**Performing the Secular** Milija Gluhovic, Jisha Menon, 2017-09-14. With a foreword from Rustom Bharucha, this book is a timely anthology which aims to unsettle our habituated modes of thinking about the place of the secular in cultural productions. The last decade alone has witnessed many religious protests against cultural productions which have led in some cases to the closure of theatre and opera performances. Threats to artists led to the exile of Indian painter MF Husain and murder of Dutch film maker Theo van Gogh; the controversy over the depiction of the Islamic prophet Muhammad in the Danish newspaper Jyllands Posten in 2005 led to the cancellation of performances of Mozart's Idomeneo for the season. Offering fresh and provocative readings that probe the limits and promise of secularity in relation to questions of performance, politics and the public sphere, this book will be invaluable to scholars who seek to understand the dramatic rise of politicized theology in our new century.

**Midnight in the Pacific** Joseph Wheelan, 2024-09-24. A sweeping narrative history of America's first major offensive of WWII: the brutal campaign to take Japanese-occupied Guadalcanal. From August to November of 1942, US Marines, sailors and pilots struggled against an implacable enemy. Japanese soldiers inculcated with the bushido tradition of death before dishonor, the glittering prize was the strategically decisive Henderson Airfield. The bitter slugfest dragged on with heavy losses on both sides. More American sailors died in these battles than in all previous US wars. Each side lost twenty-four warships, and the air war claimed more than 500 US planes. Meanwhile, starving Japanese soldiers called it the island of death. In the end, American Marines, sailors and airmen

had finally halted the Japanese juggernaut that had whirled through Asia and the Pacific for five years Guadalcanal was America's first major ground victory against Japan and most importantly the Pacific War's turning point Drawing on vivid accounts written by the combatants along with Marine Corps and Army archives and oral histories *Midnight in the Pacific* is both a sweeping narrative and a compelling drama of individual Marines soldiers and sailors caught in the crosshairs of history

**The Struggle for Order** Evelyn Goh, 2013-08-15 How has world order changed since the Cold War ended Do we live in an age of American empire or is global power shifting to the East with the rise of China Arguing that existing ideas about balance of power and power transition are inadequate this book gives an innovative reinterpretation of the changing nature of U S power focused on the order transition in East Asia Hegemonic power is based on both coercion and consent and hegemony is crucially underpinned by shared norms and values Thus hegemony must constantly legitimize their unequal power to other states In periods of strategic change the most important political dynamics centre on this bargaining process conceived here as the negotiation of a social compact This book studies the re negotiation of this consensual compact between the U S China and other states in post Cold War East Asia It analyses institutional bargains to constrain and justify power attempts to re define the relationship between a regional community and the global economic order the evolution of great power authority in regional conflict management and the salience of competing justice claims in memory disputes It finds that U S hegemony has been established in East Asia after the Cold War mainly because of the complicity of key regional states But the new social compact also makes room for rising powers and satisfies smaller states insecurities The book controversially proposes that the East Asian order is multi tiered and hierarchical led by the U S but incorporating China Japan and other states in the layers below it

**Sensible Politics** William A. Callahan, 2020 Visual images are everywhere in international politics But how are we to understand them In *Sensible Politics* William A Callahan uses his expertise in theory and filmmaking to explore not only what visuals mean but also how visuals can viscerally move and connect us in affective communities of sense The book's rich analysis of visual images photographs film art and visual artifacts maps veils walls gardens cyberspace shows how critical scholarship needs to push beyond issues of identity and security to appreciate the creative politics of social ordering and world ordering Here sensible politics isn't just sensory but looks beyond icons and ideology to the affective politics of everyday life It challenges our Eurocentric understanding of international politics by exploring the meaning and impact of visuals from Asia and the Middle East *Sensible Politics* offers a unique approach to politics that allows us to not only think visually but also feel visually and creatively act visually for a multisensory appreciation of politics

military's threats to subvert the government if it sued for peace. Yet rather than clarity and unanimity, the trial brought complexity, dissents, and divisions that provoke international discord between China, Japan, and Korea to this day. Those courtroom tensions and contradictions could also be seen playing out across Asia as the trial unfolded in the crucial early years of the Cold War, from China's descent into civil war to Japan's successful postwar democratic elections to India's independence and partition. From the author of the acclaimed *The Blood Telegram*, which was a Pulitzer Prize finalist, this magnificent history is the product of a decade of research and writing. *Judgment at Tokyo* is a riveting story of wartime action, dramatic courtroom battles, and the epic formative years that set the stage for the Asian postwar era.
