Secured Credit Under English and American Law Gerard McCormack, 2004-06-14 Secured Credit drives economic activity Under English Law it is possible to create security over almost any asset but the law is widely considered to be unsatisfactory for several reasons including a cumbersome registration system a preoccupation with formalistic distinctions and the lack of clear and rationally determined priority rules Gerard McCormack examines the current state of English law highlighting its weaknesses He uses Article 9 of the American Uniform Commercial Code as a reference point this Article has successfully serviced the world's largest economy for over 40 years and is increasingly used as the basis for legislation by Commonwealth jurisdictions including Canada and New Zealand The Law Commission has suggested the enactment of similar legislation in England In addition McCormack considers if there really is a case for the priority of secured credit as well as if there are other international models to draw upon Contains the text of Article 9

Mostly with his deep understanding of how the American system works, he brings the wisdom of knowing what not to do as well as what aspects of life one must protect in order to build a decent and fulfilling life in America. In his own words, Muchina says: "This book is everything I wish someone had told me when I first came to America. What are the top 5 mistakes most immigrants make? Is the American Dream possible for an immigrant? What will your host expect of you when you get to America? Where should you settle in and why? How are you expected to behave in America? How is America different from where you're coming from? What are you going to love about the country and its culture? Will you be able to get a job? What kind of documents will you need to get a job? Will you be able to get work documents if you have a non-immigrant visa? Will you be allowed and able to get work if you have a non-immigrant visa? What happens if you overstay your visa? What kind of job will you be able to get as an immigrant? How much are you likely to get paid for what job? How much will it cost you to live in America? How much does housing cost? What can you or can't you do? What kind of bills will you have to pay? What kind of taxes will you have to pay? How much money will you be able to earn per month? How much will you be able to save per month? If you wanted to start a business, could you? What kind of rights will you have as an immigrant? How do undocumented immigrants get jobs? What kind of work do undocumented immigrants do? What jobs pay better than others for immigrants? What rights do immigrants have? Do undocumented immigrants have any rights? What's a social security number and why does everyone need one? What if you can't get a social security number because of your immigration status? How do you get a driver's license? If you go out of status, will you be able to get a driver's license? Where can you get a driver's license if you overstay your visa? What can you expect from friends and relatives when you move to America? How should you deal with relatives back home? What's a FICO credit score and how does it determine your success or failure? What mistakes are you likely to make that could ruin your life in America? Will your foreign university degree get you a job in the United States?" In part 4, you'll hear the story of the author, an immigrant whose life was nearly destroyed in America due to the lack of information such as found in this book. In his pursuit of the American dream, he made all the wrong mistakes just like so many immigrants and citizens make. He hopes to spare you from the same fate so you have a chance to succeed and get yourself a piece of the American Dream.
