

The background of the cover is a painting of a winter landscape. A large, dark, gnarled tree stands in the center, its branches reaching out. The ground is covered in snow, with patches of brown earth visible. In the background, there are rolling hills and a small body of water. The overall color palette is muted, with blues, greys, and earthy tones.

The Seed Beneath the Snow Ignazio Silone, 1942 **Ignazio Silone** Maria Nicolai Paynter, 2000-01-01 Throughout his life the internationally known novelist short story writer and journalist Ignazio Silone 1900 1978 struggled indomitably for social justice In this book Maria Nicolai Paynter discusses the many controversial issues surrounding Silone and his writing analysing in detail his intellectual and political convictions and assesses the artistic achievement and stylistic development in his works Paynter argues that a profound authenticity is at the core of Silone's writing and that his tragic vision emanates from a concept of heroism based not on pride and self serving defiance but rather on moral courage and integrity Northrop Frye's archetypal criticism and his concept of ironic myth provide the theoretical framework through which Paynter guides the reader to an understanding of Silone's particular brand of realism and his unique message Ignazio Silone Beyond the Tragic Vision is a new expanded version in English of an earlier Italian language book which won the Premio Internazionale Letterario Ignazio Silone It is the first comprehensive book in English on Silone's life his writings and their critical reception

The Seed Beneath the Snow, Trans. from the Italian Ignazio Silone, **A Seed Beneath the Snow** Wendell B. Anderson, 1995 **Literature and Society** NA Glicksberg, 2013-11-11 1 Prolegomena The purpose of this book is to examine anew and from a number of different perspectives the highly complex and controversial relation between literature and society This is not meant to be a study in sociology or political science the analysis of literature its structure content function and effect is our primary concern What we shall try to find out is how the imaginative work is rooted in and grows out of the parent social body to what extent it is influenced in subject matter as well as form and technique by the dominant climate of ideas in a given historical period and to what degree and in what manner literature influences the society to which it is addressed The stream of literary influence is of course difficult to trace to its putative source for here we are not dealing as in science with isolated physical phenomena which can be fitted precisely within some cause and effect pattern The relationship between literature and society is far more subtle and complex than social scientists or cultural critics commonly assume
