Seeing America First:

See America First Marguerite Shaffer, 2013-08-06 In *See America First* Marguerite Shaffer chronicles the birth of modern American tourism between 1880 and 1940 linking tourism to the simultaneous growth of national transportation systems print media a national market and a middle class with money and time to spend on leisure Focusing on the *See America First* slogan and idea employed at different times by railroads guidebook publishers Western boosters and Good Roads advocates she describes both the modern marketing strategies used to promote tourism and the messages of patriotism and loyalty embedded in the tourist experience She shows how tourists as consumers participated in the search for a national identity that could assuage their anxieties about American society and culture Generously illustrated with images from advertisements guidebooks and travelogues *See America First* demonstrates that the promotion of tourist landscapes and the consumption of tourist experiences were central to the development of an American identity

Seeing America University of Rochester. Memorial Art Gallery, 2006 A stunning full color volume that examines 82 pieces in the University of Rochester Memorial Art Gallery's American collection and their connections to American history culture literature and politics *Seeing America* is the first ever catalog of the University of Rochester Memorial Art Gallery's American collection Founded in 1913 the Memorial Art Gallery was created in conjunction with the University of Rochester so that it would function within a scholarly milieu yet at the same time perform service as a community museum From its conception it has been an ardent advocate for American art which so many counterpart institutions snubbed until at least the 1930s and more often until well after World War II in favor of European and Asian art The 336 page full color volume examines 82 objects and their connections to American history culture literature and politics The 73 articles present a running commentary on each piece by knowledgeable and thoughtful contemporary scholars and artists writing with expertise and insight ultimately presenting a new and deeper understanding that enhances the reader viewer's appreciation of the work The tour ranges from Colonial times to the twenty first century from Maine to Florida to the far West from mighty historical subjects to intimate byways from august figures and events to the humblest and most anonymous The diversity of American experience on display here reminds us that the best American art is inextricably bound up with the essential truths of American experience

See America Mordecai Lee, 2020-05-01 Created in 1937 by Interior Secretary Harold Ickes and given formal status by Congress in 1940 the US Travel Bureau played a seminal role by setting the precedent for federal involvement in tourism Business otherwise hostile to FDR's New Deal enthusiastically supported its work and Roosevelt who significantly expanded the National Park system saw increased tourism as a means to increase attendance bolster economic activity and counteract the Great Depression The Bureau developed unusually extensive public relations and marketing programs that attempted to persuade citizens to travel more The Travel Bureau also quietly engaged in vigorous marketing to encourage African Americans to travel including sponsoring the 1940 and 1941 editions of the Green Book the travel guide for African

Americans facing segregated restaurants and lodging Eventually travel promotion was transferred to the Commerce Department by Congress and President Nixon with a federal surtax to fund it and where it continues today Green Voices Richard D. Besel, Bernard K. Duffy, 2016-02-25 Essays addressing relatively unknown or unexamined speeches delivered by famous or influential environmental figures The written works of nature's leading advocates from Charles Sumner and John Muir to Rachel Carson and President Jimmy Carter to name a few have been the subject of many texts but their speeches remain relatively unknown or unexamined Green Voices aims to redress this situation After all when it comes to the leaders heroes and activists of the environmental movement their speeches formed part of the fertile earth from which uniquely American environmental expectations assumptions and norms germinated and grew Despite having in common a definitively rhetorical focus the contributions in this book reflect a variety of methods and approaches Some concentrate on a single speaker and a single speech Others look at several speeches Some are historical in orientation while others are more theoretical In other words this collection examines the broad sweep of US environmental history from the perspective of our most famous and influential environmental figures

Regional Visionaries and Metropolitan Boosters Matthew Dalbey, 2002-06-30 Dalbey Jackson State U hypothesizes that US regional parkways of the 1920s and 1930s emerged out of two conflicting visions of regional planning and examines how the conflict impacted the development of Skyline Drive in Virginia and the proposed Green Mountain Parkway in Vermont The regional view he says coalesced around the work of Benton MacKaye Lewis Mumford and the Regional Planning Association of America and the metropolitan view grew out of market oriented economic boosterism efforts and was supported by Thomas Adams and the Regional Plan of New York and its Environs He also shows how the tussle between vision and reality social reform or economic optimization continues to inform planning Annotation copyrighted by Book News Inc Portland OR

Pilgrimage to the National Parks Lynn Ross-Bryant, 2013 National Parks America's Best Idea were from the first seen as sacred sites embodying the God given specialness of American people and American land and from the first they were also marked as tourist attractions The inherent tensions between these two realities ensured the parks would be stages where the country's conflicting values would be performed and contested As pilgrimage sites embody the values and beliefs of those who are drawn to them so Americans could travel to these sacred places to honor experience and be restored by the powers that had created the American land and the American enterprise This book explores the importance of the discourse of nature in American culture arguing that the attributes and symbolic power that had first been associated with the new world and then the frontier were embodied in the National Parks Author Ross Bryant focuses on National Parks as pilgrimage sites around which a discourse of nature developed and argues the centrality of religion in understanding the dynamics of both the language and the ritual manifestations related to National Parks Beyond the specific contribution to a richer analysis of the National Parks and their role in understanding nature and religion in the U S this volume contributes to the emerging field of religion and the

environment larger issues in the study of religion e g cultural events and the spatial element in meaning making and the study of non institutional religion

