Selected Essays on Music Vladimir Vasil'evich Stasov, 1968 **Sound Judgment** Richard Leppert, 2023-05-31 The essays in *Sound Judgment* span the full career of Richard Leppert from his earliest to work that appears here for the first time on subjects drawn from early modernity to the present concerning music both popular and classical European and North American. Noted for his path breaking interdisciplinary scholarship on music and visual culture the collection includes key essays on music's visualization in art practices in virtually all visual media including film. The fourteen essays comprising this volume demonstrate Leppert's many contributions to critical musicology particularly in the areas of aesthetics as well as social and intellectual history all of it grounded in a heterodox body of critical and cultural theory with the work of Theodor W. Adorno particularly noteworthy. The collection is preceded by an introduction in which Leppert traces his intellectual development defined in large part by the social cultural and political upheavals of the 1960s and their aftermath both in the academy and in society at large.

Cone, 1989-04-24 Included in these eighteen essays by Cone are his never before published essay The World of Opera and Its Inhabitants the unabridged version of *Music A View from Delft* an introduction to this collection by the author himself and a complete bibliography of his published writings This selection of Cone's writings includes all the most incandescent and influential articles We should have had such a book long ago Joseph Kerman University of California at Berkeley Winner of the ASCAP Deems Taylor Award for 1990 *Music and Sexuality in Britten* Philip Brett, 2006-11-17 Publisher description **Musical Style and Social Meaning** Derek B. Scott, 2017-07-05 Why do we feel justified in using adjectives such as romantic erotic heroic melancholic and a hundred others when speaking about music How do we locate these meanings within particular musical styles These are questions that have occupied Derek Scott's thoughts and driven his critical musicological research for many years In this selection of essays dating from 1995 to 2010 he returns time and again to examining how conventions of representation arise and how they become established Among the themes of the collection are social class ideology national identity imperialism Orientalism race the sacred and profane modernity and postmodernity and the vexed relationship of art and entertainment A wide variety of musical styles is discussed ranging from jazz and popular song to the symphonic repertoire and opera Sound Judgment Richard Leppert, 2023 The essays in *Sound Judgment* span the full career of Richard Leppert from his earliest to work that appears here for the first time on subjects drawn from early modernity to the present concerning music

both popular and classical European and North American. Noted for his path breaking interdisciplinary scholarship on music and visual culture, the collection includes key essays on music's visualization in art practices in virtually all visual media including film. The Right Notes George Perle, 1995. George Perle has divided this collection into four parts: Composers and Works; Bartók, Berg, Schoenberg, Scriabin, and Webern; Towards a New Musical Language; Some Critical Appraisals of Contemporary Music Theory; and On Listening to Modern Music. These 23 articles, reviews, lectures, and speeches represent the best of 50 years of musical thought and insight by one of the keenest musical minds of this century. Sharing this particular composer's point of view leads the reader to an understanding of the linear progression not easily apparent from the last century to the next.

Music-in-Action Tia DeNora, 2017-07-05. This volume brings together DeNora's work published between 1986 and 2007. It includes thirteen essays, some of which have had a major impact on the field. The chapters trace the development of her work from its early concern with musical meaning, historical ethnography, and the everyday perspective to its current focus on music in action. Topics covered include Adorno on Schoenberg and Stravinsky; a theory of music as a space and place for interpretive work; research methods for historical musicology; and the first key statement of her theory of music as an active ingredient in social life. These building blocks are then employed to investigate music and embodied experience, sexuality, and gender differentiation, and music's role as a technology of health. The essays are set in a multi-disciplinary context with an autobiographical introduction.

The Work of Music Theory Thomas Street Christensen, 2016. [Music, Structure, Thought: Selected Essays](#) James Hepokoski, 2017-07-05. Among the most original and provocative musicological writers of his generation, James Hepokoski has elaborated new paradigms of inquiry for both music history and music theory. Advocating fundamental shifts of methodological reorientation within the quest for potential musical meanings, his work spans both disciplines and offers substantial challenges for each. At its core is the conviction that a close study of musical genres, procedures, and structures—those qualities of a composition that are specifically musical—is essential to any responsible hermeneutic enterprise. Selected from writings from 1984 to 2008, this collection of essays provides a generous introduction to the author's most innovative and influential work on a wide variety of topics: musicological methodology; issues of staging and performance; Italian opera; program music; and exemplary studies of individual pieces.

Selected Essays on Music, 1968. *The Politics of Musical Identity* Annegret Fauser, 2017-07-05. This volume explores the way in which composers, performers, and critics shaped individual and collective identities in music from Europe and the United States from the 1860s to the 1950s.
