Sherlock Holmes Collection Eps 91:

Imagination Theatre's Sherlock Holmes David Marcum, Lawrence Albert, John Patrick Lowrie, M. J. Elliott, Dennis Bateman, Rick May, David Natale, Gareth Tilley, Matthew Booth, J. R. Campbell, Jeremy B. Holstein, Roger Silverwood, Teresa Collard, Jim French, John Hall, Steven Philip Jones, Iain McLaughlin, Claire Bartlett, Daniel McGachey, 2017-11-27 2017 is the 130th anniversary of the publication of *A Study in Scarlet* the first recorded adventure of Sherlock Holmes and Dr John H Watson What an amazing journey it's been In addition to the pitifully few sixty tales originally presented in *The Canon* published between 1887 and 1927 there have been literally thousands of additional Holmes adventures in the form of books short stories radio and television episodes movies manuscripts comics and fan fiction And yet for those who are true friends and admirers of the Master Detective of Baker Street where it is always 1895 or a few decades on either side of that these stories are not enough Give us more In March 1998 legendary radio dramatist producer writer director and founder of Imagination Theatre listened to this request and broadcast the first of an astounding number of Holmes radio shows over their United States network of stations In the intervening years 128 original Holmes episodes and one recently found lost episode were broadcast before Imagination Theatre closed its doors in early 2017 Additionally the cast and crew performed their version of the entire Holmes Canon between 2005 and 2016 featuring the same actors as Holmes and Watson John Patrick Lowrie and Larry Albert respectively as well as having every script adapted by the same author M J Elliott something that has never been done before Astonishingly this great number of episodes were written by a relatively small group of dramatists Imagination Theatre's departure from the airwaves left a great void both in terms of those seeking movies for your mind but also those wanting new quality stories about the true Sherlock Holmes set in the correct period and featuring tales that truthfully represented Holmes and Watson This book serves both to honor Jim French and his lifetime of achievements and also Mr Sherlock Holmes along with the dramatists cast and crew who brought the new adventures to life Inside this volume you will find a script by every one of the authors who wrote about Holmes for Imagination Theatre representing some of the finest new Holmesian storytelling to be found and honoring the man described by Watson as the best and wisest whom I have ever known Featuring fourteen scripts from every writer who contributed to the series run of Imagination Theatre's Sherlock Holmes

Deny All Knowledge David Lavery, Angela Hague, Marla Cartwright, 1996-12-01 The X Files was one of the most subversive and longest running science fiction series in US television history Yet very little serious work has been done to examine the hit series *Deny All Knowledge* examines topics such as Why is the series such a hit worldwide Why is The X Files so popular online generating dozens of websites and chat groups daily How does The X Files Conspiracy Theory compares to shows from the 1950s Can The X Files be considered a modern day myth What does The X Files tell us about gender roles today

Sherlock Holmes and Philosophy Josef Steiff, 2011-10-11 This

entertaining collection of essays shows that Sherlock Holmes sees things others don't. He sees the world in a different way and by so doing allows us to see that same world and human behavior in different ways as well. Oh sure there have been countless detectives who have followed in his footsteps and who seem to rival his abilities. Just turn on the TV or browse the local bookshop and you'll find idiosyncratic super sleuths using forensics and reasoning to solve a whole host of crimes and misdeeds. And yet no one rivals our dear dear Holmes. Why does Sherlock reign even more than a century later as king? Can this mystery be solved? Unable to reach either Holmes or Watson or Doyle for that matter though we've tried every medium we can think of we've been forced to gather our own team of investigators to practice their powers of observation and perception to apply their own reasoning and methodologies to the task at hand. The results I fear have led us to a number of cases that must be solved first. Is Holmes simply eccentric or a sociopath? Is he human or something from the holodeck? Is he as dangerous on the page as he is in person? Wait does he even exist? For that matter do you? I fear several investigators have been forced to take a much needed holiday after wrestling with that one. What is the source of his faculty of observation and facility for deduction? Systematic training as Watson surmises? Genetic? Or is he just really lucky? And is this whole logic thing compatible with emotions? Are Holmes and Watson good friends or soul mates? Just what is the nature of friendship? Do they complete each other or just get on each other's nerves? And why all the secrecy? Disguises? Deceptions? The plot thickens. What is the essence of consciousness? Is the observable world subject to our intentions? Why does Holmes debunk mysticism when Doyle so readily embraces it? Why is Holmes our favorite drug user? Our notebooks are filled with clues and dare I say answers. Is there more than one way to define the concept justice? Is hope necessary in the world? Is boredom? Play? Can anything really be understood objectively? And just what is the last unresolved mystery involving Sherlock Holmes? The game that's afoot isn't just the thing being pursued but the fun to be had as well.