Meaningful Places Rachel McLean Sailor,2014-03-01 The early history of photography in America coincided with the Euro American settlement of the West This thoughtful book argues that the rich history of western photography cannot be understood by focusing solely on the handful of well known photographers whose work has come to define the era Art historian Rachel Sailor points out that most photographers in the West were engaged in producing images for their local communities These pictures didn t just entertain the settlers but gave them a way to understand their new home Photographs could help the settlers adjust to their new circumstances by recording the development of a place revealing domestication alteration and improvement The book explores the cultural complexity of regional landscape photography western places and local sociopolitical concerns Photographic imagery like western paintings from the same era enabled Euro Americans to see the new landscape through their own cultural lenses shaping the idea of the frontier for the people who lived there

Reopening the American West Hal K. Rothman,2016-12-15 Take a good look at the American West and you ll see that the frontier is undergoing constant changes not only changes made to the land but also changes in attitudes about the land held by the people who live there In this book Mike Davis Stephen Pyne William deBuys Donald Worster Dan Flores and others re examine the relationship between people and the environment in the American West over five hundred years from the legacy of Coronado s search for the Cities of Gold to the social costs of tourism and gaming inflicted by modern adventurers By exploring places in the West aspects of the region s past and ways of understanding some of its pressing issues the authors foster a better understanding of how people interact and perceive land Reopening the American West takes a fresh approach to the history of the region examining the premises of earlier scholars as well as those who have redefined the study of the West over the past two decades It combines provocative essays with insightful analyses to address issues that are representative of the West in the twentieth century multiculturalism water issues resource exploitation and to reopen the West for all readers interested in new ways of looking at its wide open spaces Contents Places Dreams of Earth William deBuys Environmentalism and Multiculturalism Dan L Flores Pyre on the Mountain Stephen J Pyne Las Vegas Versus Nature Mike Davis Past s The Legacy of John Wesley Powell Donald Worster Pokey s Paradox Tourism and Transformation on the Western Navajo Reservation Hal K Rothman Negotiating National Identity Western Tourism and See American First Marguerite Schaffer Understanding Place Humanists at the Headgates Helen Ingram Tapping the Rockies Resource Exploitation and Conservation in the Intermountain West Char Miller The Meaning of Place Reimagining Community in a Changing West Robert Gottlieb

Education in the School of Dreams Jennifer Lynn Peterson,2013-05-22 In the earliest years of cinema travelogues were a staple of variety film programs in commercial motion picture theaters These short films also known as scenics depicted tourist destinations and exotic landscapes otherwise inaccessible to most viewers Scenics were so popular that they were briefly touted as the future of film But despite their

pervasiveness during the early twentieth century travelogues have been overlooked by film historians and critics In *Education in the School of Dreams* Jennifer Lynn Peterson recovers this lost archive Through innovative readings of travelogues and other nonfiction films exhibited in the United States between 1907 and 1915 she offers fresh insights into the aesthetic and commercial history of early cinema and provides a new perspective on the intersection of American culture imperialism and modernity in the nickelodeon era Peterson describes the travelogue s characteristic form and style and demonstrates how imperialist ideologies were realized and reshaped through the moving image She argues that although educational films were intended to legitimate filmgoing for middle class audiences travelogues were not simply vehicles for elite ideology As a form of instructive entertainment these technological moving landscapes were both formulaic and also wondrous and dreamlike Considering issues of spectatorship and affect Peterson argues that scenics produced and disrupted viewers complacency about their own place in the world

Quebec to La Belle Province Nicole Neatby, 2018-11-30 Tourism promoters strive to brand their destinations in anticipation of what they think travellers hope to experience In turn travel writers react in part to destinations in line with their expectations While several scholars have documented such patterns elsewhere these have remained understudied in the case of Quebec despite the frequency with which the province was branded and rebranded and its status as a major North American travel destination in the decades leading up to Expo 67 The first comprehensive history of Quebec tourism promotion and travel writing *From Old Quebec to La Belle Province* details changing marketing strategies and shows how these efforts consistently mirrored and strengthened French Quebec's evolving national identity Nicole Neatby also takes into account the contentious role of English speaking promoters in Montreal belying the view that Quebec was unvaryingly represented and appreciated for being old Taking a comparative approach Neatby draws on books and a wide array of newspapers popular and specialized magazines and written and visual sources from outside the tourist genre to reveal how the distinct national and cultural identities of English Canadians Americans and French Quebecers profoundly shaped their expectations and reactions to the province *From Old Quebec to La Belle Province* traces and explains shifting promotional priorities for tourism and travel writers varying reactions over the course of four decades and how these attitudes harmonized with evolving national identities **The Embattled Lyric** Nathaniel Tarn, 2007 This book has two main subjects
