buttressed by abolitionist rhetoric which seemed to promise riddance of slaves as much as slavery She tells how whites came to blame the impoverished condition of people of color on their innate inferiority how racialization became an important component of New England ante bellum nationalism and how former slaves actively participated in this discourse by emphasizing their African identity Placing race at the center of New England history Melish contends that slavery was important not only as a labor system but also as an institutionalized set of relations The collective amnesia about local slavery's existence became a significant component of New England regional identity

Religious Outsiders and the Making of Americans R. Laurence Moore, 1987-12-03 In light of the curious compulsion to stress Protestant dominance in America's past this book takes an unorthodox look at religious history in America Rather than focusing on the usual mainstream Protestant churches Episcopal Congregationalist Methodist Baptist and Lutheran Moore instead turns his attention to the equally important outsiders in the American religious experience and tests the realities of American religious pluralism against their history in America Through separate but interrelated chapters on seven influential groups of outsiders the Mormons Catholics Jews Christian Scientists Millennialists 20th century Protestant Fundamentalists and the African American churches Moore shows that what was going on in mainstream churches may not have been the normal religious experience at all and that many of these outside groups embodied values that were in fact quintessentially American

Brandt, 2022-04-15 In her eighteenth century medical recipe manuscript the Philadelphia healer Elizabeth Coates Paschall asserted her ingenuity and authority with the bold strokes of her pen Paschall developed an extensive healing practice consulted medical texts and conducted experiments based on personal observations As British North America's premier city of medicine and science Philadelphia offered Paschall a nurturing environment enriched by diverse healing cultures and the Quaker values of gender equality and women's education She participated in transatlantic medical and scientific networks with her friend Benjamin Franklin Paschall was not unique however Women Healers recovers numerous

women of European African and Native American descent who provided the bulk of health care in the greater Philadelphia area for centuries Although the history of women practitioners often begins with the 1850 founding of Philadelphia s Female Medical College the first women s medical school in the United States these students merely continued the legacies of women like Paschall Remarkably though the lives and work of early American female practitioners have gone largely unexplored While some sources depict these women as amateurs whose influence declined Susan Brandt documents women s authoritative medical work that continued well into the nineteenth century Spanning a century and a half Women Healers traces the transmission of European women s medical remedies to the Delaware Valley where they blended with African and Indigenous women s practices forming hybrid healing cultures Drawing on extensive archival research Brandt demonstrates that women healers were not inflexible traditional practitioners destined to fall victim to the onward march of Enlightenment science capitalism and medical professionalization Instead women of various classes and ethnicities found new sources of healing authority engaged in the consumer medical marketplace and resisted physicians attempts to marginalize them Brandt reveals that women healers participated actively in medical and scientific knowledge production and the transition to market capitalism

Mother Emanuel Kevin Sack,2025-06-03 A sweeping history of one of the nation s most important African American churches and a profound story of courage and grace amid the fight for racial justice Few people beyond South Carolina s Lowcountry knew of Emanuel African Methodist Episcopal Church in Charleston Mother Emanuel before the night of June 17 2015 when a twenty one year old white

supremacist walked into Bible study and slaughtered the church's charismatic pastor and eight worshippers. Although the shooter had targeted Mother Emanuel, the first AME church in the South, to agitate racial strife, he could not have anticipated the aftermath: an outpouring of forgiveness from victims' families and a reckoning with the divisions of caste that have afflicted Charleston and the South since the earliest days of European settlement. In *Mother Emanuel*, Pulitzer Prize-winning journalist Kevin Sack explores the inspiring history that brought the church to that moment and the depth of the desecration committed in its fellowship hall. It reveals how African Methodism was cultivated from the harshest American soil and how Black suffering shaped forgiveness into both a religious practice and a survival tool. Sack, who has written about race in his native South for more than four decades, uses the church's history to trace the long arc of Black life in the city where nearly half of enslaved Africans disembarked in North America and where the Civil War began. Through the microcosm of one congregation, he explores the development of a unique practice of Christianity from its daring breakaway from white churches in 1817 through the traumas of the Civil War and Reconstruction to its critical role in the Civil Rights Movement and beyond. At its core, *Mother Emanuel* is an epic account of perseverance, not just of a congregation but of a people who withstood enslavement, Jim Crow, and all manner of violence with an unbending faith.

The Challenge to Racial Stratification Matthew Holden, Jr., 1994-01-01. *The National Political Science Review* is the official publication of the National Conference of Black Political Scientists. This series, now entering its fourth volume, includes significant scholarly research reflecting the diverse interests of scholars from various backgrounds who use different models, approaches, and methodologies. The central focus is on politics and policies that advantage or disadvantage groups because of race, ethnicity, gender, and other major variables. In his introduction to this volume, Matthew Holden describes the rationale for the creation of American racial stratification and boldly shows how American intellectuals have helped reinforce that stratification. Several chapters discuss conflicts in contemporary views of the United States, ranging from a belief in its being a free society to the historical reality of the nation's background as a slave society. Other chapters address the international problem of racial stratification, concentrating on Nigeria and South Africa.

The Cambridge History of Christianity: Volume 8, World Christianities C.1815-c.1914 Sheridan Gilley, Brian Stanley, 2006. This is the first scholarly treatment of nineteenth-century Christianity to discuss the subject in a global context. Part I analyses the responses of Catholic and Protestant Christianity to the intellectual and social challenges presented by European modernity. It gives attention to the explosion of new voluntary forms of Christianity and the expanding role of women in religious life. Part II surveys the diverse and complex relationships between the churches and nationalism, resulting in fundamental changes to the connections between church and state. Part III examines the varied fortunes of Christianity as it expanded its historic bases in Asia and Africa, established itself for the first time in Australasia, and responded to the challenges and opportunities of the European colonial era. Each chapter has a full bibliography providing guidance on further reading.

Prophets Of Protest Timothy Patrick McCarthy, John

Stauffer, 2012-03-13 The campaign to abolish slavery in the United States was the most powerful and effective social movement of the nineteenth century and has served as a recurring source of inspiration for every subsequent struggle against injustice. But the abolitionist story has traditionally focused on the evangelical impulses of white male middle class reformers, obscuring the contributions of many African Americans, women, and others. *Prophets of Protest*, the first collection of writings on abolitionism in more than a generation, draws on an immense new body of research in African American studies, literature, art, history, film, law, women's studies, and other disciplines. The book incorporates new thinking on such topics as the role of early black newspapers, antislavery poetry, and abolitionists in film, and provides new perspectives on familiar figures such as Sojourner Truth, Louisa May Alcott, Frederick Douglass, and John Brown. With contributions from the leading scholars in the field, *Prophets of Protest* is a long overdue update of one of the central reform movements in America's history.
