

Galileo's ship thought experiment

No experiment within the ship's cabin can detect the ship's motion if the ship moves in the same direction at a constant velocity. This is still true, even when considering the speed of light.

Frame of reference where water is at rest is the ship's water

Singular Thought and Mental Files Rachel Goodman, James Genone, Nick Kroll, 2020-02-06 The notion of singular or de re thought has become central in philosophy of mind and language yet there is still little consensus concerning the best way to think about the nature of singular thought Coinciding with recognition of the need for more clarity about the notion there has been a surge of interest in the concept of a mental file as a way to understand what is distinctive about singular thought What isn't always clear however is what mental files are meant to be and why we should believe that thoughts that employ them are singular as opposed to descriptive This volume brings together original chapters by leading scholars which aim to examine and evaluate the viability of the mental files framework for theorizing about singular thought The first section of the volume addresses the central issues of the definition and nature of singular thought as well as how it relates to the notion of a mental file The second section addresses the legitimacy of the mental files conception of singular thought by assessing the philosophical motivations or the purported empirical support for the view or by laying out a specific version of it The third section helps to clarify both the notion of a mental file and the mental files conception of singular thought by focusing on their role in explaining de jure coreference in thought and language The volume then concludes with a final section that casts doubt on the mental files conception and the legitimacy of the file theoretic framework more generally **Confed: 2721**

Xenocide War, 2012-10-19 In *Confed 2721* Mr Moores premier novel Moore creates a vision of the not very distant future Heroes and villains human and alien take the reader on an exciting interstellar jaunt The foundation for Moores twenty eighth century technologies currently exists Rik Hunter a nanotech enhanced Sentinel of the Confederation uncovers an interstellar plot to exterminate mankind and all its allies Devious and genocidal the duplicitous alien species turns the Confederations own interstellar gate system into the ultimate weapon of mass destruction The alien menace plans the complete destruction of six sentient races and hundreds of worlds Rik discovers evidence of multiple genocides perpetrated by this newest member of the Confederation and precipitates an interstellar war Like a marshal of the old west Rik Hunter polices the frontier of mankinds expansion into the galaxy Piracy smuggling drugs alien monsters invading aliens and romance are all part of his story *The Takers* Jerry Ahern, **Spirits Along the Columbia River** Ira Wesley
