Ship Names: Origins and Usages During 45 Centuries Don H. Kennedy, 1974 Don H Kennedy presents here the first comprehensive account of ship names Kennedy deals authoritatively with every aspect of the ship naming tradition He examines in detail naming theories and practices and ancient and modern markings He also examines the sources of modern ship names He shows how names inform plead rebuke threaten inspire and honor how they refer to incidents hopes friendships emotions and ideas and how they may involve religion economics politics propaganda superstition and name magic **Ships Names** Don H. Kennedy, 1974 Ship names Don H. Kennedy, 1974 The Oxford Handbook of Names and Naming Carole Hough, 2016-04-28 In this handbook scholars from around the world offer an up to date account of the state of the art in different areas of onomastics in a format that is both useful to specialists in related fields and accessible to the general reader Since Ancient Greece names have been regarded as central to the study of language and this has continued to be a major theme of both philosophical and linguistic enquiry throughout the history of Western thought The investigation of name origins is more recent as is the study of names in literature Relatively new is the study of names in society which draws on techniques from sociolinguistics and has gradually been gathering momentum over the last few decades The structure of this volume reflects the emergence of the main branches of name studies in roughly chronological order The first Part focuses on name theory and outlines key issues about the role of names in language focusing on grammar meaning and discourse Parts II and III deal with the study of place names and personal names respectively while Part IV outlines contrasting approaches to the study of names in literature with case studies from different languages and time periods Part V explores the field of socio onomastics with chapters relating to the names of people places and commercial products Part VI then examines the interdisciplinary nature of name studies before the concluding Part presents a selection of animate and inanimate referents ranging from aircraft to animals and explains the naming strategies adopted for them

Pinsel, 1982 Caraleigh Steven A. Hill, 2022-05-13 The Caraleigh neighborhood in south Raleigh was founded in 1892 with the opening of a cotton mill fertilizer plant and workers town The old textile complex with its immense brick structures continue to evoke a strong impression of a bygone period The old mill remains the community's focal point as of 2022 leading some to worry that Caraleigh's modernized structure may conceal dark secrets After the Civil War cotton mills were at the heart of the South's frenzied pursuit of economic and psychological regeneration between 1880 and 1915 As Raleigh's greatest textile venture Caraleigh itself was founded by a group of cotton investors The origins of Raleigh's north south

divide can be seen in the many economic psychological social and political perils While the Downtown South project promises a bright future for Raleigh in 2022 a close examination of the city s economic and social stratification in the past reveals the city s inequality resulting in an affluent north Raleigh and a pauperized south Raleigh ghetto This work illuminates previously unrecognized aspects of Raleigh s history such as how an outskirts neighborhood shaped the city s development during the twentieth century *Joyful Trek* Robert H.
