Shepperton Babylon:

Shepperton Babylon Matthew Sweet, 2006 A history of British movies which includes the scandals the suicides the immolations and the contract killings It is the product of thousands of conversations with veteran film makers From Silent Film Idol to Superman Jonathan Croall, 2023-06-02 A popular romantic actor with a fan club rivalling that of Ivor Novello John Stuart was frequently mobbed by his adoring fans He starred in films by Alfred Hitchcock and G W Pabst played opposite British stars such as Madeleine Carroll Fay Compton Gracie Fields and German actor Conrad Veidt and was also the first actor to ever speak on screen in Britain Yet despite a film career lasting six decades and 172 films his name and achievement are little known today With access to Stuart's private archive his surviving films press cuttings film reviews interviews profiles features and gossip columns his son Jonathan Croall presents a detailed account of an actor who made a significant contribution to the British film industry of the 20th century Acting for the Silent Screen Chris O'Rourke, 2016-11-30 A shop girl wins a newspaper competition and is transformed overnight into a transatlantic celebrity An aristocrat swaps high society for the film studio when she consents to perform in a series of films thus legitimising acting for what some might have considered a low art Stories like these were the stuff of newspaper headlines in 1920s and reflected a craze for the cinema They also demonstrated radical changes in attitudes and values within society in the wake of World War I Chris O'Rourke investigates the myths and material practices that grew up around film actors during the silent era The book sheds light on issues such as the social and cultural reception of cinema the participatory film culture expressed through fan magazines instructional booklets and movie star competitions and the working conditions encountered by actors behind the scenes of silent films Drawing on extensive research and a wealth of archival materials O'Rourke examines how dreams of stardom were fuelled and exploited in the interwar period and reconstructs the personal narratives and experiences of the first generation to imagine making a living on screen In doing so he reveals a missing and much sought after piece of cinematic history to bring to life the developing industries social attitudes and norms of a period of enormous change **The Great British Dream Factory** Dominic Sandbrook, 2015-10-01 SPECTATOR BOOKS OF THE YEAR 2015 Britain's empire has gone Our manufacturing base is a shadow of its former self the Royal Navy has been reduced to a skeleton In military diplomatic and economic terms we no longer matter as we once did And yet there is still one area in which we can legitimately claim superpower status our popular culture It is extraordinary to think that one British writer J K Rowling has sold more than 400 million books that Doctor Who is watched in almost every developed country in the world that James Bond has been the central character in the longest running film series in history that The Lord of the Rings is the second best selling novel ever written behind only A Tale of Two Cities that the Beatles are still the best selling musical group of all time and that only Shakespeare and the Bible have sold more books than Agatha Christie To put it simply no country on earth relative to its size has contributed more to the modern imagination This is a book about the success and the

meaning of Britain's modern popular culture from Bond and the Beatles to heavy metal and Coronation Street from the Angry Young Men to Harry Potter from Damien Hirst to The X Factor

Seventies British Cinema Robert Shail, 2019-07-25 *Seventies British Cinema* provides a comprehensive re-evaluation of British film in the 1970s The decade has long been written off in critical discussions as a doldrums period in British cinema perhaps because the industry facing near economic collapse turned to unacceptable low culture genres such as sexploitation comedies or extreme horror The contributors to this new collection argue that 1970s cinema is ripe for reappraisal giving serious critical attention to populist genre films they also consider the development of a British art cinema in the work of Derek Jarman and Peter Greenaway and the beginnings of an independent sector fostered by the BFI Production Board and producers like Don Boyd A host of highly individual directors managed to produce interesting and cinematically innovative work against the odds from Nicolas Roeg to Ken Russell to Mike Hodges As well as providing a historical and cinematic context for understanding Seventies cinema the volume also features chapters addressing Hammer horror the Carry On films Bond films of the Roger Moore period Jubilee and other films that responded to Punk rock heritage cinema and case studies of key seventies films such as *The Wicker Man* and *Straw Dogs* In all the book provides the final missing piece in the rediscovery of British cinema
