International Organizations and Internal Conditionality R. Fawn, 2013-11-12 This book explores how norms based international organizations namely the Council of Europe and the OSCE are still able to win in world politics Fawn uses the concept of internal conditionality to explain how these organizations have been able to respond to members with a lack of material incentives or instruments of coercion

The Euro-Atlantic Security System in the 21st Century Ryszard Zięba, 2018-04-25 This book examines the evolution of the Euro Atlantic security system from cooperation to rivalry and crisis since the beginning of the 21st century By highlighting the causes manifestations and international consequences of this evolution the author describes a stage of crisis in the security system characterized by increasing rivalry for spheres of influence militarization of policies and the suspension of cooperation due to the growing divergence between the interests of the West now including the Central European states and

Human Rights Diplomacy Rein Mullerson, 2014-04-04 In this insightful analysis of human rights diplomacy Rein Mullerson examines the way foreign policy instruments are used to promote human rights abroad as well as how human rights issues are used for the sake of other foreign policy aims The book explores the relationship between human rights and international stability the role of non governmental organisations the business community and mass media in formulating human rights agendas for governments and inter governmental organisations Also addressed are issues such as the universality of human rights in a multi cultural world and the impact of religious and nationalistic extremism Rein Mullerson concludes by looking at the role of the UN and other international bodies engaged in the promotion of human rights and how military force can be an option in settling violations The author argues that it tends to be regimes that are hostile to human rights which in turn cause instability in the international community Throughout the work it is demonstrated that a concern for human rights is legitimate because of the impact they have on international relations and because of the common bonds that link all people

International Legitimacy and World Society Ian Clark, 2007-04-26 The conventional view of international society is that it is interested only in co existence and order amongst states This creates a puzzle When the historical record is examined we discover that international society has repeatedly signed up to normative principles that go well beyond this purpose When it has done so it has built new normative constraints into international legitimacy and this is most conspicuously so when it has espoused broadly humanitarian principles This suggests that the norms adopted by international society might be encouraged from the distinct constituency of world society The book traces a series of historical case studies which issued in international affirmation of such principles slave trade abolition in 1815 the public conscience in 1899 social justice but not racial equality in 1919 human rights in 1945 and democracy as the only acceptable form of state in 1990 In each case evidence is presented of world society actors transnational movements advocacy networks and INGOs making the political running in support of a new principle often in alliance with a leading state At the same time world society has mounted a normative case and this can be seen as a degree of normative integration between international and world society Each of the cases tells a fascinating story in its own right Collectively they contribute to the growing IR literature on the role of norms and especially that written from a broadly English School or constructivist perspective The book thereby puts some real historical flesh on the concept of world society

while forcing us to reconsider traditional views about the essential nature of international society *Les opérations de maintien de la paix en Europe* Wael Badawi, 2003-02 Les opérations de maintien de la paix ont été mises sur pied à l'origine pour faire face des conflits internationaux apparus après la Seconde Guerre Mondiale. La première génération de ces opérations entreprenait des activités principalement d'ordre militaire sans pour autant imposer une solution au conflit. La fin de la guerre froide a transformé ces opérations. Celles-ci se sont multipliées et diversifiées pour devenir des opérations caractéristiques globales pouvant prendre en charge simultanément les problèmes complexes causés par les conflits contemporains de plus en plus intercommunautaires au sein d'un même État et assortis de graves répercussions locales et internationales. Le conflit en Bosnie Herzégovine entre 1992 et 1995 permet d'analyser les contributions des cinq principales organisations internationales qui ont vocation à participer aux opérations de maintien de la paix sur le continent européen en l'occurrence l'Organisation des Nations Unies ONU, l'Organisation du Traité de l'Atlantique Nord OTAN, l'Organisation pour la Sécurité et la Coopération en Europe OSCE, l'Union de l'Europe occidentale UEO et l'Union européenne UE. Malgré la présence de ces organisations disposant en théorie du moins des moyens nécessaires et le fait que les quatre organisations régionales impliquées développent durant cette guerre des compétences les habilitant à entreprendre des opérations de maintien de la paix, la gestion de ce conflit s'apparente pendant longtemps à un échec. Le conflit s'est tal sur une période de près de trois ans et demi engendrant des massacres de grande ampleur et le plus grave problème de réfugiés en Europe depuis la fin de la Seconde Guerre Mondiale. Par conséquent il paraît nécessaire d'intégrer les contributions des organisations en question dans la mise en œuvre de telles opérations multidimensionnelles afin d'assurer la complémentarité et la coordination nécessaires à leur succès **European Access**, 1996

New entries including the G 7 G 24 and the International Committee of the Red Cross have been added. On the 50th anniversary of the UN special annexes on peace keeping agencies and major resolutions are now included. The introductory essay contains an overall view of the basic features of the law of international organizations and a survey of their historical development and outstanding problems helping the reader to set the organizations in their proper context be it global or sectional. The main body of the book consists of alphabetically arranged entries for over 200 organizations from the UN to specialised agencies and regional bodies in Europe the Americas the Middle East Africa Asia and the Pacific. Each entry is broken up into sub-headings such as Purpose Structure Origin and Development and Activities. Specific data concerning addresses principal officers main periodic publications and a short list of works of reference are provided with each entry.
