Field Report Covering Air-raid Protection and Allied Subjects in Kobe, Japan. Civilian Defence Division United States Strategic Bombing Survey, 1947 **Founding Territorial Cults in Early Japan** G. Domenig, 2023-12-11 The first book that deals with the territorial cults of early Japan by focusing on how such cults were founded in ownerless regions Numerous ancient Japanese myths and legends are discussed to show that the typical founding ritual was a two phase ritual that turned the territory into a horizontal microcosm complete with its own terrestrial heaven inhabited by local deities Reversing Mircea Eliade's popular thesis the author concludes that the concept of the human made horizontal microcosm is not a reflection but the source of the religious concept of the macrocosm with gods dwelling high up in the sky The open access publication of this book has been published with the support of the Swiss National Science Foundation *10,000 Chinese-Japanese Characters* Jan Lodewijk Pierson, 1926 **Great Britain and the Opening of Japan 1834-1858** William G Beasley, William G. Beasley, 2013-12-16 Reissue in paperback with new Introduction of the 1951 classic analysis of the crucial years leading up to the Meiji restoration in which Britain provided Japan with its wealth and power model *Shelter* Lloyd Kahn, 1990 Shelter is many things a visually dynamic oversized compendium of organic architecture past and present a how to book that includes over 1 250 illustrations and a Whole Earth Catalog type sourcebook for living in harmony with the earth by using every conceivable material First published in 1973 Shelter remains a source of inspiration and invention Including the nuts and bolts aspects of building the book covers such topics as dwellings from Iron Age huts to Bedouin tents to Togo's tin and thatch houses nomadic shelters from tipis to housecars and domes dome cities sod iglus and even treehouses The authors recount personal stories about alternative dwellings that illustrate sensible solutions to problems associated with using materials found in the environment with fascinating often surprising results **Reading the Kimono in Twentieth-Century Japanese Literature and Film** Michiko Suzuki, 2023-08-31 Often considered an exotic garment of traditional Japan the kimono is in fact a vibrant part of Japanese modernity playing an integral role in literature and film throughout the twentieth century Reading the Kimono in Twentieth Century Japanese Literature and Film is the first extended study to offer new ways of interpreting textual and visual narratives through kimono language what these garments communicate within their literary historical and cultural contexts Kimonos on the page and screen do much more than create verisimilitude or function as one dimensional symbols They go beyond simply indicating the wearer's age gender class and taste as eloquent heterogeneous objects they speak of wartime and postwar histories and shed light on everything from gender politics to censorship By reclaiming kimono language once a powerful shared vernacular Michiko Suzuki accesses inner lives of characters hidden plot points intertextual meanings resistant messages and social commentary Reading the Kimono examines modern Japanese literary works and their cinematic adaptations including Tanizaki Jun ichir's canonical novel The Makioka Sisters and its film versions one screened under the US Occupation and another directed by Ichikawa Kon

in 1983 It also investigates K da Aya s Kimono and Flowing as well as Naruse Mikio s 1956 film adaptation of the latter Reading the Kimono additionally advances the study of women writers by discussing texts by Tsuboi Sakae and Miyao Tomiko authors often overlooked in scholarship despite their award winning bestselling stature Through her analysis of stories and their afterlives Suzuki offers a fresh view of the kimono as complex material to be read She asks broader questions about the act of interpretation what it means to explore both texts and textiles as inherently dynamic objects shaped by context and considered differently over time Reading the Kimono is at once an engaging history of the modern kimono and its representation and a significant study of twentieth century Japanese literature and film

Shooting Blanks at the Anzac Legend Dr Donna Coates, 2023-11-01 War is traditionally considered a male experience By extension the genre of war literature is a male dominated field and the tale of the battlefield remains the privileged and only canonised war story In Australia although women have written extensively about their wartime experiences their voices have been distinctively silenced Shooting Blanks at the Anzac Legend calls for a re definition of war literature to include the numerous voices of women writers and further recommends a re reading of Australian national literatures with women's war writing foregrounded to break the hold of a male dominated literary

tradition and pass on a vital but unexplored women's tradition Shooting Blanks at the Anzac Legend examines the rich body of World Wars I and II and Vietnam War literature by Australian women providing the critical attention and treatment that they deserve Donna Coates records the reaction of Australian women writers to these conflicts illuminating the complex role of gender in the interpretation of war and in the cultural history of twentieth century Australia By visiting an astonishing number of unfamiliar non canonical texts Shooting Blanks at the Anzac Legend profoundly alters our understanding of how Australian women writers have interpreted war especially in a nation where the experience of colonising a frontier has spawned enduring myths of identity and statehood

Wald, 2016-05-02 The California farmlands have long served as a popular symbol of America's natural abundance and endless opportunity Yet from John Steinbeck's *The Grapes of Wrath* and Carlos Bulosan's *America Is in the Heart* to Helena Maria Viramontes's *Under the Feet of Jesus* many novels plays movies and songs have dramatized the brutality and hardships of working in the California fields Little scholarship has focused on what these cultural productions tell us about who belongs in America and in what ways they are allowed to belong In *The Nature of California* Sarah Wald analyzes this legacy and its consequences by examining the paradoxical representations of California farmers and farmworkers from the Dust Bowl migration to present day movements for food justice and immigrant rights Analyzing fiction nonfiction news coverage activist literature memoirs and more Wald gives us a new way of thinking through questions of national belonging by probing the relationships among race labor and landownership Bringing together ecocriticism and critical race theory she pays special attention to marginalized groups examining how Japanese American journalists Filipino workers United Farm Workers members and contemporary immigrants rights activists among others pushed back against the standard narratives of landownership and citizenship
