the book examines the forgotten world of early cosmopolitan Australian osteopathy debunking popular posthumous commercialised claims about Bowen's work and asserts the importance of traditional approaches in naturopathic osteopathy. Though an interrogation of conflicting origin stories and myths about Bowen's work it highlights the important contributions of naturopathic pioneers FG Roberts and Maurice Blackmore. The background narrative is the struggle of mainstream chiropractic and osteopathy seeking professional recognition and forged from in fighting between overseas and Australian chiropractic and osteopathic political interests. Counterposed is the posthumous popular interpretations that orphaned Bowen's work from its wellsprings in naturopathic osteopathy. This is an accessible book for historians and practitioners of early osteopathy chiropractic and naturopathy especially to the large international community of accredited Bowen therapists.
