9/11 and the Future of Transportation Security R. William Johnstone, 2006-05-30 R William Johnstone served on the transportation security staff of the 9 11 Commission and wrote this book to build upon and supplement the Commission s work In its pages he explains the aviation security system failure on 9 11 uses that as a means for evaluating post 9 11 transportation security efforts and proposes remedies to continued shortcomings 9 11 and the Future of Transportation Security is based on information originally provided to the 9 11 Commission augmented by unpublished reports and a wealth of other material that has come to light since the issuance of the Commission s own report in July 2004 Part One analyzes the aviation security system s history and institutions to explain why the system failed on 9 11 Part Two looks at what has been done in aviation and transportation security since 9 11 including the Commission s recommendations and the congressional response to them Finally and most significantly Part Three outlines a suggested approach for improving current U S transportation security It begins with fundamental policy questions that must be

answered if we are to optimize transportation security efforts and concludes with both underlying principles for action and specific recommendations

The Future of Work in the United States Natalie Rauscher,2021-09-03 This book presents and analyzes how restructuring processes due to technological change are reflected and processed in political and public discourses in the United States in the most recent past More specifically this work examines how the themes of automation digitization and the platform economy and their impact on the future of work are reflected in public discourse through the analysis of journalistic articles and political discourse through the analysis of congressional hearings Public and political discourses as well as economic narratives shape our understanding of certain developments such as technological change our behavior more generally and societal support of said developments Therefore it is vital to investigate and analyze these discourses in order to show how technological change is perceived and evaluated today This work draws from concepts and methods of several different disciplines most notably using a combination of corpus linguistic methods and exemplary textual

analysis This way this work stands as truly interdisciplinary with a unique approach to the quantitative and qualitative examination of discourses Departments of Transportation, Treasury and General Government, and Related Agencies Appropriations for Fiscal Year 2004 United States.
