Israeli Exceptionalism M. Alam,2009-11-09 This book discusses the small band of European Zionists who entered the world stage in late 19th century determined to create a Jewish state and considers how at that time in Europe Jewish Gentile frictions were local problems whilst today in Israel they have come to form the pivot of global conflict US Foreign Policy and Global Standing in the 21st Century Efraim Inbar,Jonathan Rynhold,2016-01-13 This book examines US foreign policy and global standing in the 21st Century The United States is the most powerful actor in world politics today Against this backdrop the present volume examines how the foreign policies pursued by Presidents George W Bush and Barack Obama have affected elite and public perceptions of the United States By examining America s standing from the perspective of different actors from across various regions including China Russia Latin America and the Middle East while also assessing how these perceptions interact with America s own policies this books presents a fresh interpretation of America s global standing In doing so the volume evaluates how these perceptions affect the realities of US power and what impact this has on moulding US foreign policy and the policies of other global powers A number of books address the question of which grand strategy the United States should adopt and the issue of whether or not America is in relative decline as a world power However the debate on these issues has largely been set against the policies of the Bush administration By contrast this volume argues that while Obama has raised the popularity of America since the low reached by Bush America s credibility and overall standing have actually been damaged further under President Obama This book will be of much interest to students of US foreign policy US national security strategic studies Middle Eastern politics international relations and security studies generally Historic Palestine, Israel, and the Emerging Palestinian Autonomous Areas Laura Etheredge Assistant Editor, Middle East Geography,2011-01-15 Explores the history of the region explains how it has changed over time and discusses the future of the area *Politics and Society in Modern Israel* Adam Garfinkle,2015-03-04 With full coverage of recent dramatic events in Israeli politics from the Rabin assassination through the May 1996 elections this work provides an up to date introduction to Israeli politics and society It seeks to convey a strong sense of everyday life in Israel the nuances and contradictions of Israeli identity the ethnic composition and institutional structure of Israeli society as well as Israeli political culture and the issues that dominate the country s domestic and foreign policy **American Christian Support for Israel** Eric R. Crouse,2014-10-28 The dominant political theme of the State of Israel is the perpetual quest for security In its first 25 years Israel experienced five wars with Arab states declaring their goal to destroy Israel In American Christian Support for Israel Standing with the Chosen People 1948 1975 Eric R Crouse examines how American Christians responded to Israel s wars and the persistent threats to its security While some were quick to condemn Israel as it made

difficult and unpopular decisions in its fight for survival in a hostile region conservative Christians were trustworthy supporters routinely voicing uplifting reports Crouse argues that Israel s embodiment of western ideals and its remarkable economic development gave conservative Christians good reasons to favor Israel in a troubled Middle East but the main reason for their unconditional support was the key biblical text of Christian Zionism I will bless those who bless you Abraham and his descendants and I will curse him who curses you Genesis 12 3 *Review Essays in Israel Studies* Laura Zittrain Eisenberg, Neil Caplan, 2000-01-06 Introduces the cutting edge issues and current scholarship in the interdisciplinary field of Israel Studies The Origins of the Arab Israeli Wars Ritchie Ovendale, 2015-10-23 This highly regarded history gives a balanced and judicious introduction to this immensely complex and controversial subject weaving different strands of the story into a single coherent narrative thus making it essential reading for all students studying conflict in the Middle East Of all the troubles affecting the modern world few are as topical deep rooted and intractable as the Arab Israeli conflict For this region an understanding of the past is vital to an understanding of the present Ritchie Ovendale s classic study of the roots of the conflict is now updated for a fourth time and considers events until 2003 *A Companion to American Foreign Relations* Robert Schulzinger, 2008-04-15 This is an authoritative volume of historiographical essays that survey the state of U S diplomatic history The essays cover the entire range of the history of American foreign relations from the colonial period to the present They discuss the major sources and analyze the most influential books and articles in the field Includes discussions of new methodological approaches in diplomatic history To Stand with Palestine Karam Dana, 2025-02-04 In recent years attitudes in the United States toward the Palestinian cause have shifted dramatically Although Palestinians have long been demonized in U S media and politics their struggle portrayed as illegitimate emergent progressive voices increasingly challenge the status quo on Israel and Palestine and express solidarity with Palestinian resistance What accounts for this change and its evolution This book provides a new lens on activism around Palestinian issues demonstrating how the global Palestinian diaspora has driven transnational political movements Karam Dana explores the ways that exile has shaped Palestinian identity and allowed for new forms of global activism He examines the social political economic and technological forces that have created space for Palestinian voices to be heard by wider audiences worldwide Drawing on interviews with scholars and advocates including members of the Palestinian diaspora and Jewish American activists as well as public opinion data and media analysis Dana traces how global Palestinian communities have influenced American views He addresses the backlash against pro Palestinian advocacy but argues that solidarity with Palestinians both in the United States and globally will continue to strengthen Timely and insightful To Stand with Palestine offers an inside look at how Palestinians have shared their story with the world and why sympathy for their plight is growing with significant implications for the global political landscape The American Deep State Peter Dale Scott, 2017-05-02 Now in a new edition updated through the unprecedented 2016 presidential election this provocative book makes a compelling case for a hidden deep state

that influences and often opposes official U S policies Prominent political analyst Peter Dale Scott begins by tracing America s increasing militarization restrictions on constitutional rights and income disparity since World War II With the start of the Cold War he argues the U S government changed immensely in both function and scope from protecting and nurturing a relatively isolated country to assuming ever greater responsibility for controlling world politics in the name of freedom and democracy This has resulted in both secretive new institutions and a slow but radical change in the American state itself He argues that central to this historic reversal were seismic national events ranging from the assassination of President Kennedy to 9 11 Scott marshals compelling evidence that the deep state is now partly institutionalized in non accountable intelligence agencies like the CIA and NSA but it also extends its reach to private corporations like Booz Allen Hamilton and SAIC to which 70 percent of intelligence budgets are outsourced Behind these public and private institutions is the influence of Wall Street bankers and lawyers allied with international oil companies beyond the reach of domestic law Undoubtedly the political consensus about America s global role has evolved but if we want to restore the country s traditional constitutional framework it is important to see the role of particular cabals such as the Project for the New American Century and how they have repeatedly used the secret powers and network of Continuity of Government COG planning to implement change Yet the author sees the deep state polarized between an establishment and a counter establishment in a chaotic situation that may actually prove more hopeful for U S democracy

Israeli National Security Charles D. Freilich, 2018-03-08 National security has been at the forefront of the Israeli experience for seven decades with threats ranging from terrorism to vast rocket and missile arsenals and even existential nuclear dangers Yet despite its overwhelming preoccupation with foreign and defense affairs Israel does not have a formal national security strategy In *Israeli National Security* Chuck Freilich presents an authoritative analysis of the military diplomatic demographic and societal challenges Israel faces today to propose a comprehensive and long term Israeli national security strategy The heart of the new strategy places greater emphasis on restraint defense and diplomacy as means of addressing the challenges Israel faces along with the military capacity to deter and if necessary defeat Israel s adversaries while also maintaining the resolve of its society By bringing Israel s most critical debates about the Palestinians demography Iran Hezbollah Hamas US relations and nuclear strategy into sharp focus the strategy Freilich proposes addresses the primary challenges Israel must address in order to chart its national course The most comprehensive study of Israel s national security to date this book presents the first public proposal for a comprehensive Israeli national security strategy and prescribes an actionable course forward