From Holmes to Sherlock Mattias Boström, 2017-08-01. If you love Sherlock Holmes you'll love this book, the best account of Baker Street mania ever written. Michael Dirda, *The Washington Post*. Winner of the Agatha Award for best nonfiction work, Edgar Award finalist for best critical biographical work, Anthony Award finalist for best critical nonfiction work. Everyone knows Sherlock Holmes. But what made this fictional character dreamed up by a small town English doctor in the 1880s into such a lasting success despite the author's own attempt to escape his invention? In *From Holmes to Sherlock* Swedish author and Baker Street Irregular Mattias Boström recreates the full story behind the legend for the first time. From a young Arthur Conan Doyle sitting in a Scottish lecture hall taking notes on his medical professor's powers of observation to the pair of modern day fans who brainstormed the idea behind the TV sensation *Sherlock* from the publishing world's first literary agent to the Georgian princess who showed up at the Conan Doyle estate and altered a legacy, the narrative follows the men and women who have created and perpetuated the myth. It includes tales of unexpected fortune, accidental romance, and inheritances gone awry and tells of the actors, writers, readers, and other players who have transformed Sherlock Holmes from the gentleman amateur of the Victorian era to the

odd genius of today From Holmes to Sherlock is a singular celebration of the most famous detective in the world a must for newcomers and experts alike Riveting A wonderfully entertaining history TheWall Street Journal Celebrates the versatility of one of fiction s most beloved characters terrific TheChristian Science Monitor *The Passion of David Lynch* Martha P. Reinterpreting Exploration Dane Keith Kennedy, 2014 Exploration was a central and perhaps defining aspect of the West's encounters with other peoples and lands Rather than reproduce celebratory narratives of individual heroism and national glory this volume focuses on exploration's instrumental role in shaping a European sense of exceptionalism and its iconic importance in defining the terms of cultural engagement with other peoples In chapters offering broad geographic range the contributors address many of the key themes of recent research on exploration including exploration's contribution to European imperial expansion Western scientific knowledge Enlightenment ideas and practices and metropolitan print culture They reassess indigenous peoples' responses upon first contacts with European explorers their involvement as intermediaries in the operations of expeditions and the complications that their prior knowledge posed for European claims of discovery Underscoring that exploration must be seen as a process of mediation between representation and reality this book provides a fresh and accessible introduction

to the ongoing reinterpretation of exploration's role in the making of the modern world The One-Act Play Companion Colin Dolley, Rex Walford, 2015-01-30 The one act play stands apart as a distinct art form with some well known writers providing specialist material among them Bernard Shaw Tom Stoppard Harold Pinter Caryl Churchill Alan Ayckbourn Edward Albee and Tennessee Williams There are also lesser known writers with plenty of material to offer yet sourcing one act plays to perform is notoriously hard This companion is the first book to survey the work of over 250 playwrights in an illuminating A Z guide Multiple styles nationalities and periods are covered offering a treasure trove of compelling moments of theatre waiting to be discovered Guidance on performing and staging one act plays is also covered as well as essential contact information and where to apply for performance rights A chapter introducing the history of the one act play rounds off the title as a definitive guide

Red Dwarf: Discovering the TV Series Tom Salinsky, 2024-11-30 Explores the unique journey of the long running British sitcom detailing its creation cast changes and enduring legacy through critical analysis and behind the scenes insights Red Dwarf is virtually unique among British sitcoms It began in 1988 and was still releasing new episodes in 2020 making it one of the longest running sitcoms of all time but the core cast has remained largely unchanged And its science fiction flavor contrasts strongly with the drawing rooms and sofas which were the norm when it launched and the fast cut mockumentary style which is popular today And yet this is a show which nobody wanted to make and which only barely made it to our screens at all In this work Tom Salinsky will look at exactly how it came to be who was considered for the cast but didn't make it how it was radically reinvented for the third sixth seventh ninth and tenth seasons how it survived the breakup of its key creative partnership the loss of the original spaceship models BBC strikes the departure of a major cast member and the seemingly self defeating rules which the writers imposed on themselves But this isn't just a behind the scenes account It's also a detailed critical analysis examining why the best episodes succeed and why the less impressive episodes struggle while also finding time to ask just how a hologram made of light can smell burning camphor wood why a creature evolved from a cat is familiar with Wilma Flintstone or just how long Lister and Kochanski were dating for How can all this possibly be contained in one book It can't Volume I will cover the first six series and Volume II will conclude the story of Red Dwarf on television as well as looking at the novels comic strips computer games and more

Television Cities Charlotte Brunsdon, 2018-01-19 In Television Cities Charlotte Brunsdon traces television's representations of metropolitan spaces to show how they reflect the medium's history and evolution thereby challenging the prevalent assumptions about television as quintessentially suburban Brunsdon shows how the BBC's presentation of 1960s Paris in the detective series Maigret signals British culture's engagement with twentieth century modernity and continental Europe while various portrayals of London ranging from Dickens adaptations to the 1950s nostalgia of Call the Midwife demonstrate Britain's complicated transition from Victorian metropole to postcolonial social democracy Finally an analysis of The Wire's acclaimed examination of Baltimore marks the profound shifts in the ways television is now made and consumed

Illuminating the myriad factors that make television cities Brunsdon complicates our understanding of how television shapes perceptions of urban spaces both familiar and unknown
