gay and bisexual adolescents AIDS and being homosexual in England Mexico Brazil France and other cultures and other related topics *From Primitive to Postcolonial in Melanesia and Anthropology* Bruce Knaft, 2025-10-01 What have anthropologists taught us about Melanesia one of anthropology's most important and intensively studied world regions In this book Professor Bruce Knaft draws together and critically reanalyzes what we know about major features of Melanesian cultural history warfare and politics gender bodily practices and spirituality as discerned from more than a century of academic study *From Primitive to Postcolonial in Melanesia and Anthropology* is arguably the most comprehensive single reassessment of Melanesia as an ethnographic world area to have been published in several decades Written for students as well as professional scholars this work further broadens our understanding by analyzing the history of Melanesian ethnography and relating this history to the larger relationship between Melanesia as a contemporary world area and anthropology as a field of contemporary human study Bruce M Knaft is Professor of Anthropology Emory University and the author of three previous books as well as some thirty journal articles and chapters Knaft's interests span a wide range of issues in the anthropology of Melanesia and he is articulate with general issues of cultural theory and anthropological history **Ritualized Homosexuality in Melanesia** Gilbert H. Herdt, 2023-04-28 This book contains the work of seven leading anthropologists on the subject of ritualized homosexuality and it marks the first time that anthropologists have systematically studied cross cultural variations in homosexual behavior in a non Western culture area The book as a whole indicates that contemporary theories of sex and gender development need revision in light of the Melanesian findings This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1984 This book contains the work of seven leading anthropologists on the subject of ritualized homosexuality and it marks the first time that anthropologists have systematically studied cross cultural variations in homosexual behavior in a non Western culture **True Nature** Michael R. Kauth, 2000-08-31 This volume presents an updated and truly interactionist theory of sexual attraction in which biologically based erotic processing biases are continually exploited or challenged by social and cultural conditions From this perspective social orientation is viewed as

a process rather than an outcome The author takes an interdisciplinary approach that draws upon data from anthropology sociology gender studies social constructionism behavioral and developmental psychology evolutionary biology genetics endocrinology and cognitive functioning to support his theory This text will be of interest to sexologists evolutionary biologists psychologists and other social scientists interested in human sexuality Same Sex, Different Cultures Gilbert H Herdt,2018-05-15 Because homoerotic relations can be found in so many cultures Gilbert Herdt argues that we should think of these relations as part of the human condition This new cross cultural study of gays lesbians and bisexuals around the world Same Sex Different Cultures provides a unique perspective on maturing and living within societies both historical and contemporary that not only acknowledge but also incorporate same gender desires and relations Examining what it means to organize sex in a society that lacks a category for sex or to love someone of the same gender when society does not have a homosexual or gay lesbian role Herdt provides provocative new insights in our understanding of gay and lesbians lives Accurate in both its scientific conceptions and wealth of cultural and historical material examples range from the ancient Greeks and feudal China and Japan to the developing countries of Africa India Mexico Brazil and Thailand from a New Guinea society to contemporary U S culture including Native Americans For all of these peoples homoerotic relations emerge as part of culture and not separate from history or society In many of these groups loving or engaging in sexual relations is found to be the very basis of the local cultural theory of human nature and the mythological basis for the cosmos and the creation of society The mistake of modern Western culture Gilbert contends is to continue the legalization of prejudice against lesbians and gays In this light the book addresses the issue of universal versus particular practices and reveals positive role models that embrace all aspects of human sexuality Finally it offers knowledge of the existence of persons who have loved and have been intimate sexually and romantically with the same gender in other lands through divergent cultural practices and social roles The most important lesson to learn from this cross cultural and historical study of homosexuality is that there is room for many at the table of humankind **Anthropologica** ,2002 **Social Theory** Roberta Garner,Black Hawk

Hancock,2014-04-29 The organization of this popular social theory reader which pairs classical articles with contemporary theoretical and empirical studies highlights the historical flow of social theory and demonstrates how disagreements and confrontations shape theory over time Written in clear down to earth language the introductions to each selection link theorists to one another illustrating how theoretical traditions are not rigidly separate but are always in conversation addressing and challenging each other The third edition incorporates significant changes more readings reflecting a wide diversity of theorists a completely revamped chapter on gender new chapters on race and culture and unique material on the transitional giants who have helped to transform classical theory into contemporary theory As well new contextual and biographical materials surround each reading and each chapter includes a study guide with key terms and innovative discussion questions and classroom exercises The result is a fresh take on social theory that foregrounds a plurality of

perspectives and reflects contemporary trends in the field while still managing to be a teachable and affordable text

Human Rights and the Third World Subrata Sankar Bagchi, Arnab Das, 2012-12-06 Human Rights and the Third World Issues and Discourses deals with the controversial questions on the universalistic notions of human rights It finds Third World perspectives on human rights and seeks to open up a discursive space in the human rights discourse to address unresolved questions citing issues and problems from different countries in the Third World 1 Whether alternative perspectives should be taken as the standard for human rights in the Third World countries 2 Should there be a universalistic notion of rights for Homo sapiens or are we talking about two diametrically opposite trends and standards of human rights for the same species 3 How far these Third World perspectives of human rights can ensure the protection of the minorities and the vulnerable sections of population particularly the women and children within the Third World 4 Can these alternative perspectives help in fighting the Third World problems like poverty hunger corruption despotism social exclusion like the caste system in India communalism and the like 5 Can there be reconciliation between the Third World perspectives and the Western perspective of human rights
