Christian Spirituality Arthur Holder, 2009-09-10 Christian Spirituality The Classics is a unique and

comprehensive guide to thirty key Christian spirituality texts Ranging from Origen and Augustine to Jonathan Edwards Th r se of Lisieux and Thomas Merton it offers a view of the texts which is founded in scholarship but which also presents them as living documents that invite even compel contemplative reflection and existential response Each chapter briefly describes the classic text s author and audience gives a synopsis of its contents suggests some of its influence in history and then explores aspects of the text s meaning for readers today Key themes include What is the meaning of life How can human beings find truth How can they discover who they really are How can they live together in peace How can they live more fully in God s presence in this world and be united with God in the world to come The scholars who have written these chapters are all experts on their respective topics but they wear their learning lightly Anyone wishing to discover the riches of Christian spirituality will find this the ideal introduction and should be able to progress to a deeper understanding of the texts themselves

The Darkening Spirit David Tacey,2013-06-26 The twenty first century could well be Jung s century just as the twentieth century was Freud s Jung predicted the demise of secular humanism and claimed we would search for alternatives to science atheism and reason We would experience a new and even unfashionable appetite for the sacred Educated people however would not return to unreconstructed religions because these do not express the life of the spirit as discerned by modern consciousness The sacred has developed a darker hue and worshipping symbols of light and goodness no longer satisfies the longings of the soul The new sacred cannot be contained by the formulas of the past but nor can we live without a sense of the sacred We stand in a difficult place between traditional religions we have outgrown and a pervasive materialism we can no longer embrace These changes in our culture have come sooner than Jung might have imagined In his time Jung struck many as eccentric or unscientific But his works speak to our time since we have experienced the full gamut of Jungian transformations the unsettling of Judeo Christian culture the rise of the feminine the onslaught of the dark side the critique of modernism and positivism and the recognition that the Western ego is neither the pinnacle of evolution nor the lord of creation A new life is needed beyond the ego but we do not yet know what it will look like The outbreak of strong religion and terrorism are signs of the times but these are expressions of a distorted and repressed spirit and not one hopes genuine pointers to the future What the future holds is uncertain but Jung s prophetic vision helps to prepare us for what is to come and this will be of great interest to analytical psychologists and psychoanalysts as well as to theologians futurists sociologists and the general reader

Triumphant Love J Hans Kommers,2020-11-17 The book is a treasure trove for scholars in the field of science of religion who focus on comparative religion spirituality and the reception of Christianity in India and Ireland The strength of the book is its comprehensive scope critical and narratological methodology and the depth of the data analysis The exposition of the contextual creative and strategic missionary work of Amy Beatrice Carmichael in south India is innovative and highly informative The book contains a high level of original research in that it goes beyond the existing research on the Carmichael biographies The knowledge of the field is

comprehensive and the number and quality of sources impressive The biographic genre and methodology complement the extensive research in the book This combination constitutes a genuine historical foundation for the scholarship The main purpose of the book is to open the field of science to and pique the interest of professional theologians with an interest in missiology and in the valuable contribution of Amy Carmichael of Dohnavur The book includes a comprehensive overview of the existing scholarly work on the topic and then makes a further innovative contribution to and in the end provides the most comprehensive picture of the work of Amy Carmichael to date It will become the definitive reference book on the history of Christian missionary work in south India It is original research and no part of the book was plagiarised from any other publication or has been published elsewhere before Creative Psychics, the Art of Regeneration Fred Henkel,1917

Creativity and Spirituality Maureen Miner,Martin Dowson,2017-02-01 The volume was developed to address conceptual relational and formational questions around the phenomena of creativity and spirituality from a multidisciplinary perspective We acknowledge the complexity of each phenomenon and the need for multiple perspectives in a number of ways First different chapters are written from psychological theological or philosophical perspectives Second multiple research perspectives are considered across empirical and phenomenological methods of inquiry Finally multiple associations between creativity and spirituality are evaluated From such multiple perspectives the theme of this volume emerges Both creativity and spirituality are important for individual and societal flourishing but we know little about fostering both in the 21st century Some ways of fostering them are psychologically harmful and need to be avoided New ways of protecting people as they engage in creative and spiritual endeavours are needed In particular formal training in both creativity and spirituality within the sphere of higher education should be developed in the light of current research However new research that integrates multiple perspectives and examines creativity and spirituality together is needed for training that avoids harm and promotes individual and social flourishing The book will be valuable for educators in all disciplines of higher education because it justifies and explicates training in creativity and spirituality within all areas of higher education Further it discusses how such training might best be included within andragogical practice The book will be useful for researchers of creativity and spirituality because it gives an overview of contemporary research issues and findings and proposes a new philosophical theological perspective for integrative research in these areas Students in fields of creativity theology and spirituality will use the book as a synthesis of contemporary theories and research relating to both creativity and spirituality and for direction in post graduate research More broadly Christians and others who appreciate the creative and performing arts will find much to challenge their thinking and deepen their awareness of spirituality within human creativity After Science and Religion Peter Harrison,John Milbank,2022-05-19 The popular field of science and religion is a lively and well established area It is however a domain which has long been characterised by certain traits In the first place it tends towards an adversarial dialectic in which the separate disciplines now conjoined are forever locked in a kind of mortal combat

Secondly science and religion has a tendency towards disentanglement where science does one sort of thing and religion another And thirdly the duo are frequently pushed towards some sort of attempted synthesis wherein their aims either coincide or else are brought more closely together In attempting something fresh and different this volume tries to move beyond tried and tested tropes Bringing philosophy and theology to the fore in a way rarely attempted before the book shows how fruitful new conversations between science and religion can at last move beyond the increasingly tired options of either conflict or dialogue
