Barton-Bellessa,2012-04-17 In response to recognition in the late 1960s and early 1970s that traditional incarceration was not working alternatives to standard prison settings were sought and developed One of those alternatives community based corrections had been conceived in the 1950s as a system that might prove more progressive humane and effective particularly with people who had committed less serious criminal offenses and for whom incarceration with constant exposure to serious offenders and career criminals might prove more damaging than rehabilitative The alternative of community corrections has evolved to become a substantial part of the criminal justice and correctional system spurred in recent years not so much by a progressive humane philosophy as by dramatically increasing prison populations court orders to fix overextended prison settings and an economic search for cost savings Although community correction programs have been in place for some 40 years now to date no comprehensive reference resource has tackled this topic Accessible and jargon free and available in both print and electronic formats the one volume Encyclopedia of Community Corrections will explore all aspects of community corrections from its philosophical foundation to its current inception Features Benefits 150 signed entries each with Cross References and Further Readings are organized in A to Z fashion to give students easy access to the full range of topics in community corrections A thematic Reader s Guide in the front matter groups entries by broad topical or thematic areas to make it easy for users to find related entries at a glance In the electronic version the Reader s Guide combines with a detailed Index and the Cross References to provide users with convenient search and browse capacities A Chronology in the back matter helps students put individual events into broader historical context A Glossary provides students with concise definitions to key terms in the field A Resource Guide to classic books journals and web sites along with the Further Readings accompanying each entry guides students to further resources in their research journeys An Appendix offers statistics from the Bureau of Justice *The Ludicrous Laws of Old London* Nigel Cawthorne,2016-06-02

London abounds with all manner of ludicrous laws and not all of these curious statutes have been relegated to the past Despite the efforts of the Law Commission there are medieval laws that are still in force and the City of London and its livery companies have their own legal oddities Laws are made in the capital because parliament is here so are the Old Bailey the Law Courts the House of Lords and now the Supreme Court The privy council which sometimes has to decide cases also sits

in London and there were other courts that used to sit in London from prize courts concerning war booty to ecclesiastical courts Having maintained its ancient rights and freedoms under Magna Carta the City felt free to enact its own laws many of which seem to have had to do with what people could wear Until quite recently for example a man could be arrested for walking down the street wearing a wig a robe and silk stockings unless he was a judge And all human folly has been paraded through the law courts of London to the extent that it is difficult to know where the serious business of administering justice ends and where farce begins As law is made in the courtroom as well as in parliament and elsewhere judges like to keep a firm hand but sometimes so called jibbing juries will simply not do what they are told All sorts of oddities get swept up into the law Legislators particularly love to pass Acts about sex If sexual services are being offered in a London massage parlour for example a police officer must then search the premises for school children According to The Children and Young Persons Act of 1933 it is against the law for children and yowling persons between the age of four and sixteen to frequent a brothel A writ was introduced under both Edward III and Henry IV to ban lawyers from parliament as there were too many of them the reason being that it was easier for a lawyer to spend his time in London attending parliament than it was for a knight of the shires But because parliament was already packed with lawyers it was difficult to make any such rule stick Then an effective way of excluding them was found They were denied the wages paid to members in those days Sadly these days parliament and the government are packed with lawyers once again And they are being paid A law passed in 1540 and still in force today makes it illegal for barbers in the City of London to practise surgery with impeccable impartiality the Act also forbids surgeons to cut hair Finally never forget that under the Vagrancy Act of 1824 you can be convicted of being an idle and disorderly person or a rogue vagabond or incorrigible rogue The same act also outlaws people professing to tell fortunes including palmistry Under the Act it is an offence merely to be suspected
