Ship Models In Miniature:

Miniature Ship Models Paul Jacobs, 2008-05-30 This book is the first comprehensive history of how the 1/1200 scale and its 1/1250 continental equivalent became accepted as the modern standard for miniature ship models. The origins can be traced back to the first years of the twentieth century and their use as identification aids by the military during the First World War but when peace came the manufacturers aimed their increasingly sophisticated products at collectors and acquiring, modifying or scratch building miniature ship models has been an avidly pursued hobby ever since. This book charts the commercial rise and fall of the manufacturers and the advancing technology that produces ever more detailed and accurate replicas. The author himself a lifetime collector and builder of models looks at the products of each manufacturer past and present rating their quality and suggesting why some are regarded as more collectible than others. But the book deals with more than off the shelf models covering subsidiary issues like painting, modifying and diorama settings and is illustrated throughout with many of the finest examples of the genre. The combination of fascinating background information with stunning visual presentation will make this book irresistible to any collector or enthusiast. **Ship Models in**

Miniature Donald McNarry, 1975 *Miniature Ship Models*, 2008 **Miniature Ship Models** Paul Jacobs, 2008-05-30 This beautifully illustrated history of miniature ship models features hundreds of color photographs of some of the finest miniature ships ever built. In this informative book model expert Paul Jacobs traces the history of modern models back to their use as identification aids by the military in World War I. *Miniature Ship Models* is the first serious history of the industry's development, the commercial rise and fall of companies and the advancing technology that produced ever more detailed and accurate replicas. Writing with collectors in mind, Jacobs looks at the products of each manufacturer past and present rating their quality and suggesting why some are more collectible than others. Jacobs also addresses subjects of interest to model makers such as painting, modifying and diorama settings. Illustrated throughout with many of the finest examples of the genre, the combination of fascinating background information with stunning visual presentation will make this book irresistible to any collector or enthusiast. *Miniature Ship Models* P. Jacobs, 2007-11-15 **Ship Models in Miniature** Donald McNarry, 1975 *Ships in Miniature* Lloyd McCaffery, 1988-01-01 *Shipbuilding in Miniature* Donald McNarry, 1955

Building a Miniature Navy Board Model Philip Reed, 2013-08-01 This latest step by step volume from Phil Reed tackles what for many are regarded as the ultimate expression of the ship model maker's art: the Navy Board model. These beautiful early eighteenth century works of art are well represented in the major maritime museums both here and in the States as well as in private collections and here the author deals with the construction of a miniature 1/192 scale model of the Royal George of 1715 in which all the conventions of Navy Board framing and planking are demonstrated. He takes us through every stage of the work with the aid of nearly 400 photographs, each one accompanied by detailed text. Methods of hull and deck framing, internal and external planking, the construction of the complex stern with its array of galleries, doors

and windows are all covered the rendering of the multitude of decorative carvings on the figurehead stern and broadside is also demonstrated At the end of the book there is a short section showing his model of Syren which demonstrates how the techniques used to frame Royal George could be adapted for ships of a later date using single and double frames closer to full size practice

The Ship Models of August F. Crabtree John A. Tilley, August F. Crabtree, Mariners' Museum (Newport News, Va.), 1991 A handsomely illustrated look at an extraordinary collection of exquisite miniature ships created by one man over a period of twenty eight years

Naval Ship Models of World War II in 1/1250 and 1/1200 Scales Robert K. Liu, 2021-02-28 A guide for collectors and modelers packed with photos technical information practical advice and history The origins of 1 1250 and 1 1200 scale models can be traced back to the first years of the twentieth century and their use as identification aids by the military during the First World War When peace came the manufacturers aimed their increasingly sophisticated products at collectors and ever since then acquiring enhancing modifying or scratch building miniature ship models has been an avidly pursued hobby around the world This new book focuses on models of the ships of the Second World War and the author addresses all the practical issues that might confront collectors who like to enhance convert and modify their models or even scratch build models of ships not commercially available The book covers both Allied and Axis warships naval airplanes merchant conversions and even an Italian armed schooner and provides historic and technical information on the ships represented as well as practical advice on modeling them including twenty five chapters covering everything from initial production techniques such as spin casting silicon mold casting resin casting die casting plastic mold injection and 3D printing through techniques for enhancing and modifying models to eventually researching and scratch building an uncommon ship or type The focus is always on particular vessels and the vast array covered builds into a fascinating panorama of the vessels that fought across the world's oceans in that era The combination of intriguing background and historical information combined with detailed practical information and more than 300 stunning photographs makes this book irresistible to collectors modelers or anyone with an interest in the navies of the Second World War

The Gurob Ship-Card Model and Its Mediterranean Context Shelley Wachsmann, 2013-01-09 When Shelley Wachsmann began his analysis of the small ship model excavated by assistants of famed Egyptologist W M F Petrie in Gurob Egypt in 1920 he expected to produce a brief monograph that would shed light on the model and the ship type that it represented Instead Wachsmann discovered that the model held clues to the identities and cultures of the enigmatic Sea Peoples to the religious practices of ancient Egypt and Greece and to the oared ships used by the Bronze Age

Mycenaean Greeks Although found in Egypt the prototype of the Gurob model was clearly an Aegean style galley of a type used by both the Mycenaeans and the Sea Peoples The model is the most detailed representation presently known of this vessel type which played a major role in changing the course of world history Contemporaneous textual evidence for Sherden one of the Sea Peoples settled in the region suggests that the model may be patterned after a galley of that culture Bearing a typical Helladic bird head decoration topping the stempost with holes along the sheer strakes confirming the use of stanchions the model was found with four wheels and other evidence for a wagon like support structure connecting it with European cultic prototypes The online resources that accompany the book illustrate Wachsmann s research and analysis They include 3D interactive models that allow readers to examine the Gurob model on their computers as if held in the hand both in its present state and in two hypothetical reconstructions The online component also contains high resolution color photos of the model maps and satellite photos of the site and other related materials Offering a wide range of insights and evidence for linkages among ancient Mediterranean peoples and traditions The Gurob Ship Cart Model and Its Mediterranean Context presents an invaluable asset for anyone interested in the complexities of cultural change in the eastern Mediterranean at the end of the Bronze Age and the beginning of the Iron Age The Gurob ship cart model is was part of an exhibition entitled Beyond the Nile Egypt and the Classical World at the J Paul Getty Center March 27 September 9 2018 Read about it here <http://blogs.getty.edu/iris/egyptian-ship-model-sheds-light-on-bronze-age-warfare-and-religion/> Digital supplement to the book featuring 3D models <http://www.vizin.org/Gurob/Gurob.html> **Library of Congress Subject Headings: F-O** Library of Congress.
