Christel, Scott Sullivan, 2007 Contains twenty seven lesson plans designed to help teachers integrate media literacy concepts and skills into the curriculum each with a rationale activity and assessment and adaptation suggestions covering photography multimedia video print graphic novels music video games and advertising Includes a companion CD *Policy, Belief and Practice in the Secondary English Classroom* Bethan Marshall, Simon Gibbons, Louise Hayward, Ernest Spencer, 2018-11-01 Studies of comparative classroom practice in the teaching of secondary English are limited especially when it comes to exploration of the day to day practice of English teachers in the secondary classroom This book presents a case study analysis of secondary classroom practice in three countries Canada England and Scotland Each country has had different degrees of state involvement within the secondary English curriculum over the last twenty years England has had the highest degree of state involvement in that it has had several statutory national curricula and a variety of assessment regimes Scotland has had a non statutory curriculum and no national tests and Canada has had no national curriculum at all with education being determined at province level and each province varying its policies The research adopts a case study approach involving both classroom observation and interviews with teachers Through this the authors explore the impact of state involvement on the reality of what happens in secondary English classrooms The book invites readers to consider the applicability of the findings to their own contexts to examine their own practice in the light of this and to consider the nature of the relationships between policy personal belief and practice in the teaching of English Teachers Go to Rehab Gerard Giordano, 2012-10-04 Teachers Go to Rehab examines the advice given to teachers from multiple critics both historically and recently This book looks at the scope cost and impact of this advice to teachers as well as the motives behind it It poses precise questions about the groups that gave the advice Who were they What did they recommend How did they estimate impact How did they calculate costs What aims did they profess What aims did they conceal Whom did they attract Whom did they alienate When did they succeed When did they fail Love to Hate Jody Roy, 2002-08-27 Why is the simple impulsive question we ask when confronted by horrible acts of hatred and violence Why do students shoot fellow students or employees their coworkers Why do mothers drown their children or husbands stalk and kill their wives Love to Hate challenges us to turn this question upon ourselves at a deeper level Why as a culture are we so fascinated by these acts Why do we bestow celebrity on the perpetrators while allowing the victims to fade into a second death of obscurity Are we as Pope John Paul II famously accused a culture of death And if so how can we break free of this unacknowledged aspect of the cycle of violence Unlike those who point solely to media imagery splintered families or lax gun control laws in search of the roots of America's endemic violence Jody M Roy suggests that we all must be held responsible She argues that we reveal our love affair with hatred and violence in the ways we think and speak in our daily lives and in our popular culture The very words we use function as building blocks of callousness and contempt betraying our immersion in subtexts of violence and hatred These subtexts are further revealed in our complex attitudes toward street gangs school shooters serial killers and hate groups and

the paroxysms of violence they unleash As spectators driven by our impulse to watch we become an integral part of the equation of violence In the book s final section Freeing Ourselves of Our Obsession with Hatred and Violence Roy offers practical steps we can take as parents consumers and voters to free ourselves from linguistic and cultural complicity and to help create in America a culture of life *Resources in Education* ,1999 **Handbook of Research on Teaching the English Language Arts** Diane Lapp,Douglas Fisher,2011-01-18 Now in its third edition the Handbook of Research on Teaching the English Language Arts sponsored by the International Reading Association and the National Council of Teachers of English offers an integrated perspective on the teaching of the English language arts and a comprehensive overview of research in the field Prominent scholars researchers and professional leaders provide historical and theoretical perspectives about teaching the language arts focus on bodies of research that influence decision making within the teaching of the language arts explore the environments for language arts teaching reflect on methods and materials for instruction Reflecting important recent developments in the field the Third Edition is restructured updated and includes many new contributors More emphasis is given in this edition to the learner multiple texts learning and sharing one s knowledge A Companion Website new for this edition provides PowerPoint slides highlighting the main points of each chapter The Teacher s Guide to Media Literacy Cyndy Scheibe,Faith Rogow,2012 A Deeper Sense of Literacy is the first book to suggest that media literacy is both a content area and an approach to teaching that can be integrated into any subject area It combines theory and practical application in a way that addresses the most important questions related to media literacy in education today what is it why is it important how can you teach it across a wide range of curriculum areas and grade levels and does it work Rather than focusing on how to teach media literacy Scheibe and Rogow focus on actually using media literacy to teach lessons across the content areas
