T.L.C,2017-02-10 I believe we all have had these thoughts once or twice in our life Some of us may feel we are cursed and were just left on this earth as someone's cruel joke to manipulate and hurt Im sure that some of us may even be hurting due to circumstances from someone we love and trusted to care for us Whatever your thoughts and questions are there is an answer for it We may not always understand at the time but everything happens for a reason Timing is everything and remember above all some are sicker than others We are not all with healthy thoughts or feelings some people carry some pretty heavy stuff around with them as they try to get through their daily life Some of us carry our parents issues as well as our own This allows us to be bullied and picked on Some of us are desperate some of us are just confused on what we should do No matter what we say out loud or the actions we take the mistakes we make or carry for another will ever be hidden We show all our feelings in our actions as well as expressions We should never allow our self to feel like we dont belong we dont fit in or we are not loved This is our brain giving us false information because of a feeling or thought and sights we are producing This my friends is an unhealthy STATE OF MIND Having this will lead us to destruction lead us to believing anything about us We are no good we dont deserve love we are no good to anyone I hate me I hate my life no one cares no one will miss me What difference will it make if Im here or not     **Citizenship, Education and Violence** Waghid

Yusef,2013-12-30 The focus of this book is to offer a humane response to dealing with violence An interpretive analysis is presented in order to think differently about violence in schools and about how a citizenship education of becoming can deal with the unpredictable consequences of violence in its own potentiality It seems to the authors that given the confident onslaught of violence there is nothing left to do but to offer insight into the nature of violence itself and by so doing to search for unexplored ways of humane response and being The authors are not pretending to hold a magic wand that will sanctify schools into the safe zones that they ought to be and as which they should serve in any society This would be both presumptuous and misleading What one is looking and hoping for however is a renewed engagement a slight tilting of the perspective so that something other than how we have always responded to violence perhaps will emerge The authors are confident that such a deconstructive approach to violence in schools through the lens of a reconsidered view of citizenship education can assist them and others to wrestle with its potential for destruction that can be changed into options for co belonging of a non violent if not peaceful kind     **Business Genius** Peter Fisk,2010-02-16 At last a more inspired approach
