God's Gift, World's Deception Christos Retoulas, 2022-04 Situating former Harvard neurosurgeon Dr Eben Alexander's Near Death Experience within the ontological landscape of Romanity or the Byzantine Ottoman Continuum of Roman Ecumenicity namely Judaism Christianity and Islam God's Gift World's Deception is a unique exploration of this unique NDE attesting to its vital and organic ties to those experiences of the New Testament Fathers of the Byzantine Apostolic Catholic Orthodox Church the unity of all being existents which came to them via theosis The book claims that Dr Alexander's experience is indeed a continuation and completion of the theophanic visions of the Old Testament Prophets and is linked to the imaginal divine becomings of the Koranic Ottoman vahdet i v cud tasavvuf Masters the unity of Being Sufism in both Sunni and Alevi traditions but also highlights the distorting effects of the interpretive resources available in the predominantly neo Gnostic cratic West religious and secular as well as its Globalist agenda creating an unfit backdrop for an exegetical attempt at the Proof of Heaven Experience Ultimately God's Gift World's Deception reconfirms the engendered existence of the Divine human Ecumene as a historically spiritual somatic reflection of the Divine Realm and above all it shows the Theanthropic Lord Jesus Christ as the True Om the Real Hak kat Muhammediyye and the Eternal Tao

Phase Media James Ash, 2017-12-14 In Phase Media James Ash theorizes how smart objects understood as Internet connected and sensor enabled devices are altering users experience of their environment Rather than networks connected by lines of transmission smart objects generate phases understood as space times that modulate the spatio temporal intelligibility of both humans and non humans Examining a range of objects and services from the Apple Watch to Nest Cam to Uber Ash suggests that the modulation of spatio temporal intelligibility is partly shaped by the commercial logics of the industries that design and manufacture smart objects but can also exceed them Drawing upon the work of Martin Heidegger Gilbert Simondon and Bruno Latour Ash argues that smart objects have their own phase politics which offer opportunities for new forms of public to emerge Phase Media develops a conceptual vocabulary to contend that smart objects do more than just enabling a world of increased corporate control and surveillance as they also provide the tools to expose and re order the very logics and procedures that created them

Caricature and National Character Christopher J. Gilbert, 2021-04-19 According to the popular maxim a nation at war reveals its true character In this incisive work Chris Gilbert examines the long history of US war politics through the lens of political cartoons to provide new unique insights into American cultural identity Tracing the comic representation of American values from the First World War to the War on Terror Gilbert explores the power of humor in caricature to expose both the folly in jingoistic virtues and the sometimes strange fortune in nationalistic vices He examines the artwork of four exemplary American cartoonists James Montgomery Flagg Dr Seuss Ollie Harrington and Ann Telnaes to craft a trenchant image of Americanism These examinations animate the rhetorical and indeed comic force of icons like Uncle Sam national symbols like the American Eagle political stooges like President Donald J Trump and more as well as the power of political cartoons to comment on issues of race class and gender on the home front Throughout Gilbert portrays a US culture rooted in and riven by ideas of manifest destiny patriotism and democracy for all yet plagued by ugly forms of nationalism misogyny racism and violence Rich with examples of hilarious and masterfully drawn caricatures from a diverse range of creators this unflinching look at the evolution of our conflicted national character illustrates how American cartoonists use farce mockery and wit to put national character in the comic looking glass
