Gangel,2006-10-18 In competitive sports we prize teamwork We know that a mature team will usually beat an astounding collection of individual players The burden of creating such esprit de corps falls to the coach and the team of leaders he has assembled After all a team without a coach cannot win But what happens when the coach himself does not understand the dynamics of teamwork

In a similar manner every leader of every church is a coach of sorts with a ministry team responsible for the life of the church. The question put to you as a pastor is this: Are you a team player? Even more to the point: Whose team are you building? Too many church leaders, writes author Kenn Gangel, have fallen into the trap of personal kingdom building, a focused concern on one's own and present ministry without a wider recognition of kingdom participation. The net effect of this condition has led to narrow vision, stunted church growth, and frustrated relationships within the body of Christ. In contrast, Gangel explores broad and penetrating support throughout the Word of God for team-based, inclusive, cooperative leadership. From Jethro's advice to Moses all the way to Jesus's approach to discipleship, biblical leadership is viewed as a tool to be shared, a model of servanthood, mentoring, and the mutual interdependence of gifts. Along the way, Gangel explores the character attributes of successful biblical leadership: common things like humility, patience, and quiet dignity. From there, he reveals how these qualities open an authentic leader up to the wide and thrilling possibilities of working hand in hand with others in the Lord's work together.

Practicing Servant-Leadership Larry C. Spears, Michele Lawrence, 2016-10-26

Practicing Servant Leadership brings together a group of exceptional thinkers who offer a compendium of thought on the topic of bringing servant leadership into the daily lives of leaders. Each contributor focuses on his or her area of expertise, exploring how servant leadership works in the real world using examples from a variety of organizations such as businesses, nonprofits, churches, schools, foundations, and leadership organizations. Highlights of the book's twelve essays include information on how the idealistic vision of the servant as leader works even in the competitive world of business, encouraging leaders to begin by looking at what they themselves want to become and then to bring this knowledge into their daily leadership; how the principles of servant leadership can enhance our understanding and practice of philanthropy; examining the board chairperson's especially vital role as a servant leader; exploring what leaders learn from being followers. Remaking the Godly Marriage John P. Bartkowski, 2001

In **Remaking the Godly Marriage**, John Bartkowski studies evangelical Protestants and their views on marriage and gender relations and how they are lived within individual families. The author compares elite evangelical prescriptions for godly family living with the day-to-day practices in conservative Protestant households. He asks: How serious are the debates over gender and the family that are manifested within contemporary evangelicalism? What are the values that underlie this debate? Have these internecine disputes been altered by the emergence of new evangelical movements such as biblical feminism and the Promise Keepers? And given the fact that leading evangelicals advance competing visions of godly family life, how do conservative religious spouses make sense of their own family relationships and gender identities?

Leading the Congregation Norman

Shawchuck, Roger Heuser, 2010-10-01 Leading the Congregation is a complete and definitive guide to the practice of church leadership. The book describes essential paradigms for the leader that integrate spiritual integrity and service within a systems view of the congregation and its ministry. This revised and updated version focuses on the challenges of congregational leadership in a culture that has fewer ties to Christian faith. The authors lay out the dual contexts in which church leaders must function: within the congregation and as the congregation's representative to the community. They explain the very different skill sets required to flourish in each. Underlying the revised edition is an insistence on the congregational leader's call from God and cultivation of her or his relationship with God. Leadership is not the same thing as charisma; they explain it is rather a set of attitudes and practices that each of us can and must master if we are to be worthy servants of Christ.
